The Triennial Report on the working of the Charitable Dispensaries in Bengal for the three years 1890—92, and the Resolution recorded on it by Government.

The detailed Report on the administration of the Charitable Dispensaries in Bengal, which is prepared by the Inspector-General of Civil Hospitals once in three years, was submitted last year, and he has therefore on this occasion merely forwarded with brief notes the usual annual returns showing the working of those institutions during 1893. An important question connected with the medical administration of the Province engaged the attention of Government during the year, viz., the propriety and the possibility of improving the pay and prospects of the Civil Hospital Assistant class, so as to attract better men into the service, and thus enable Government to insist on higher qualifications in candidates for employment as Civil Hospital Assistants. The whole question was referred to the consideration of a Committee, who were appointed in the month of December: their report had not been received when the year closed. Earlier in

the year, however, as a first step towards the improvement of their position, the Lieutenant-Governor, on the recommendation of the Inspector-General of Civil Hospitals, allowed supernumerary Civil Hospital Assistants when unemployed to draw their full grade pay of Rs. 20 or Rs. 25 instead of a reduced salary of Rs. 10, as was formerly the case.

2. *Number of dispensaries.*—The number of dispensaries open at the close of the year 1893, from which statistics were received for incorporation in the Provincial Returns, was 339, against 299 in the previous year. Of this increase of 40 in the number of dispensaries, 24 were new institutions opened during the year, the remainder being dispensaries of older standing, such as those maintained by the Irrigation Department and the Court of Wards, and also the Dufferin Hospitals for women, the statistics of which have now for the first time been included in the annual returns.

3. Two Local Fund dispensaries were sanctioned at Samastipur and Sherghati, but not opened. Orders also were passed for bringing three more private dispensaries on the Government list, but two of these were not opened during the year, and no returns were received from the third. Besides these, there are 13 dispensaries already in existence, maintained or aided by the Court of Wards and the Lady Dufferin Fund, the statistics of which have not been included in the present returns, though they will be included in future. The Lieutenant-Governor commends the action of Dr. Harvey in arranging for the inclusion of these institutions, without which the returns did not show the true measure of charitable medical relief afforded in Bengal. Since the close of the year instructions have been issued to the Board of Revenue to require the managers of all dispensaries in Wards' estates to bring them under Government supervision and to make them conform to the rules of the Dispensary Manual. Similarly, it was decided, in communication with the Committee of the Countess of Dufferin Fund, that all their dispensaries and hospitals in these Provinces should be brought under the same supervision.

4. *Number of patients treated.*—The total number of patients treated during the year was 1,926,528, against 1,613,771 of the previous year, showing an increase of 312,757. Excluding the number of patients (62,129) treated in those hospitals which have now for the first time been included in the Provincial Returns, the real increase was 250,628, against an increase of 117,717 in 1892 over the figures for 1891. The Lieutenant-Governor is glad to notice this steady advance in the figures of attendance, since it affords the best testimony to the good management and popularity of the charitable dispensaries in the mufassal. The daily average attendance of patients rose from 12,320 in 1892 to 15,426 in 1893. In 14 dispensaries the increase in the number of patients was over 3,000 in each case, the most marked among them being Laheria Serai (Darbhanga) and Gopalganj (Faridpur), where the increase respectively was 14,506 and 7,149; on the other hand, there was a decrease of 2,000 and upwards in six cases, the largest being in Madhubani, where the number fell off by 7,849. The increase is generally attributed either to the growing popularity of the institution, or to the greater unhealthiness of the year, or to both causes; but these explanations are not always either convincing or consistent. For instance, an increase of nearly 7,000 in the Darbhanga Dispensary has been ascribed to the "excessive prevalence of malarial fevers," whilst the falling off of 7,849 at Madhubani in the same district is said to be due to the "healthiness of the year." The falling off of 2,102 patients at Chanchal in the Malda district is reported to have been occasioned by the temporary "absence of the permanent incumbent (medical subordinate in charge) on privilege leave," a reason which, in the opinion of the Lieutenant-Governor, is most insufficient.

5. *In-door patients*—One hundred and sixty-three dispensaries received both in-door and out-door patients, as against 148 in the previous year, the total number of in-patients treated being 40,589, against 37,845 in 1892, thus showing an increase of 2,744 persons. The total number of beds available rose from 2,357 in 1892 to 2,511, but the daily average of attendance was 1,693 only, which shows that full advantage is not yet taken of the accommodation provided for in-patients at hospitals. The attention of the managing bodies of these charitable institutions is again drawn to the remarks in the Resolution of last year pointing out the advisability of providing suitable accommodation

(1) for the relatives of patients near the dispensaries, and (2) for moribund cases and pauper patients. It is gratifying to notice that with a larger number of in-patients treated during the year, viz. 40,589, against 37,845 of the previous year, the number of deaths in hospitals fell off from 5,107 to 5,059, the death-rate of inmates being thus reduced from 13·49 to 12·46 per cent. The percentage of mortality was as usual largest in the hospitals along the pilgrim route to Puri, the proportion rising in one case as high as 49 per cent. of the patients treated. Evidently a large proportion of the sufferers were in a moribund condition when received into the hospital.

6. *Out-door patients.*—The table in the margin shows that, with the exception of a single year (1885), the number of out-door patients has gone on increasing every year during the last decade, the number having almost doubled during that period. It is satisfactory to notice that twenty-two dispensaries had an average daily attendance of 100 and upwards in 1893 as against sixteen which reached this standard in the previous year. The largest average daily attendance (267) was at the Municipal dispensary at Chapra.

Year	Number of patients treated	Increase over previous year.
1	2	3
1884	965,555	...
1885	960,218	—5,337
1886	1,006,457	46,239
1887	1,055,465	49,008
1888	1,106,700	51,235
1889	1,179,813	73,143
1890	1,239,850	60,007
1891	1,460,195	220,345
1892	1,575,926	115,731
1893	1,885,939	310,013

7. *Diseases treated.*—As usual, "malarial fevers" contributed the largest number of cases treated at the dispensaries, forming no less than 21·1 per cent. of the total number of cases treated both in-door and out-door, against a percentage of 19·2 in the previous year. The number of fever cases rose from 320,113 in 1892 to 408.043 during 1893, and even allowing for the figures returned from the new dispensaries, it is clear that there was a very large increase in the number of fever patients, and that in the year 1893 fever was very common. Cases of bowel-complaints (dysentery and diarrhœa) rose from 71,781 to 87,243. The Inspector-General of Civil Hospitals attributes the unusual prevalence of these diseases to the prolonged and heavy rains of the year, and though the Sanitary Commissioner's vital statistics show that the fever mortality was not high, the ratio being only 20·78 per thousand as against 22·84 in 1892, it is clear that a larger proportion of fever patients came to the dispensaries for relief. The number of cases of cholera and small-pox fell off from 9,795 and 191 in 1892 to 8,077 and 91 respectively; and although it is well known that such cases are only in rare instances brought to a hospital, it may be inferred from a comparison of the figures for the two years that these diseases were on the whole less prevalent during the year 1893 than during 1892. The statistics in the Sanitary Commissioner's Report fully corroborate this inference. The number of lepers who attended at the hospitals was 3,286, against 2,769 in 1892, the largest number being treated at the Darbhanga and Laheria Serai dispensaries, viz., 209 and 138 respectively.

8. *Surgical operations.*—The Lieutenant-Governor observes with satisfaction that the total number of surgical operations, both major and minor, increased from 86,915 in 1892 to 92,476 during the year under review, for it is on the success of these operations that the fame and popularity of charitable dispensaries largely depends. The largest numbers of major operations were performed in the hospitals named in the margin, whilst in twelve hospitals more than a thousand operations of both kinds were performed, Dacca and Monghyr heading the list with 3,380 and 3,360 operations respectively. The officers who performed 150 or more major operations were the following:—

Dacca	632
Gaya ...	607
Chapra ...	482
Bankipore ...	480
Monghyr	465
Arrah ...	288
Burdwan	237
Cuttack	234
Muzaffarpur ...	231

Assistant Surgeon Apurba Krishna Das (Chapra) ...	326
Surgeon-Major R. H. Whitwell (Gaya)	286
Assistant Surgeon Ram Kali Gupta (Bankipore) ...	255
Apothecary J Burnett (Dacca)	243
Assistant Surgeon Lalit Mohan Laha (Monghyr) ...	227
Assistant Surgeon Nritto Gopal Mitter (Arrah) ...	207
Surgeon-Lieutenant-Colonel G. Price (Burdwan)	190
Assistant Surgeon Sheik Mohomed Hosain (Barh) ...	184

The number of operations for cataract (extraction of the lens) fell off from 2,333 in 1892 to 2,221 during 1893. The officers named in the margin were responsible for the largest number of these operations, whilst ten other officers carried out fifty operations and upwards. The number of lithotomies performed during the year as compared with the previous year fell from 191 to 143. Surgeon-Major Whitwell (Gaya) operated in the largest number of cases, viz. 21. Eight ovariotomies were performed, and in five cases death occurred: this result is explained by the fact that only the very worst cases submit to operation. The Inspector-General of Civil Hospitals is requested in future, when mentioning the names of officers who are conspicuous for activity in surgery, to state the names of the hospitals to which they were attached.

Surgeon-Major R. H. Whitwell (Gaya)	170
Assistant Surgeon Apurba Krishna Das (Chapra) ..	146
Assistant Surgeon Nritto Gopal Mitter (Arrah) ...	113
Surgeon-Lieut.-Col. G. Price (Burdwan)	107
Assistant Surgeon Ram Kali Gupta (Bankipore)...	103

9. *Sex of patients.*—The total number of females treated during the year, both as in-door and out-door patients, was 299,187, against 249,410, showing an increase of 49,777, or 19 per cent. Although this represents but an infinitesimal fraction of the female population of these provinces, the advance is satisfactory, and it is expected that, with the gradual increase in suitable accommodation provided by the construction of Dufferin Hospitals throughout the province, the number of female applicants for medical help will increase, though the progress is necessarily slow. The average daily attendance of female in-patients was no more than 346, although 718 beds were available for them.

10. *Income and expenditure.*—The total income of the dispensaries during 1893, inclusive of the opening balance of Rs 25,289, was Rs. 6,14,737, against Rs. 5,48,699 of the previous year, which included a larger opening balance of Rs. 35,327. The net increase in the income was Rs. 76,076, due to a large extent to the inclusion of the statistics of a number of dispensaries for the first time this year. The increase was contributed largely by Government (Rs 13,457), by Local as distinguished from Municipal Funds (Rs. 25,162), and by subscriptions from natives of India (Rs. 35,232). The latter appear chiefly under institutions which had not been included in the returns in previous years.

11. The total expenditure of the year was Rs. 5,86,365 against Rs. 5,23,544, showing an increase of Rs. 62,821. This increase was due mainly to the newly-included dispensaries, but there was also some additional expenditure on salaries of medical officers and subordinate establishment, bazar and European medicines, diet, and miscellaneous charges. Whilst reviewing this subject, it may be noticed that future returns are expected to show a perceptible saving of expenditure on European medicines under the scheme lately sanctioned by the Lieutenant-Governor, which contemplates the supply from England at wholesale prices of such drugs, instruments, and medical necessaries as cannot be better obtained in India, and the supply of tinctures and other alcoholic preparations from a leading Calcutta house at a greatly reduced cost. Government have with this object made the important concession of allowing the firm to obtain duty-free the amount of country spirit required for those preparations. Although the expenditure on diet on the whole shows an increase, as noticed above, the annual cost of maintenance of each patient was Rs. 39-7-2 in 1893 as against Rs. 40-6-5 of the previous year. The Lieutenant-Governor would expect to see the cost of diet of in-patients at dispensaries increase rather than decrease, as was the case in 1893. Towards the total expenditure of Rs. 5,63,737 (excluding the amount invested during the year), Government contributed in cash Rs 41,434 or 7·35 per cent. But besides this, in the majority of instances Government supplied the medical officers, who are the mainstay and support of the dispensaries all over the province. No part of the salaries of Civil Surgeons is debited to the dispensaries situated at district head-quarters, which are daily visited by them; and at subdivisional head-quarters Government pays the salary of the Assistant Surgeon or Civil Hospital Assistant for doing his regular work, whilst the local dispensary has only to pay Rs. 20 or Rs 10 a month, respectively, for the services of these highly-trained medical subordinates; thus the ostensible contribution of 7·35 per cent. of the expenditure represents only a small portion of the pecuniary assistance actually rendered by Government.

12. *Inspections.*—One hundred and fifty-four dispensaries were inspected by Civil Surgeons four times (the minimum fixed by the Dispensary Manual) or upwards during the year, as against 119 in the previous year. Although the figures show improvement, the results are still far from satisfactory, and the Lieutenant-Governor thoroughly supports the serious injunction of the Inspector-General of Civil Hospitals to all medical officers that inspection is one of the most important of their duties, and His Honour expects them to discharge it as fully as possible. Sir Charles Elliott is glad to find that Dr. Harvey personally inspected 28 dispensaries at district head-quarters, 6 at subdivisions, and 14 outlying dispensaries between the date of his taking over charge of the Medical Department on the 8th November 1893 and the middle of May 1894. For this energy and industry, as well as for the ability with which he has administered the Department since he took charge, the Lieutenant-Governor's thanks are due to him. His Honour also desires to acknowledge his obligations to Surgeon-Colonel J. G. Pilcher and Surgeon-Lieutenant-Colonel J. H. Newman, both of whom officiated as Inspector-General at different times during the year 1893.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Government of Bengal.

LIBERALITY OF KUMAR NARENDRA LAL KHAN OF MIDNAPORE.

No. 3005L.S.-G., dated Calcutta, the 26th July 1894.

From—J. H. TEMPLE, Esq., Offg. Under-Secretary to the Government of Bengal, Municipal Department,

To—The Commissioner of the Burdwan Division.

I AM directed to acknowledge the receipt of the correspondence ending with your letter No. 659M., dated the 7th July 1894, in which you report that the proposal to devote the donation of Rs. 30,000 made by Kumar Narendra Lal Khan of Midnapore to perpetuate the memory of his father to the endowment of a zenana hospital at that place has been abandoned, and that it has been decided to spend that amount in the construction of a bridge over the Jhalka nalla.

2. In reply, I am directed to say that the Lieutenant-Governor is pleased to accept the liberal offer made by the donor, and, in supersession of Government order No. 2484Med., dated the 28th July 1893, I am to request that you will be so good as to convey to him an expression of His Honour's acknowledgment of his liberality. This letter will be published in the *Calcutta Gazette.*

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the 31st July* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 28TH OF JULY 1894.

DURING the previous week a cyclonic storm had advanced from the north-west angle of the Bay across the coast a little to the south of Balasore, and had travelled in an almost westerly direction across India. It had given extremely heavy weather and excessive rainfall to many of the districts it had passed through, particularly in the western districts of India, and on the 21st, or the last day of that week, its centre was a little to the north-west of Indore. On the 22nd the storm had advanced in a north-westerly direction and its centre was near Mount Abu. On the 23rd it had advanced into Lower Sind, and on the 23rd though a depression was still indicated over that area it was very feeble, and on the 24th the depression had entirely disappeared. Thus the storm which first formed a little to the west of the centre of the Bay about the 14th instant continued to exist quite up to the 23rd or for ten days, during which period it also advanced in directions varying in different parts of its course from north-north-westerly to westerly over a path probably seventeen or eighteen hundred miles long, giving heavy weather and abundant rain practically throughout its existence. It has therefore been a storm of exceptional nature.

At the beginning of the week under review while this first storm was still in existence conditions were again becoming disturbed in the Bay. On the 22nd, or the first day of the week, pressure was falling at all except a few of the south-western stations, the fall being largest in the north-east angle of the Bay. It is probable that even on this day a small storm was forming, and the weather at Akyab on the 22nd was extremely suspicious with a falling barometer during the day, while to the south very strong winds and very squally weather were reported from Diamond Island. On the 23rd the observations indicated that a feeble storm existed partly over the head of the Bay and partly over the Sunderbans with a centre to the south of Barisal, where pressure was 0·13 inch in defect. It is uncertain whether this storm was the continuation of the disturbance indicated in the north-east angle of the Bay on the 22nd, but if it is, the disturbance must have moved in a north-westerly direction during the 24 hours from the 22nd to the 23rd. During the 23rd the storm commenced to move in a westerly direction, and up to 4 P.M. of that date it had not intensified to any extent, but remained a feeble disturbance. From that time, however, it commenced to deepen and intensify rapidly, and at 8 A.M. of the 24th it was a deep and rather severe storm, the centre being about 30 to 40 miles to the south-east of Calcutta, where a pressure of only 29·203″ was recorded or 0·318″ below the normal. With the rapid deepening of the storm the cyclonic circulation of winds became much stronger and extended over the whole of Bengal. The main force of the winds was to the south and south-east of the storm, and a severe gale of wind blew at Saugor Island and the Sandheads, commencing from about midnight on the 23rd, and for several hours the wind velocity at Saugor Island averaged more than 60 miles an hour. At noon of the 24th the centre of the storm was about 25 or 30 miles to the south-south-west of Calcutta, the centre having passed apparently close to Diamond Harbour, and at this time the direction of its movement must have been a little to the north of west. Its rate of advance then became very slow for some hours, and up to 10 P.M. the storm had made little further advance, and its centre was still to the south-west of Calcutta and south-east of Midnapore. This retardation appears to have been due to an alteration in the direction of its movement which was taking place, for it is always the case that storms move very slowly while recurving. After 10 P.M. it moved almost in a north-westerly direction, and at 8 A.M. on the 25th the centre was to the south of Bankura and nearer to that station than to Midnapore. The pressure at Bankura on the 25th at 8 A.M. was 29·274″ or 0·211″ in defect, and it is probable the storm was already commencing to fill up slightly, though it was still accompanied by strong cyclonic winds. On the 26th at 8 A.M., the storm was entering Baghelkhand, and had hence moved across Chota Nagpur during the 24 hours at an average rate of about 12 miles an hour in a west-north-westerly direction. The depression at the centre of the storm was much smaller than on the previous day, and probably did not exceed a tenth of an inch, but it was still accompanied by a fairly strong cyclonic circulation of winds. On the 27th the storm had marched nearly westwards and the centre was near Sutna, and the storm was still a shallow depression only, while on the 28th, or the last day of the week, it had almost completely filled up.

During the passage of the storm in addition to the very low pressures recorded and the very strong cyclonic circulation of winds, which gave very stormy weather with rough sea at the head of the Bay, and rather squally or somewhat stormy weather over a large part of Bengal, the storm also gave heavy rainfall over the south-western part of the province, the falls being exceedingly heavy near the path of the centre. Thus on the morning of the 24th Contai in the Midnapore district reported 15·29 inches of rain, Dantoon also in the Midnapore district 10·31 inches, Diamond Harbour 9·90 inches, and Tamluk, Ghatal and Saugor Island each more than 7 inches. On the 25th Mohanea, Shahabad district, reported 6·65 inches, and Aurangabad, Kendrapara, Jajpur, Akhyapada, Chandbali, Bhadrack and Balasore from four to six inches, and so on.

Pressure.—The variation of pressure during the week has been dependent on the formation and movement of the storm just described. The mean pressure for the week varies from an excess pressure of 0·01 inch to 0·02 inch at the extreme northern stations to a defect of nearly 0·08 inch at Calcutta and defects of about 0·05 inch and 0·06 inch at Saugor Island, Jessore, Midnapore, Cuttack, &c.

Temperature.—The mean average temperature for the week has been in defect by from about 1° to 2° in South-West Bengal, Orissa and Chota Nagpur, while it has been nearly normal or slightly in excess in the other districts. For the whole of the province the mean variation has been a defect of two-thirds of a degree: on the other hand in Assam there has been an excess of 1·5°.

Rainfall.—The average rainfall in Orissa has equalled nearly 6 inches, while in Chota Nagpur it has averaged about 5 inches and in South-West Bengal nearly 4 inches. In East Bengal an average fall of 2·81 inches is recorded, and in Bihar 1 80 inches. Exceedingly small falls only have been reported from North Bengal, which has averaged the small amount of 0·50 inch. The falls have been very abundant and above the normal in Orissa, Chota Nagpur and South-West Bengal, while large defects are reported in Bihar and East Bengal and exceedingly large defects in North Bengal, some parts of which indeed have received little or no rain.

Expressed as percentages of the normal rainfall, the actual falls during the week have equalled the following amounts:—South-West Bengal 128 per cent., North Bengal 18 per cent., East Bengal 76 per cent., Bihar 64 per cent., Orissa 183 per cent., and Chota Nagpur 148 per cent. Taking each division to have an equal value in the calculation, the rainfall of Bengal for the week has equalled 103 per cent. of the normal fall.

In Assam the rainfall has also been generally light during the week; Cachar has received 1·23 inches, Sibsagar 0·69 inch, and Dhubri only 0 46 inch.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 28th of July 1894:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; lr, lightning reflection.

RULES AS HERETOFORE EXISTING AND IN FORCE.

10. In the case of leases for the season, the remuneration for performing the duties mentioned in clauses I to VII of the rule immediately preceding shall be two per cent. on the assessments, which shall be paid by the Canal Officer, and for performing the duty mentioned in clause IX one per cent. on the collections, which shall be paid by the Collector.

11. In the case of leases for three or seven years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to VII of Rule 9 shall be 2 per cent. yearly on the assessments of the year, which shall be paid by the Canal Officer, and 2 per cent. yearly on the realizations for performing those mentioned in clauses VIII and IX, which shall be paid by the Collector.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharif* season leases (Appendix III), shall be subject to the following conditions:—

IV.—With the special sanction of the Superintending Canal Officer—

(*a*) Existing five-year leases may be cancelled and included in an application for a seven or three-year lease under the preceding rules.

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharif* season leases (Appendix IX) shall be issued under the following conditions:—

VI.—Water-rates will be levied on the areas specified in the permits, and measurement of the area actually irrigated will not be necessary.

40. Water-rates imposed under section 79 of the Acts shall be at the rates shown in the schedule following or such lower rate as the Divisional Canal Officer may fix;—

	Flow or lift.	
	Rate per bigha.	Rate per tenth of a bigha.
	Rs. A. P.	Rs. A. P.
For water used in an unauthorized manner	5 0 0	0 8 0

Provided that in the *kharif* season, 25th June to 25th October, no water-rates under this section shall be levied where the unauthorized irrigation is effected with water taken from land included in a lease, but irrigation effected by cutting a village channel or committing a criminal offence, the perpetrator of which cannot be discovered, may be assessed with the previous sanction of the Collector, which must be obtained before any detailed measurement of the land irrigated without authority is made. *Subject to the provisos regarding irrigation in the kharif season mentioned above, persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates at the rate imposed by this rule.*

42. Water-rates assessed under section 78, 79, or 80 of the Act shall be due and payable on the dates mentioned below:—

Seven-year leases ...	}	First moiety ...	15th December.
Three-year leases ...	}	Second moiety ...	1st March.

RULES AS NOW ALTERED.

10 In the case of leases for the season, the remuneration for performing the duties mentioned in clauses I to VII and IX of the rule immediately preceding shall be two per cent. on the assessments (excluding fractions of rupees), which shall be paid by the canal officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

11. In the case of leases for three or seven years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to IX of Rule 9, shall be 3 per cent. yearly on the assessment of the year (excluding fractions of rupees), which shall be paid by the canal officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharif* season leases (Appendix III), shall be subject to the following conditions—

IV.—With the special sanction of the Superintending Canal Officer—

(*a*) Existing leases for terms of five or three years may be cancelled and included in an application for a seven-year lease under the preceding rules.

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharif* season leases (Appendix IX) shall be issued under the following conditions:—

VI.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

40. Water-rates imposed under section 79 of the Act for the irrigation effected in the hot weather or rabi seasons, shall be assessed by the Canal Officer at rates which shall be fixed by the Divisional Canal Officer, and which shall not be greater than those shown in the following schedule:—

	Flow or lift.	
	Rate per bigha.	Rate per tenth of a bigha.
	Rs. A. P.	Rs. A. P.
For water used in an unauthorized manner ...	5 0 0	0 8 0

In the *kharif* season water-rates shall be imposed by the Divisional Canal Officer under section 79, *only* when the irrigation is effected by cutting a village channel or committing a criminal offence, and only after the sanction of the Collector has been obtained to make a detailed measurement of the land irrigated without authority.

(NOTE.—Land irrigated in the *kharif* season with water taken from a leased area shall not be assessed under this rule.)

The Collector's sanction is not in itself authority for the imposition of water-rates: it merely authorizes proceedings being instituted. The rates to be charged in the *kharif* season will be subject to the same maxima as in the hot weather and *rabi* seasons. Persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates according to the season in which water is used, at the rates specified in this rule.

42. Water-rates assessed under section 78, 79, or 80 of the Act shall be due and payable on the dates mentioned below:—

Seven-year leases ...	}	First moiety ...	15th December.
Three-year leases ...	}	Second moiety ...	1st March.

RULES AS HERETOFORE EXISTING AND IN FORCE.

Season or annual leases—

Bhadoi and crops classed as *bhadoi*...		1st November.
Rice and sugarcane waterings, from the 25th June to the 25th October		15th December.
Rabi and crops classed as *rabi*, including sugarcane waterings, from the 25th October to the 25th March		1st April.
Hot-weather rate		1st July.
Sugarcane	First moiety ...	15th December.
	Second moiety ...	15th February.
Assessments under section 79 of the Act or under Rule 40.		On receipt of the demand statement by the Collector.
Assessments under section 80 of the Act.		
Water supplied by volume between the 1st of September and 31st of October.		One moiety before the outlet is opened; the other moiety 15th December.
Water supplied by volume to fill *aharas*.		The whole amount before the outlet is opened.

The Divisional Canal Officer will endeavour to forward as many of the demand statements as possible to the Collector fifteen days before the dates fixed for payment, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

54. The contractor shall as such be responsible for the performance of the duties devolving on the *lambardar* under these rules, but may appoint a *lambardar*, whose name shall be communicated to the Sub-divisional Canal Officer, and whose removal, for good cause to be recorded in writing, may be ordered by the Divisional Canal Officer. He shall, whether he appoints a substitute to act as *lambardar* or not, be responsible for reporting all changes in the occupiers of lands included in the lease to the Collector.

55. The contractor as *lambardar* shall be entitled to remuneration at the rate of 5 per cent. on the assessments subject to the provisions contained in Rule 15.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

58. The contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-divisional Canal Officer shall proceed to appoint a *lambardar* under Rule 12, and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due deligence in making collections. In such cases three months' notice at least before the 25th of June next following shall be given, and the removal shall take effect from that day.

RULES AS NOW ALTERED.

SEASON LEASES—

Under schedule No. II.	For rice and sugarcane.	15th December.
	For Bhadoi, &c.	1st November.
Under schedule No. III.	Rabi and sugarcane.	5th April.
Under schedule No. IV.	Hot-weather irrigation.	1st July.
Assessments under section 79 of the Act or under Rule 40.		On receipt of the demand statement by the Collector.
Assessments under section 80 of the Act.		
Water supplied by volume between the 1st of September and 31st of October.		One moiety before the outlet is opened; the other moiety 15th December.
Water supplied by volume to fill *aharas*.		The whole amount before the outlet is opened.

The Divisional Canal Officer shall forward the demand statements of leases under schedule No. II, to the Collector as soon as they have been prepared in accordance with rule 32. He will forward these and all other demand statements as soon as they are ready, and will endeavour to send them at least fifteen days before the dates fixed for the payment of the water-rates, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

54. In the case of a lease entered into under an application in the form given as Appendix I, a contractor may subsequently be appointed by the Collector with the written approval of the Superintending Canal Officer. Such contractor must, for the whole term of the lease, have a beneficial interest in some part of the land included in the application, and must sign an application in the form given as Appendix IIA. The appointment shall not be made unless the lumbardars and leading cultivators give their assent in writing thereto, and the Collector is satisfied that the appointment of a contractor is acceptable to the signatories to the lease.

55. The contractor appointed under rules 50 and 54 may, but shall not necessarily, be lambardar. The lambardar will in all cases be appointed by the Canal Officer under the provisions of rule 12, and shall be remunerated at the rates specified in rules 11 and 14 subject to the conditions mentioned in rule 15.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received, nor shall the Collector take any steps towards the appointment of a contractor under rule 54 until the written assent of the Superintending Canal Officer has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Subdivisional Canal Officer shall proceed to appoint a *lambardar* under rule 12 and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due diligence in making collections. In such cases, three months' notice at least before the 25th of June next following shall be given, and the removal shall take effect from that date. The Collector may under the conditions and procedure specified in rule 54 appoint a new contractor in place of a contractor who has resigned.

RULES AS HERETOFORE EXISTING AND IN FORCE.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be sent to the Divisional Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained to admit of demands being written off under this head.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 24, 39, 43, 52, 53, 54, 57, 58, 59, 61, 62 and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

71(*d*). Schedule IV following will be in force in respect to permits issued for the irrigation of land after the 25th February 1891.

75. SCHEDULE No. IV.

82. When the original crop shown in a field irrigated by canal water fails, and a fresh crop is shown in the *same season*, as defined in the schedules above, water-rates shall be levied on the second crop only. If no second crop is sown, water-rate shall be levied at the rate of ten annas a digha.

RULES AS NOW ALTERED.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be forthwith sent to the Superintending Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained through the Superintending Canal Officer to admit of demands being written off under this head.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 15, 24, 39, 43, 52, 53, 54, 57, 58, 59, 61, 62 and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

71(*d*). Schedule IV following will be in force in respect to permits issued for the irrigation of land after the 25th February 1895.

82. When in the area covered by a season lease only (I) no crop is sown in a field, or (II) the crop fails during the currency of the lease, water-rates may be levied at the rate of ten annas a bigha, provided that no application to be charged at these reduced rates shall be entertained unless presented 20 days before the crop is cut, and also during the currency of the lease.

APPENDIX IIA.

Form of application for appointment as a Contractor.

I APPLY to be appointed contractor under rules 50 to 60 for the collection of all sums payable on application No. for irrigation on mauza. . I will abide by the rules mentioned above and by all others passed under the Act, and give every assistance in my power to the Collector in any legal proceedings that may be instituted for the recovery of water-rates under this application.

[*To be added when the Contractor takes the responsibility of collecting the entire sum due, under rule* 56.]

In consideration of being permitted to deduct 7½ per cent. from the sum due under this application, I undertake to pay the whole amount due to Government on the dates mentioned in clause 4, and to myself take the risk of any default on payment by the applicants.

SURVEY OF INDIA DEPARTMENT,
Calcutta, 16th July 1894.

T. A. POPE,
Offg. Asst. Surveyor-General,
In charge, Map Record and Issue Office.

TO CONTRACTORS.

SEALED tenders in duplicate will be received by the Ordnance Officer in charge, Madras Arsenal, up to 17th September 1894, for supply to the Arsenal of the undermentioned articles (more or less), in whole or in part, from 1st April 1895 to 31st March 1896.

2. Printed forms of "Lists or Schedules" of the stores (in whole or in part), for the supply of which tenders are invited, and the form of contract deed which, in the event of a tender being accepted, must be signed by the contractors, are procurable at this office daily (Sundays and holidays excepted).

3 Tenders will only be received on these printed forms, two of which are procurable on application at this office on payment of Rs. 2.

4. These lists or schedules should be in duplicate and in English, and should specify in words as well as in figures the rate at which the article named in them will be delivered, and should be accompanied by a statement that the tenderers have submitted samples of the articles they tender for. Fractional parts of pies in rates will not be accepted. Rates to include cost of delivery at Madras.

5. Tenders should be accompanied by a deposit of Rs. 2 per cent. in Bank receipt or Government Promissory Note as earnest money, up to a maximum of Rs. 2,000, which deposit will be returned on execution of the contract deed or rejection of the tenders.

6. Tenders not complying with these conditions will be rejected.

7. The approval or rejection of tenders rests with the Inspector-General of Ordnance, who reserves to himself the right of rejecting any tender or any items in any tender without explanation.

8. Tenders will be opened at this office at 12 noon on the 18th September 1894. Parties tendering are invited to attend.

9. In the case of an accepted tender, the tenderer must be prepared to execute an agreement.

10. In the event of the party whose tender is accepted failing to take it up, his earnest money will be forfeited.

11. On failure to carry out the contract fully, it shall be competent for the Inspector-General of Ordnance to confiscate the whole or any part of the security deposit to Government at his own discretion.

12. Parties tendering are particularly requested to give their address in full.

13. Parties tendering for any of the following descriptions of hides will be required to submit samples therewith, and particular attention is directed to the specifications of such samples as shown below. It must be clearly understood that the samples represent the lowest quality of leather which the contractor can supply. Consequently no supplies can be accepted at the contract rate which are in any way inferior to the sample in their individual value. Each hide will, however, be judged by its own aggregate merits against the sample, so that a better grown hide than sample will not be rejected on account of small blemishes not present in the sample.

Any number of samples of each quality may be tendered, but only one will be selected to guide supply.

Rocks and shoals north-westward and westward of Diamond Point.

WITH reference to Notice to Mariners No. 199, dated 26th August 1893, issued by this office, the British Admiralty has given the following information relating to the positions of rocks and shoals in the vicinity of Diamond Point (Jambu Ayer), derived from a recent Netherlands chart of the locality :—

1. The bank named Minjak, with a depth of 6 fathoms on it, and 15 to 19 fathoms around, lies with Diamond Point, north extreme, bearing E. by S. $\frac{3}{4}$ S. (S. 70° E.), distant 9$\frac{1}{2}$ miles, and Pasai summit S. by W. $\frac{1}{4}$ W. (S. 16° W.).

Approximate position, lat. 5° 19′ 20″ N., long. 97° 21′ 30″ E.

2. The shoal named Tenga, with a depth of 2$\frac{3}{4}$ fathoms on it, and 12 to 14 fathoms around, lies about 1$\frac{1}{2}$ miles S.E. by S. (S. 34° E.) from Minjak, or with Diamond Point, north extreme, bearing E. by S. $\frac{1}{4}$ S. (S. 76° E.), distant 8$\frac{1}{4}$ miles, and Pasai summit S. by W. $\frac{3}{4}$ W. (S. 19° W.).

3. The rock Karang Timau is awash at low-water springs, with depths of 8 to 10 fathoms around, and lies with Diamond Point, north extreme, bearing East, distant 6 miles, and Pasai summit S.S.W. $\frac{1}{4}$ W. (S. 25° W.).

Approximate position, lat. 5° 16′ 15″ N., long. 97° 24′ 15″ E.

4. There is a general extension of shoal water to the north-westward of Diamond Point, its width within the 5 fathoms line being about 2 miles. The north-west extreme of this shoal, where there is a depth of 5 fathoms, with 3$\frac{3}{4}$ fathoms immediately south-eastward and less water towards Diamond Point, lies with the north extreme of Diamond Point, bearing S.E. $\frac{3}{4}$ E. (S. 53° E.), distant 3$\frac{3}{4}$ miles, and Pasai summit S.S.W. $\frac{1}{4}$ W. (S. 28°W.).

5. From about one mile westward of Diamond Point to 18 miles westward of that point, the high-water mark has advanced seaward as much as one mile for the greater part of the distance; and at 11 miles from Diamond Point depths of less than 3 fathoms extend 4 miles north-westward of the position of Changkul, as shown on the old charts.

Approximate position, north-west extreme of 3 fathoms, lat. 5° 14′ 30″ N., long. 97° 19′ E.

CAUTION.—Considerable caution is requisite when navigating in the vicinity until corrected charts have been issued.

EASTERN ARCHIPELAGO—BORNEO NORTH COAST.

Dangerous rocks near Lankayan on the track hitherto recommended.

THE British Admiralty has given notice (No. 305 of 1894) of the following dangers discovered, and alterations in the buoys and beacons on the north coast of Borneo :—

Two rocks having 6 to 7 feet water over them lie near Lankayan on the track hitherto recommended; these rocks are 2 cables apart, on a N. 13° E. and S. 13° W. bearing from each other.

From the south-western rock Lankayan bears No. 34° E., distant 2$\frac{3}{10}$ miles. This rock is marked on the south-west side by a small black *cask* buoy. At 5 cables S. 35° W. from the buoy is a coral patch of 5 fathoms.

Approximate position of the south-west rock, lat. 6° 28′ 35″ N., long. 117° 53′ 55″ E.

(2) *Shallow water between Langaan and Great Bakkungaan.*

Also, that a large coral patch with 8 feet water over it lies in the channel between Langaan and Great Bakkungaan, the exact position of which has not yet been determined.

Approximate position of Langaan, lat. 6° 12$\frac{1}{2}$′ N., long. 118° 9′ 30″ E.

(3) *Alterations in buoys and beacons in Mallawalte channel.*

1. A beacon with black spherical cage has been erected on the rock situated S. 35° E., distant 1$\frac{1}{10}$ miles from Kukuban, with Tibakkan, bearing N. 66° E.

Approximate position, lat. 6° 54′ 55″ N., long. 117° 25′ 10″ E.

2. The beacon on Sandy island (previously notified as having disappeared; Supplement, 1893, to Eastern Archipelago, part I., 1890, page 8) has been replaced, and is now screwed into the rock.

Approximate position, lat. 6° 49′ 20″ N., long. 117° 37′ 0″ E.

3. The beacon formerly marking Leonan reef has disappeared and will not be replaced.

Approximate position, lat. 6° 44′ 30″ N., long. 117° 37′ 35″ E.

4. An iron perch surmounted by a black cage has been placed on the reef, at 2⅛ miles N. 61° E. from the position of Leonan reef beacon (removed).

Approximate position, lat. 6° 45′ 40″ N., long. 117° 39′ 40″ E.

NOTE.—The red buoy marking this reef has been removed.

5. The black and red horizontally striped buoy, marking the 2½ fathoms patch situated 1¾ miles N. E. ¾ N. from Billean has been moved, and now marks a 3 fathoms patch, situated 3¾ miles N. E. ¼ N. (N. 40° E.) from Billean island.

Approximate position, lat. 6° 39′ 30″ N., long. 117° 48′ 45″ E.

RED SEA, WESTERN SHORE—MASSAWA CHANNEL, NORTHERN APPROACH.

Verification and position of Saunders' reef.

THE following Notice to Mariners (No. 306 of 1894), issued by the British Admiralty, is republished :—

Saunders' reef was originally reported as seen breaking, by Mr. Kemp Saunders of the steam-ship *Shat-el-Arab* on 11th February 1893, and the report was published in Notice to Mariners, No. 150 of 1893. As the position and depth given made it a formidable danger to vessels approaching Massawa channel, one of H. M. Ships was directed to search the vicinity, but nothing was found.

A second search made by Commander A. W. Paget, H. M. S. *Dolphin* in May 1894, has, however, been more successful and the existence of the reef has been verified, the position being about 3¾ miles S.E. of that originally reported.

The following particulars are furnished by Commander Paget :—

Saunders' reef is of coral formation, about 400 yards in diameter; the least depth found upon it is 2 fathoms, with deep water close around.

Beacons destroyed in Inner route to Torres strait.

THE British Admiralty has given notice, No. 307 of 1894, that the undermentioned beacons in the Inner route to Torres strait are damaged or have been destroyed :—

1. Ellis islet (No. VII), square black beacon.
   Approximate position, lat. 13° 22′ 10″ S., long. 143° 40′ 55″ E.
2. Bow reef, square black beacon.
   Approximate position, lat. 13° 18′ 25″ S., long. 143° 39′ 30″ E.
3. Chilcott rocks, triangular red beacon.
   Approximate position, lat. 13° 16′ 20″ S., long. 143° 36′ 0″ E.
4. Tih Tih (t t) reef, square black beacon.
   Approximate position, lat. 13° 8′ 40″ S., long. 143° 36′ 5″ E.
5. Chapman island (No. X), square black beacon.
   Approximate position, lat. 12° 53′ 40″ S., long. 143° 34′ 50″ E.
6. Wye (y) reef, cape Direction, square black beacon.
   Approximate position, lat. 12° 48′ 50″ S., long. 143° 35′ 30″ E.

NOTE.—These beacons will be restored as soon as practicable.

CAUTION.—At it appears that the beacons on the reefs in the Inner route are liable to damage, or destruction, and as some time may elapse before they are replaced, Mariners are cautioned not to place implicit reliance on their being always available as aids to navigation.

Lights exhibited in approach to Miwara.

WITH reference to Notice to Mariners, No. 134, dated 9th July 1894, issued by this Office, the British Admiralty has given further notice (No. 319 of 1894), that the under-mentioned lights are now exhibited in the approach to Miwara :—

1. Hyaku Kuan light is a *revolving white* light *every twenty seconds*, elevated 240 feet above the sea, and visible in clear weather from a distance of 16 miles.

The light-house, built of stone, is 25 feet high, cylindrical in shape and coloured white.

The illuminating apparatus is of the 5th order.

Approximate position, lat. 34° 18′ 0″ N., long. 133° 16′ 20″ E.

2. Ohama saki light is a *fixed white* light, showing a *red* sector over Kakarize rock. The light is visible between the bearings S. 56° E., through south and west, and N., 43° W., and the *red* sector between S. 50° E. and S. 45° E.; it is elevated 52 feet above the sea, and in clear weather should be visible from a distance of 3 miles.

As this light is not constantly watched, it cannot be implicitly relied on.

The light-house, built of stone, is 21 feet high, cylindrical in shape, and coloured white.

Approximate position, lat. 34° 21′ 25″ N., long. 133° 10′ 10″ E.

3. Chodaiu light is a *fixed white* light with *two red* sectors, exhibited from a beacon at an elevation of 22 feet above the sea, and should be visible in clear weather from a distance of 3 miles.

The light shows *white* between the bearings N. 66° W. and S. 63° W., *red* from S. 63° W. to S. 43° W., over Kakarize rock, *white* from S. 43° W. through south to S. 89° E., and again *red* between S. 89° E. and N. 33° E.; in other directions it is obscured.

As this light is not constantly watched, it cannot be implicitly relied on.

The beacon is built of stone, conical in shape, and is coloured in black and red horizontal bands.

Approximate position, lat. 34° 22′ 20″ N., long. 133° 8′ 10″ E.

4. Ko Saki sima light is exhibited from a light-house on the north-western extreme of the island. The light is a *fixed white* light, visible between the bearings S. 61° W., through south and east, and N. 24° E.; elevated 74 feet above the sea, and should be visible in clear weather from a distance of 3 miles.

As this light is not constantly watched, it cannot be implicitly relied on.

The light-house is built of stone, 16 feet high, cylindrical in shape, and is coloured white.

Approximate position, lat. 34° 21″ 50″ N., long. 133° 5′ 50″ E.

5. Ko ne sima light is shown from a light-house on the northern extreme of the island. It is a *fixed white* light with a *red* sector, elevated 139 feet above the sea, and visible 3 miles in clear weather.

The light shows *white* between N. 77° W. through west, south and east, and N. 84° E., *red* between N. 84° E. and N. 74° E., over Admiral shoal, and *white* from N. 74° E. to N. 57° E.; in other directions it is obscured.

As this light is not constantly watched, it cannot be implicitly relied on.

The light-house is built of stone, 12 feet high, cylindrical in shape, and is coloured white.

Approximate position lat. 34° 20′ 0″ N., long. 133° 4′ 30″ E.

6. Kuno sima ligh is exhibited from a light-house on the southern extreme of the island. The light is a *fixed white* light with *two red* sectors, elevation 56 feet above the sea, and should be visible in clear weather from a distance of 6 miles.

It shows *white* from S. 75° E. to N. 60° E., *red* from N. 60° E. to N. 39° E., over Kodono sima bank, and *white* from N. 39° E., through north and west to S. 66° W., and *red* from S. 66° W. to S. 55° W., over Admiral shoal; in other directions it is obscured.

The light-house is built of stone, 16 feet high, cylindrical in shape, and coloured white.

Approximate position, lat. 34° 18′ 5″ N., long. 132° 59′ 30″ E.

7. Mebaru saki light is exhibited from a light-house on the north-east extreme of Osaki sima. The light is a *fixed white* light with a *red* sector, elevated 173 feet above the sea, visible in clear weather from a distance of 3 miles.

It shows *white* from S. 29° W. to S. 71° W., *red* from S. 71° W. to N. 81° W. over Kodono sima bank, and *white* from N. 81° W. to N. 18° E.; in other directions it is obscured.

As this light is not constantly watched it cannot be implicitly relied on.

The light-house, built of stone, is 12 feet high, cylindrical in shape, and coloured white.

Approximate position, lat. 34° 16′ 35″ N., long. 132° 56′ 25″ E.

8. Nakano hana (Noka no hana) light is exhibited from a light-house on the south-east extreme of Osaki sima, the light is *fixed white* light with a *red* sector, elevated 141 feet above the sea, visible in clear weather from a distance of 3 miles.

It shows *white* from N. 56° E., through north and west, to S. 39° W.; *red* from S. 39° W. to S. 29° W., and *white* from S. 29° W. to S. 5° E.; in other directions it is obscured.

The light-house is built of stone, 12 feet high, cylindrical in shape, and coloured white.

Approximate position, lat. 34° 12′ 50″ N., long. 132° 55′ 10″ E.

9. Oge sima light, exhibited from a light-house on the south-west extreme of that island, is a *revolving white* light *every twenty seconds*, elevated 111 feet above the sea, and visible in clear weather from a distance of 16 miles, between the bearings north, through east to S. 11° W.

The light-house is built of stone, 25 feet high, octagonal in shape, and coloured white.

The illuminating apparatus is of the 5th order.

Approximate position, lat. 34° 11′ 15″ N., long. 132° 55′ 5″ E.

2.—*Amended Position of Kakarize rock.*

Also, that the correct position of Kakarize rock is N. 48° W., distant $1\frac{6}{10}$ miles from Ohama saki light-house, and N. 53° E., distant 3 cables from Chodaiu beacon.

WORKING OF THE FIRE-BRIGADE IN THE TOWN AND SUBURBS OF CALCUTTA AND IN THE MUNICIPALITY OF HOWRAH DURING THE YEAR 1893-94.

No. 7021, dated Calcutta, the 20th July 1894.

From—SIR JOHN LAMBERT, K.C.I.E., Commissioner of Police, Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit, for the information of Government, a report on the working of the Fire-Brigade in the town and suburbs of Calcutta and in the Municipality of Howrah for the year 1893-94.

2. During the year 35 fires occurred, at 28 of which the Brigade was in attendance; of the remaining seven fires, one was extinguished by the local police and six by the residents of the locality.

3. The estimated value of property destroyed during the year was Rs. 7,81,755.

4. There were four fires in buildings licensed under Acts IV of 1883 and I of 1893, in which property to the value of Rs. 2,90,665 was destroyed.

5. The five most serious fires that occurred during the year may be briefly noticed as follows:—

I.—On the 11th April, at 12-10 A.M., a fire broke out on board the steam flat *Gwalior* and the flats *Sherpur* and *Talup* which were moored off Juggernath Ghat. It was extinguished by the Fire-Brigade and Port Commissioners' floating fire-engine by 6 P.M. The loss of cargo consisting of bales of jute was valued at Rs. 70,000, and the damage done to the vessels was estimated at Rs 30,000, in all Rs. 1,00,000.

II.—On the 7th December at 12-40 A.M., a fire was reported on board the flat *Khyber*, which was lying off Cossipur Ghat, causing damage to the extent of Rs. 1,16,194 to the cargo which consisted of jute, gunny bags and salt. This fire was not extinguished until 6 P.M. on the following day.

III.—On the 1st January 1894, at 3-30 A.M., a fire, which lasted till noon, occurred on board the flat *Serajganj* lying off Ruthtolla Ghat, by which jute to the value of Rs. 85,772 was destroyed.

At these three river fires, it was found necessary to form bridges of boats between the shore and the burning vessels, to enable the Fire-Brigade to get the hose on board.

IV.—On the 1st of April 1893 a fire occurred in a brick godown belonging to the Strand Bank Press at Chitpur, in which a large quantity of jute was stored; the loss was estimated at Rs. 1,25,000.

V.—On the 16th February 1894, at 11-45 A.M., a fire broke out at the Howrah Jute Mills, by which damage to the extent of Rs. 1,26,565 was caused. This fire lasted over three days, and 18,600 maunds of jute were damaged by fire and water.

6. During the year there were two prosecutions under the Explosives Act IV of 1884, in which one conviction was obtained.

7. A memorandum of the fires which occurred and a statement showing receipts and expenditure on behalf of the Brigade are enclosed.

CALCUTTA POLICE OFFICE,
The 20th July 1894.

J. LAMBERT,
Commissioner of Police.

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIREBRIGADE ACT I OF 1893 IN CALCUTTA DURING THE YEAR 1893-94.

No. 16J., dated Calcutta, the 12th July 1894.

From—J. G. RITCHIE, Esq., Officiating Chairman of the Corporation of Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit the following report, under section 41 of Act I of 1893 (B.C.), of the Warehouses in Calcutta for the year ended 31st March 1894.

2. During the first quarter of the year under review the levying of license fees was suspended under orders of the Government of Bengal contained in their letter No. 192T.M., dated the 1st June 1893, pending the publication of the Licensed Warehouse and Fire-Brigade Act of 1893, which had passed the Bengal Council on the 1st of April 1893, in the *Calcutta Gazette*, with the assent of His Excellency the Viceroy and Governor-General of India. The said Act was published in the *Calcutta Gazette* of the 29th June 1893, and under orders of the Government of Bengal, No. 299T.M., dated the 26th June 1893, license fees were levied for the first quarter of the year under the old Act (IV of 1883), and notices issued to owners or occupiers of new warehouses under section 6 of Act I of 1893 (B.C.)

3. It was, however, found that there were several technical objections to the levying of fees under the Act, and on representations being made to Government, a short amending Act was passed in the Bengal Legislative Council, towards the close of the year under report, by which the Commissioners were authorised to levy fees on old warehouses for the last three quarters of 1893-94, according to the provisions of the old Act of 1883, and to levy fees on depôts of straw, hay, wood, &c., for these quarters under section 346 of Act II of 1888, which had been repealed by Act I of 1893. The operation of Bengal Act I of 1893 was thus practically postponed to the 1st of April 1894.

4. On the 18th of July 1895, the Commissioners received intimation from the Commissioner of Police of the appointment of Mr. G. E. Marklow as an Inspector of Warehouses under section 8, clause 1 of Act I of 1893.

5. Under the old Act the Commissioners received 20 per cent. of the collections towards the cost of inspection, collection and assessment of warehouses. This arrangement having been altered by Act I of 1893, a representation was made to the Government of Bengal on the subject. The Bengal Government, in their letter No. 3987M., dated 16th December 1893, directed the Commissioner of Police to make a provision for the cost of assessment and collection for warehouses in his Budget, and the latter made provision for Rs. 750 under this head for the Corporation of Calcutta for the last three quarters of 1893-94.

6. During the year under review licenses were renewed for 101 old warehouses, the license for one warehouse was cancelled, and license fees for 10 warehouses still remained to be paid when the year came to a close.

7. The following statement shows the number of applications for license received and their result :—

The mean temperature of the month	82·3		
The average temperature of July from 24 years' registers ...	83·5		
The highest temperature in the month	90 8	14th	
The lowest temperature in the month	75·7	11th	
The range of temperature during the month	15·1		
The mean daily range of temperature	8·9		
The greatest range of temperature in one day	12·4	14th	
	Per cent.		
The mean humidity of the month	88		
The average humidity of July from 24 years' registers ...	85		
	Inches.		
The mean vapour tension of the month	0·966		
The average vapour tension of July from 9 years' registers ...	1·002		
The mean cloud proportion of the month	8·25		
The average cloud proportion of July from 17 years' registers	8·06		
The total rainfall of the month	11·34		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	10·02		
The average fall of July from 48 years' registers ...	12·84		
The greatest fall in 24 hours	2·36	24th	
	Days.		
The number of rainy days in the month	26		
The average number of rainy days in July from 24 years' registers	25

The mean maximum equilibrium temperature of solar radiation during the month	139·3		
The mean difference of sun and air temperatures	52·4		
The greatest sun temperature	159·7	20th	
The greatest excess of sun over air temperature	69·6	20th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	76·5		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	1·6		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	3·2	27th	
	Miles.		
The mean movement of the wind per day	132·4		
The greatest movement of the wind in one day	308·0	12th	
The greatest movement of the wind in one hour	23·0	24th	9 to 10 A.M.

The number of hours with winds from each of the 8 points—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·6 higher; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the 7th August* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 4TH OF AUGUST 1894.

DURING the previous week a small cyclonic storm had passed across South Bengal and through Chota Nagpur, and had filled up near Sutna at the end of the week. In the rear of the storm a heavy wave of monsoon winds flowed over the province, but it was deflected mainly over the south-western and western districts, and the remainder of the province received comparatively little rain. On 29th July, or the first day of the week under review, pressure fell moderately to briskly over the whole province, and became in moderate defect, while at the same time westerly winds began to set in over the west of the province. These westerly winds appeared to shew that the Bombay branch of the monsoon current, represented by the westerly winds, was penetrating across India, and was giving a certain amount of interaction with the branch of the monsoon coming from the Bay, which was giving south-easterly and easterly winds over the remainder of the province. As is generally the case when such interaction occurs, heavy rain began to fall in the western districts of Bengal, and on the 29th many of the Bihar stations reported heavy rain, Bettiah receiving 8·50 inches, Buxar 6·14 inches, Siwan 5·17 inches, and several stations falls of two inches and upwards. Over the remainder of the province, however, rainfall was light. On the 30th pressure had fallen over the eastern half of the province, the fall being largest at Dinajpur, while it had risen over the west and south-west of the province, and a distinct but feeble barometric depression had formed with a centre near Dinajpur, round which a very distinct circulation of winds appeared. Hence conditions had become particularly favourable for rainfall over practically the whole province, and falls exceeding five inches were reported at Atia, Fenny, Harishpur, Cox's Bazar, and Siwan, while very numerous stations reported amounts of more than three inches. On the 31st the feeble depression had moved in a westerly direction, and was lying along the foot of the hills from about Purnea westwards, and on the 1st of August it had almost disappeared, or had become merged into the mons on trough of low pressure which at this time was lying almost along the foot of the hills. This trough of low pressure continued in this position and in the eastern parts of the North-Western Provinces for several days. Up till the 2nd pressure over Bengal also remained below the normal, but on this date and on the 3rd it was in considerable excess, but owing to a brisk fall on the 4th it again became slightly in defect. It will hence be seen that conditions for the greater part of this period remained favourable for good general rainfall, particularly in the northern and eastern districts, and on several days exceedingly heavy falls were reported. Towards the end of the week, however, as the conditions became less favourable, the rainfall grew much lighter and more local.

Hence during the week under review an average rainfall of about six inches has been reported in Bihar and East Bengal and of nearly five inches in North Bengal. Chota Nagpur has received nearly four inches, and South-West Bengal a little more than three inches. Orissa on the other hand has received less than two inches of rain.

Pressure.—The mean pressure for the week has not varied very much from the normal. Slight excess pressures of about 0·02″ and 0·03″ have been registered at the southern stations in such cases as Cuttack, Balasore, Saugor Island, Calcutta, Chittagong, &c. Towards the north of the province on the other hand slightly defective pressures have been registered, and stations like Jalpaiguri, Dinajpur, Rangpur, &c., report defects of about 0·02″. In Assam the general average pressure has been almost normal.

Temperature.—Owing to the heavy rainfall during the week the mean temperature has averaged about a degree below the normal, the defect being largest in East Bengal and Bihar. In Assam an average defect of 1·3° has been recorded, but the defect has been mainly confined to Sibsagar, and in other districts the temperature has been almost normal.

Rainfall.—Falls of about six inches have occurred in East Bengal and Bihar, while in North Bengal the fall has been 4·56 inches and in Chota Nagpur 3·78 inches. In South-West Bengal an average fall of three and a quarter inches is reported, and in Orissa of a little less than two inches. Large excess falls have therefore occurred in Bihar and in East and North Bengal. In Chota Nagpur and in South-West Bengal the falls have been almost normal, while in Orissa the rainfall has been in decided defect.

Expressed as percentages of the normal rainfall, the actual falls during the week have equalled the following amounts:—South-West Bengal 96 per cent., North Bengal 147 per cent, East Bengal 138 per cent., Bihar 189 per cent., Orissa 67 per cent., and Chota Nagpur 96 per cent. Taking each division to have an equal value in the calculation, the rainfall of Bengal for the week has equalled 122·per cent. of the normal fall.

In the following districts where the falls have been unusually light since the beginning of the monsoon season, the average falls for the week have been as follows:—Rajshahi 1·88 inches, Dinajpur 4·52 inches, Jalpaiguri 15·42 inches, Darjeeling 15·63 inches, Kuch Bihar 3·92 inches, Rangpur 2·86 inches, Muzaffarpur 4·92 inches, and Darbhanga 5·01 inches.

In Assam during the week Silchar has received 4·11 inches, Dhubri 2·75 inches, and Sibsagar 2·61 inches.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 4th of August 1894:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers.

RULES AS HERETOFORE EXISTING AND IN FORCE.

10 In the case of leases for the season, the remuneration for performing the duties mentioned in clauses I to VII of the rule immediately preceding shall be two per cent. on the assessments, which shall be paid by the Canal Officer, and for performing the duty mentioned in clause IX one per cent on the collections, which shall be paid by the Collector.

11. In the case of leases for three or seven years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to VII of Rule 9 shall be 2 per cent. yearly on the assessments of the year, which shall be paid by the Canal Officer, and 2 per cent. yearly on the realizations for performing those mentioned in clauses VIII and IX, which shall be paid by the Collector.

14. The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may at any time, by a written order, recall such order *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-divisional Canal Officer, and shall receive three per cent. on the assessment in place of two per cent. prescribed in Rules 10 and 11.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharif* season leases (Appendix III), shall be subject to the following conditions:—

IV.—With the special sanction of the Superintending Canal Officer—

(*a*) Existing five-year leases may be cancelled and included in an application for a seven or three-year lease under the preceding rules.

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharif* season leases (Appendix IX) shall be issued under the following conditions:—

VI.—Water-rates will be levied on the areas specified in the permits, and measurement of the area actually irrigated will not be necessary.

40. Water-rates imposed under section 79 of the Acts shall be at the rates shown in the schedule following or such lower rate as the Divisional Canal Officer may fix;—

	Flow or lift.	
	Rate per bigha.	Rate per tenth of a bigha.
	Rs. A. P.	Rs. A. P.
For water used in an unauthorized manner	5 0 0	0 8 0

Provided that in the *kharif* season, 25th June to 25th October, no water-rates under this section shall be levied where the unauthorized irrigation is effected with water taken from land included in a lease, but irrigation effected by cutting a village channel or committing a criminal offence, the perpetrator of which cannot be discovered, may be assessed with the previous sanction of the Collector, which must be obtained before any detailed measurement of the land irrigated without authority is made. *Subject to the provisos regarding irrigation in the kharif season mentioned above, persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates at the rate imposed by this rule.*

RULES AS NOW ALTERED.

10. In the case of leases for the season, the remuneration for performing the duties mentioned in clauses I to VII and IX of the rule immediately preceding shall be two per cent. on the assessments (excluding fractions of rupees), which shall be paid by the canal officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

11. In the case of leases for three or seven years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to IX of Rule 9, shall be 3 per cent. yearly on the assessment of the year (excluding fractions of rupees), which shall be paid by the canal officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

14. The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may at any time, by a written order, recall such order. *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-divisional Canal Officer, and shall receive one per cent. on the assessment in addition to the percentages prescribed in Rules 10 and 11.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharif* season leases (Appendix III), shall be subject to the following conditions—

IV.—With the special sanction of the Superintending Canal Officer—

(*a*) Existing leases for terms of five or three years may be cancelled and included in an application for a seven-year lease under the preceding rules.

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharif* season leases (Appendix IX) shall be issued under the following conditions:—

VI.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

40. Water-rates imposed under section 79 of the Act for the irrigation effected in the hot weather or rabi seasons, shall be assessed by the Canal Officer at rates which shall be fixed by the Divisional Canal Officer, and which shall not be greater than those shown in the following schedule:—

	Flow or lift.	
	Rate per bigha.	Rate per tenth of a bigha.
	Rs. A. P.	Rs. A. P.
For water used in an unauthorized manner ...	5 0 0	0 8 0

In the *kharif* season water-rates shall be imposed by the Divisional Canal Officer under section 79, *only* when the irrigation is effected by cutting a village channel or committing a criminal offence, and only after the sanction of the Collector has been obtained to make a detailed measurement of the land irrigated without authority.

(NOTE.—Land irrigated in the *kharif* season with water taken from a leased area shall not be assessed under this rule.)

The Collector's sanction is not in itself authority for the imposition of water-rates: it merely authorizes proceedings being instituted. The rates to be charged in

Water supplied by volume to fill *aharas*		The whole amount before the outlet is opened.

The Divisional Canal Officer will endeavour to forward as many of the demand statements as possible to the Collector fifteen days before the dates fixed for payment, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

54. The contractor shall as such be responsible for the performance of the duties devolving on the *lambardar* under these rules, but may appoint a *lambardar*, whose name shall be communicated to the Sub-divisional Canal Officer, and whose removal, for good cause to be recorded in writing, may be ordered by the Divisional Canal Officer. He shall, whether he appoints a substitute to act as *lambardar* or not, be responsible for reporting all changes in the occupiers of lands included in the lease to the Collector.

55. The contractor as *lambardar* shall be entitled to remuneration at the rate of 5 per cent. on the assessments subject to the provisions contained in Rule 15

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

58. The contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-divisional Canal Officer shall proceed to appoint a

Water supplied by volume between the 1st of September and 31st of October.		One moiety before the outlet is opened, the other moiety 15th December.
Water supplied by volume to fill *aharas*.		The whole amount before the outlet is opened.

The Divisional Canal Officer shall forward the demand statements of leases under schedule No. II, to the Collector as soon as they have been prepared in accordance with rule 32. He will forward these and all other demand statements as soon as they are ready, and will endeavour to send them at least fifteen days before the dates fixed for the payment of the water-rates, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

54. In the case of a lease entered into under an application in the form given as Appendix I, a contractor may subsequently be appointed by the Collector with the written approval of the Superintending Canal Officer. Such contractor must, for the whole term of the lease, have a beneficial interest in some part of the land included in the application, and must sign an application in the form given as Appendix IIA. The appointment shall not be made unless the lumbardars and leading cultivators give their assent in writing thereto, and the Collector is satisfied that the appointment of a contractor is acceptable to the signatories to the lease.

55. The contractor appointed under rules 50 and 54 may, but shall not necessarily, be lambardar. The lambardar will in all cases be appointed by the Canal Officer under the provisions of rule 12, and shall be remunerated at the rates specified in rules 11 and 14 subject to the conditions mentioned in rule 15.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received, nor shall the Collector take any steps towards the appointment of a contractor under rule 54 until the written assent of the Superintending Canal Officer has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Subdivisional Canal Officer

lambardar under Rule 12, and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due deligence in making collections. In such cases three months' notice at least before the 25th of June next following shall be given, and the removal shall take effect from that day.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be sent to the Divisional Canal Officer. In other cases the sanction of ths Commissioner of the Division must be obtained to admit of demands being written off under this head.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 24, 39, 43, 52, 53, 54, 57, 58, 59, 61, 62 and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

FINANCE AND COMMERCE DEPARTMENT.

NOTIFICATION.

ACCOUNTS AND FINANCE.
PUBLIC DEBT.

No. 4092.

Simla, the 13th August, 1894.

[In the following Notification "Notes" means "Promissory Notes of the Government of India," and includes "Stock Certificates" issued in lieu thereof:]

1. Notice is hereby given that all the Notes of the Four per cent. Loan of 1st May 1865, which do not on this date stand enfaced for payment of interest at any Treasury or Public Debt Office other than Calcutta, will be discharged at the General Treasury of Fort William (Public Debt Office, Bank of Bengal, Calcutta) on Saturday, December 1st, 1894, on which date the interest on such Notes will cease.

2. Proprietors of Notes hereby advertised for discharge have the option, which must be exercised before noon of Saturday, September 15th, 1894, of tendering their Notes for reduction of interest from 4 per cent. to 3½ per cent., such reduction to have effect from February 1st, 1895.

3. The reduced loan thus constituted will be known as the 3½ per cent. Loan of 1st May, 1865, and no part of it will be paid off or discharged before August 1st, 1904, nor until the expiration of three months after notice of payment to be given by the Governor General of India in Council in the *Government Gazette*.

4. Notes may be tendered for reduction of interest at the Public Debt Office, Bank of Bengal, Calcutta. Notes so tendered must bear the following endorsement duly signed:

"This Note (or Stock Certificate) is tendered for reduction of interest in terms of Notification of 13th August, 1894."

5. On Notes so tendered (in addition to any interest already due and payable on them) the difference of interest from May 1st, 1894, till 31st January, 1895, namely, six annas per Rs. 100, will be paid as soon as possible after the Notes are tendered.

6. Every Note so tendered will be enfaced in the following terms before it is returned to the proprietor:

"The interest payable on this Note is reduced to 3½ per cent., and the principal amount will not be discharged before August 1st, 1904."

7. All future payments of interest on any Note so enfaced will be made on the usual half-yearly dates as if the Note bore interest at 3½ per cent. instead of 4 per cent.

8. When a Note so enfaced comes in ordinary course under renewal, it will be renewed in its original form, save that—

(1) For "four per cent." will be substituted "three-and-a-half per cent."

(2) A clause will be added at the end—"The Governor General in Council hereby engages that this Note shall not be discharged before August 1st, 1904."

9. If by reason of the duly certified absence from India of the proprietor or of one of the proprietors of a Note included in the terms of this Notification a legal signature to the endorsement mentioned in clause 4 cannot be given by noon of Saturday, September 15th, 1894, then in such case the tender will be accepted if the Note be left in the custody of the Public Debt Office, before noon of Saturday, September 15th, and the tender be legally signed before noon of Wednesday, October 3rd, 1894. This clause does not apply if the proprietor has an attorney in India empowered to sell.

10. In addition to the above payment of interest, a further payment of two annas per Rs. 100 will be made as brokerage or commission to the receipt of the person, whether proprietor or agent, who tenders the Note for reduction of interest.

11. None of the notes advertised for discharge in paragraph 1 of this Notification will from this date be enfaced for payment of interest elsewhere than at Calcutta unless first converted under paragraph 2.

By order of the Governor General in Council,

STEPHEN JACOB,

Offg. Secretary to the Government of India.

PUBLIC DEBT.

No. 4093.

Simla, the 13th August 1894.

Notice is hereby given that, notwithstanding anything contained in Notification No. 4092 of this date, the terms and conditions of tender for reduction of interest from four per cent. to three-and-a-half per cent, offered in Notifications 3257, 3258 and 3259 of 30th June, 1894 (reprinted below), will remain in force until noon of Monday, August 27th, 1894, except as regards Notes of the loan of 1842-43.

By order of the Governor General in Council,

STEPHEN JACOB,

Offg. Secretary to the Government of India.

No. 3257.

Simla, the 30th June 1894.

[In the following Notification "Notes" means "Promissory Notes of the Government of India," and includes "Stock Certificates" issued in lieu thereof:]

1. Notice is hereby given that all the Notes of the Four per cent. Loan of 1842-43 will be discharged at the General Treasury of Fort William (Public Debt Office, Bank of Bengal, Calcutta) on November 1st, 1894, on which date the interest on such Notes will cease.

2. Proprietors of Notes hereby advertised for discharge have the option, which must be exercised before noon of Saturday, July 28th, 1894, of tendering their Notes for reduction of interest from 4 per cent. to 3½ per cent., such reduction to have effect from August 1st, 1895.

3. The reduced loan thus constituted will be known as the 3½ per cent. Loan of 1842-43, and no part of it will be paid off or discharged before August 1st, 1904, nor until the expiration of three months after notice of payment to be given by the Governor General of India in Council in the *Government Gazette*.

4. Notes may be tendered for reduction of interest at the Public Debt Office, Bank of Bengal, Calcutta, or at any other Bank (including the Bank of England) or Treasury, to which they are for the time being enfaced for payment of interest. Notes so tendered must bear the following endorsement duly signed:

"This Note (or Stock Certificate) is tendered for reduction of interest in terms of Notification of June 30th, 1894."

5. On Notes so tendered (in addition to any interest already due and payable on them) interest will, as soon as possible after the Notes are tendered, be paid in anticipation, namely:

(1) Two Rupees per Rs. 100 falling due on August 1st, 1894;

(2) Eight annas per Rs. 100, being the difference of interest accruing up to July 31st, 1895.

6. Every Note so tendered will be enfaced in the following terms before it is returned to the proprietor:

"The interest payable on this Note is reduced to 3½ per cent., and the principal amount will not be discharged before August 1st, 1904."

7. All future payments of interest on any Note so enfaced will be made on the usual half-yearly dates as if the Note bore interest at 3½ per cent. instead of 4 per cent.

8. When a Note so enfaced comes in ordinary course under renewal, it will be renewed in its original form, save that—

(1) For "four per cent." will be substituted "three-and-a-half per cent."

(2) A clause will be added at the end—"The Governor General in Council hereby engages that this Note shall not be discharged before August 1st, 1904."

9. If by reason of the duly certified absence from India of the proprietor or of one of the proprietors of a Note included in the terms of this Notification a legal signature to the endorsement mentioned in clause 4 cannot be given by noon of Saturday, July 28th, 1894, then in such case the tender will be accepted if the Note be left in the custody of the Public Debt Office, Bank, or Treasury (as the case may be), and the tender be legally signed before noon of Saturday, August 18th, 1894.

10. In addition to the above payment of interest, a further payment of two annas per Rs. 100 will be made as brokerage or commission to the receipt of the person, whether proprietor or agent, who tenders the Note for reduction of interest.

11. The Secretary of State will issue a notification in London stating the terms on which Notes hereby advertised for discharge will be received for reduction of interest by the Bank of England.

No. 3258.

Simla, the 30th June 1894.

[In the following Notification "Notes" means "Promissory Notes of the Government of India," and includes "Stock Certificates issued in lieu thereof" and "Loan Certificates with coupons attached."]

1. Notice is hereby given that proprietors of Notes of any of the following Four per cent Loans, namely:

Four per cent. Loan of 1854-55,
" " " 1st May 1865,
Reduced Four per cent. Loan of 1879,

may tender their Notes before noon of Saturday, July 28th, 1894, for reduction of interest from 4 to 3½ per cent.; such reduction to have effect from August 1st, 1895, on the same terms as are notified with respect to the Four per cent. Loan of 1842-43 in Notification No. 3257 of this date.

2. Clauses 3 (except for the substitution of the proper year or date for "1842-43"), 4, 6, 7, 8, 9 and 10 of the said Notification apply to tenders made under this Notification. In the case of Loan Certificates with coupons attached, each outstanding coupon will be stamped "Interest reduced to 3½ per cent." before the certificate is returned to the proprietor.

3. On Notes tendered under this Notification the following differences of interest will, as soon as possible after the Notes are tendered, be paid in anticipation:

(*a*) On Notes of the Four per cent. Loan of 1854-55 on account of difference of interest from June 30th, 1894, to July 31st, 1895, eight annas and eight-and-a-half pies per Rs. 100;

(*b*) On Notes of the Four per cent. Loan of 1st May 1865 on account of difference of interest from May 1st, 1894, to July 31st, 1895, ten annas per Rs. 100;

(*c*) On Notes of the Reduced Four per cent. Loan of 1879 on account of difference of interest from July 16th, 1894, to July 31st, 1895, eight annas and four pie per Rs. 100; besides the regular payment of interest at four per cent. per annum due on July 16th, 1894.

4. All future payments of interest will be made on the usual half-yearly dates as if the Note bore interest at 3½ per cent. instead of 4 per cent.

5. The Secretary of State will issue a corresponding Notification in London stating the terms on which Notes of the three loans abovementioned will be received for reduction of interest by the Bank of England.

No. 3259.

Simla, the 30th June, 1894.

It is hereby notified that until further orders no transfers may be made between one Four per cent. Loan and another, and no Stock Certificates of one such loan may be issued in lieu of Notes of another:

Provided that—

(1) Notes of the 4 per cent. Sicca Rupee Loan of 1832-33 will be received up to noon of Saturday, July 28th, 1894, for transfer to the 3½ per cent. Loan of 1st May 1865. Upon such Notes the excess over an even hundred of rupees will be paid in cash, and the new Note will be issued for the balance only. The payment in adjustment of interest will be made as provided in clause 3 (*b*) of Notification No. 3258 of this date.

(2) Notes of the Four per cent. Loan of 1835-36 will be received up to noon of Saturday July 28th, 1894, for transfer to the 3½ per cent. Loan of 1st May 1865. The adjustment payment in this case will be fifteen annas and six pie per Rs. 100, being as nearly as possible the excess of four per cent. interest from March 31st, 1894, to July 31st, 1895, payable on the old Note over 3½ per cent. interest from May 1st, 1894, to July 31st, 1895, payable on the new Note.

ESTABLISHMENT.

Simla, the 10th August 1894.

No. 418.—The services of Lieutenant A. C. Elliott, Assistant Commissioner, Punjab, are temporarily placed at the disposal of the Government of Bengal.

SANITARY.

The 3rd August 1894.

No. 182.—The following Rules for Quarantine against plague which have been made by the Bengal Government in exercise of the power conferred by section 1, Act I of 1870, with the previous sanction of the Governor-General in Council, are published for general information.

The Rules have effect from the 1st August 1894, as a temporary measure, at the Port of Calcutta :—

I.—The Commander of every vessel, including buggalows or other native craft arriving from Hongkong or Canton, shall, on arrival at the Sandheads, hoist a yellow flag and indicate by signal the port from which she has come, and shall keep such flag and signal flying until permitted to take it down as hereinafter provided. The pilot on boarding a vessel from Hongkong or Canton shall direct the flag prescribed above to be hoisted, if it has not already been done.

II.—The Commander shall not, without first having obtained permission as hereinafter provided, allow any communication with the shore or any other vessel or boat, excepting only with the boat supplying the pilots* from the pilot brig, and in that case communication shall be limited to receiving on board the pilot, his leadsman, servant, and baggage.

* *N.B.*—Pilotage is compulsory for all vessels over 100 tons in the Port of Calcutta.

III.—If there is any case of sickness on board, and the pilot has reason to believe that it is plague, he shall telegraph to the Port Officer from Saugor, and not proceed beyond Diamond Harbour without the permission of the Port Officer.

IV.—If the pilot has no reason to believe that there is any one suffering from the plague on board, he shall bring the vessel up the river to Mateeabrooj, and shall anchor it there till the Health Officer has visited it.

V.—The Health Officer, as soon as he has received information of the arrival of the vessel at Mateeabrooj, shall visit it, and ascertain by enquiry from the Commander or the Medical Officer on board, or other sources of information, whether any person on board is suffering or has suffered from the plague.

VI.—If the Health Officer is satisfied that no one is suffering from the plague, or has suffered from the plague, since the vessel left Hongkong or Canton port, and if the vessel has been allowed pratique at Singapore, he shall allow the passengers to land, but shall detain the vessel at Mateeabrooj till such measures have been taken for the disinfection of the mails and cargo and hold as he may consider necessary.

VII.—When he is satisfied that the necessary measures have been taken for the disinfection of the mails, cargo, and hold, he shall allow the mails and cargo to be landed, and shall by writing under his hand, to be delivered to the Commander, permit such vessel to haul down the yellow flag and to proceed upwards in the port, and to hold free communication with the shore and with vessels and boats in port.

VIII—If the vessel has not been allowed pratique at Singapore, or if through her not carrying a qualified Medical Officer, or for other reasons, the Health Officer is not satisfied that no one on board is suffering or has suffered during the voyage from the plague, he shall direct the Commander to take the vessel to the quarantine anchorage at Mateeabrooj or elsewhere duly appointed by the Port Officer, and there to remain for a period of eight days from the date of arrival in harbour. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore or other vessels and boats in the harbour.

IX.—If the Health Officer, as the result of the enquiry made under paragraph V above, has reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, or if during the time the ship is in quarantine at Mateeabrooj under Rule VIII any case of the disease breaks out, he shall direct the Commander to take the vessel to the quarantine anchorage at Diamond Harbour or elsewhere, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days intercourse between the vessel detained under this Rule or Rule III and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule II.

X.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule IX.

XI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel to such particular spots as may from time to time be selected by the Port Officer as places of quarantine, there to remain for a period of eight days if under Rule VIII, or, if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of

plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

XII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

No. 183.—The following Rules for Quarantine against plague, which have been made by the Bengal Government in exercise of the power conferred by section 1, Act I of 1870, with the previous sanction of the Governor-General in Council, are published for general information.

The Rules have effect from the 1st August 1894, as a temporary measure, at the Port of Chittagong.

I.—The Commander of every vessel, including buggalows or other native craft arriving from Hongkong or Canton, shall, on arrival at Norman's Point, hoist a yellow flag and indicate by signal the port from which she has come, and shall keep such flag and signal flying until permitted to take it down as hereinafter provided. The pilot on boarding a vessel from Hongkong or Canton shall direct the flag prescribed above to be hoisted, if it has not already been done.

II.—The Commander shall not, without first having obtained permission as hereinafter provided, allow any communication with the shore or any other vessel or boat, excepting only with the boat supplying the pilots, and in that case communication shall be limited to receiving on board the pilot.

III.—If there is any case of sickness on board, and the pilot has reason to believe that it is plague, he shall signal to the Port Officer, and not proceed beyond the outer bar buoys without the permission of the Port Officer.

IV.—If the pilot has no reason to believe that there is any one suffering from the plague on board, he shall bring the vessel up the river to Juldia, and shall anchor it there till the Health Officer has visited it.

V.—The Health Officer, as soon as he has received information of the arrival of the vessel at Juldia, shall visit it, and ascertain by enquiry from the Commander or the Medical Officer on board, or other sources of information, whether any person on board is suffering or has suffered from the plague.

VI.—If the Health Officer is satisfied that no one is suffering from the plague, or has suffered from the plague, since the vessel left Hongkong or Canton, and if the vessel has been allowed pratique at Singapore, he shall allow the passengers to land, but shall detain the vessel at Juldia till such measures have been taken for the disinfection of the mails and cargo and hold as he may consider necessary.

VII.—When he is satisfied that the necessary measures have been taken for the disinfection of the mails, cargo, and hold, he shall allow the mails and cargo to be landed, and shall by writing under his hand, to be delivered to the Commander, permit such vessel to haul down the yellow flag and to proceed upwards in the port, and to hold free communication with the shore and with vessels and boats in port.

VIII.—If the vessel has not been allowed pratique at Singapore, or if through her not carrying a qualified Medical Officer, or for other reasons, the Health Officer is not satisfied that no one on board is suffering or has suffered during the voyage from the plague, he shall direct the Commander to take the vessel to the quarantine anchorage at Juldia or elsewhere duly appointed by the Port Officer, and there to remain for a period of eight days from the date of arrival in harbour. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication except such as is hereinafter provided for, between such vessel and the shore or other vessels and boats in the harbour.

IX.—If the Health Officer, as the result of the enquiry made under paragraph V above, has reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, or if during the time the ship is in quarantine at Juldia or elsewhere under Rule VIII any case of the disease breaks out he shall direct the Commander to take the vessel to the quarantine anchorage outside the outer bar buoys or elsewhere, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days intercourse between the vessel detained under this Rule or Rule III and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule II.

X.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule IX.

XI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Port Officer as places of quarantine, there to remain for a period of eight days if under Rule VIII, or, if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

XII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

W. D. CRUICKSHANK,
Secretary and Treasurer.

TO CONTRACTORS.

SEALED tenders in duplicate will be received by the Ordnance Officer in charge, Madras Arsenal, up to 17th September 1894, for supply to the Arsenal of the undermentioned articles (more or less), in whole or in part, from 1st April 1895 to 31st March 1896.

2. Printed forms of "Lists or Schedules" of the stores (in whole or in part), for the supply of which tenders are invited, and the form of contract deed which, in the event of a tender being accepted, must be signed by the contractors, are procurable at this office daily (Sundays and holidays excepted).

3. Tenders will only be received on these printed forms, two of which are procurable on application at the office on payment of Rs. 2.

4. These lists or schedules should be in duplicate and in English, and should specify in words as well as in figures the rate at which the article named in them will be delivered, and should be accompanied by a statement that the tenderers have submitted samples of the articles they tender for. Fractional parts of pies in rates will not be accepted. Rates to include cost of delivery at Madras.

5. Tenders should be accompanied by a deposit of Rs. 2 per cent. in Bank receipt or Government Promissory Note as earnest money, up to a maximum of Rs. 2,000, which deposit will be returned on execution of the contract deed or rejection of the tenders.

6. Tenders not complying with these conditions will be rejected.

7. The approval or rejection of tenders rests with the Inspector-General of Ordnance, who reserves to himself the right of rejecting any tender or any items in any tender without explanation.

8. Tenders will be opened at this office at 12 noon on the 18th September 1894. Parties tendering are invited to attend.

9. In the case of an accepted tender, the tenderer must be prepared to execute an agreement.

10. In the event of the party whose tender is accepted failing to take it up, his earnest money will be forfeited.

11. On failure to carry out the contract fully, it shall be competent for the Inspector-General of Ordnance to confiscate the whole or any part of the security deposit to Government at his own discretion.

12. Parties tendering are particularly requested to give their address in full.

13. Parties tendering for any of the following descriptions of hides will be required to submit samples therewith, and particular attention is directed to the specifications of such samples as shown below. It must be clearly understood that the samples represent the lowest quality of leather which the contractor can supply. Consequently no supplies can be accepted at the contract rate which are in any way inferior to the sample in their individual value. Each hide will, however, be judged by its own aggregate merits against the sample, so that a better grown hide than sample will not be rejected on account of small blemishes not present in the sample.

Any number of samples of each quality may be tendered, but only one will be selected to guide supply.

		Approximate quantity.
Hides, Buffalo—

Specification of the above, all except (*m*) to be pit-tanned,

(*a*) Suitable for heavy harness work.

(*b*) Suitable for light harness and saddlery.

(*c*) Suitable for light saddlery and accoutrements.

Samples of the above will be judged by their suitability for the above expressed purposes. No limit of weight is required, but samples must be in half hides, trimmed to such an extent that the offal does not exceed one-fourth of the entire weight of the hide. The line of offal is to be clearly marked upon the sample by the contractor.

N. B.—Alternative rates are invited for these items for hides from which *all* offal has been removed.

(*d*), (*e*) and (*n*) to be suitable for the manufacture of the articles named, and to be tendered in half hides. The butt hides should be $\frac{5}{16}$" and over in thickness, and must be free from fat and grease.

(*f*) to be suitable for the manufacture of the articles (such as flaps) which require solidity accompanied by a certain amount of suppleness; should be equal in substance (thickness) to a heavy harness hide, and should be tendered either as a half butt or a whole butt, but the supply is required to be in whole butts.

(*g*) to be suitable for the manufacture of stout, blocked articles, should be oiled, struck and set. Can be *tendered* (in sample) as half butts, but must be *supplied* as whole butts.

(*h*), (*i*) and (*j*) to be tendered as half hides, offal as in (*a*), (*b*) and (*c*), and prepared in the usual manner.

(*k*) to be supplied in whole hides. Samples should be well grown along the ridge.

(*l*) to be supplied in whole hides and suitable for the purpose indicated. A hide of level thickness is required.

(*m*) and (*o*) to be supplied as whole hides and must be clean and free from blemishes. The calf hides should be supplied not split, and shanks cut below the knee.

(*p*) and (*q*) two samples must be tendered showing margins of sizes.

T. T. VAUGHAN, *Major*, R.A., Ordnance Officer in charge.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

EASTERN ARCHIPELAGO—SUMATRA, NORTH COAST.

Rocks and shoals north-westward and westward of Diamond Point.

WITH reference to Notice to Mariners No. 199, dated 26th August 1893, issued by this office, the British Admiralty has given the following information relating to the positions of rocks and shoals in the vicinity of Diamond Point (Jambu Ayer), derived from a recent Netherlands chart of the locality:—

1. The bank named Minjak, with a depth of 6 fathoms on it, and 15 to 19 fathoms around, lies with Diamond Point, north extreme, bearing E. by S. ¾ S. (S. 70° E.), distant 9½ miles, and Pasai summit S. by W. ½ W. (S. 16° W.).

Approximate position, lat. 5° 19′ 20″ N., long. 97° 21′ 30″ E.

2. The shoal named Tenga, with a depth of 2¾ fathoms on it, and 12 to 14 fathoms around, lies about 1½ miles S.E. by S. (S. 34° E.) from Minjak, or with Diamond Point, north extreme, bearing E. by S. ½ S. (S. 76° E.), distant 8¼ miles, and Pasai summit S. by W. ⅝ W. (S. 19° W.).

3. The rock Karang Timau is awash at low-water springs, with depths of 8 to 10 fathoms around, and lies with Diamond Point, north extreme, bearing East, distant 6 miles, and Pasai summit S.S.W. ½ W. (S. 25° W.).

Approximate position, lat. 5° 16′ 15″ N., long. 97° 24′ 15″ E.

4. There is a general extension of shoal water to the north-westward of Diamond Point, its width within the 5 fathoms line being about 2 miles. The north-west extreme of this shoal, where there is a depth of 5 fathoms, with 3¾ fathoms immediately south-eastward and less water towards Diamond Point, lies with the north extreme of Diamond Point, bearing S.E. ¾ E. (S. 53° E.), distant 3¾ miles, and Pasai summit S.S.W. ½ W. (S. 28° W.).

5. From about one mile westward of Diamond Point to 18 miles westward of that point, the high-water mark has advanced seaward as much as one mile for the greater part of the distance; and at 11 miles from Diamond Point depths of less than 3 fathoms extend 4 miles north-westward of the position of Changkul, as shown on the old charts.

Approximate position, north-west extreme of 3 fathoms, lat. 5° 14′ 30″ N., long. 97° 19′ E.

CAUTION.—Considerable caution is requisite when navigating in the vicinity until corrected charts have been issued.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE POLICE DEPARTMENT FOR THE YEAR 1893.

RESOLUTION.

POLICE.

Dated Calcutta, the 14th August 1894.

READ—

The Report on the Administration of the Police Department for the year 1893.

Read also—

The Report for the year 1892 and the orders of Government thereon.

Mr. E. R. Henry held the office of Inspector-General throughout the year, except for a period of 19 days spent on privilege leave, when Mr. A. H. Giles officiated for him The present report was received in print punctually on the 1st July. The reports from the Divisional Commissioners, which were due to Government on the 20th March, were all received within the month, with the exception of that from the Commissioner of Chota Nagpur, which, as was the case last year, was more than a month late.

2. *Constitution of the force.*—The sanctioned strength of the Bengal Police at the close of the year was 77 superior officers (including 8 probationers), as compared with 89 superior officers (including 15 probationers) at the close

of 1892. The reduction of 12 in the number of superior officers is due to the reorganization of the service sanctioned by Government in its Resolution of the 27th May 1893, the object of which was that District Superintendents of Police should be provided for every district in Bengal, and that Assistant Superintendents should only be provided for the most important subdivisional charges and as a reserve for leave vacancies. The effect of the reorganization has been to increase the number of District Superintendents from 43 to 45, and to reduce the number of Assistant Superintendents from 27 to 19, and of probationers from 15 to 8. The sanctioned strength of subordinate officers and men, including Military and Railway Police was 23,719, against 23,390 at the end of 1892.

3. *Changes in the number of investigating centres and in the recruitment of the investigating staff.*—In accordance with the recommendations of the Police Redistribution Committee, which provide for the reduction of 188 investigating centres, 145 have been abolished during the year, and steps have been taken to still further reduce the number. An important change was also introduced in the system of recruitment of the investigating staff, the appointments of new men (other than those promoted from the grade of head-constable to the grade of Sub-Inspector) being now made on the results of competitive examinations. Only those candidates who are of good moral character and have passed the Entrance examination and satisfied certain physical tests are allowed to compete; selections are not made purely in the order of the marks which candidates obtain, but care is taken to secure a due proportion in the representation of different classes, such as Muhammadans and Hindus, Biharis and Bengalis; and selected candidates are put through a probationary course of instruction after their selection. The number of men selected at the two examinations held in 1893 was 35 and 60 respectively, but it is as yet too early to form any comparison between the men thus selected and those recruited under the old system. The Lieutenant-Governor shares, however, in the belief expressed by Mr. Henry that the new system will lead to the recruitment of a higher and more capable class of investigating officers.

4. *Expenditure by the Department.*—The expenditure on the Bengal Police (excluding the Military Police in the South Lushai Hills, the Presidency Police, and the provincial expenditure on village police and on pounds) for the past financial year was Rs. 43,54,930, the corresponding figure for the previous year being Rs. 43,00,062 and that for 1891-92, Rs 42,26,193. The figures for 1893-94 are, however, departmental figures only, and have not yet been verified by the Accountant-General. The actual expenditure distributed among the several heads in 1893-94 and the two preceding years is shown in the following table:—

Serial number.	Heads of charges.	Actual expenditure for 1891-92.	Actual expenditure for 1892-93.	Actual expenditure for 1893-94	Increase in 1893-94	Decrease in 1893-94.
1	2	3	4	5	6	7
		Rs.	Rs.	Rs.	Rs.	Rs.
1	Inspecting agency	1,23,387	1,38,078	1,50, 663	12,575	...
2	Pay of District and Assistant Superintendents	4,60,133	4,44,795	4,72,019	27,224	...
3	Pay of executive police and establishment with good conduct pay and batta allowance	28,33,148	28,66,852	28,47,004	...	19,848
4	Travelling allowance	92,033	93,268	1,01,634	8,366	...
5	Fixed boat establishment	56,983	55,658	57,005	1,347	...
6	Special, regular and contract contingencies	5,14,882	5,63,216	5,91,105	27,889	...
7	Government contribution to the Municipal and Railway Police ...	1,45,622	1,38,195	1,35,510	...	2,685
	Total ...	42,26,193	43,00,062	43,54,930	77,401	22,533
	Net increase ...	...	...	...	54,868	...

The increase of Rs. 54,868 in expenditure over that incurred in 1892-93 is accounted for partly by the appointment of an Assistant Superintendent in charge of the special branch, and by the grant of exchange compensation allowance to European officers, and partly to an increase under the head of "Contract contingencies," due to the repairs of damage done by storms, and to prisoners in many places being escorted by rail or steamer instead of by land, as well as to the excessive rainfall of the year which rendered travelling by boat necessary in the interior of certain districts.

5. *Working of the Town Police.*—The town police force was increased in Backergunge, and in nine districts of the Burdwan, Presidency, Chittagong, and Orissa Divisions. The result of the changes effected should have been summed up in a statement showing the strength of the new force substituted for the old in each district, and the increase or decrease in cost. It appears that the total number of town chaukidars appointed during the year was 400 in place of 332 constables employed in 1892. In the 24-Parganas the experiment of replacing constables by local and acclimatized town chaukidars was tried for the first time in three municipalities, and the system will be still further extended. In the Rajshahi Division the town police consist of a mixed force of constables and chaukidars in all districts, except Darjeeling and Bogra In the Patna Division the work of the town chaukidars in Champaran, Muzaffarpur, and Darbhanga is said to have been on the whole satisfactory, but in Saran, where the District Superintendent of Police is said to have paid insufficient attention to his duties, the results of the year are far from successful. In Patna City and Dinapore the self-checking system of patrol introduced in 1892 was again worked with marked success, the number of burglaries in the Patna City having decreased from 477 in 1891 to 397 in 1893, while 20 burglars were arrested at night by the rounds officers In Gaya and Shahabad the system has not proved so successful, and this the Inspector-General of Police attributes to the superior officers not sufficiently interesting themselves in its working details—a complaint which the Lieutenant-Governor hopes will not recur. In the Bhagalpur Division all the districts, except the Sonthal Parganas, employ chaukidars on town duty, and their work is said to have been generally satisfactory, especially in the town of Bhagalpur itself.

The Lieutenant-Governor believes that by the substitution of chaukidars for constables in the ordinary municipalities of Bengal, an increase of efficiency and economy should be secured, but that there are municipalities in which a turbulent element exists which cannot be kept in order by chaukidars alone. In future reports the results of the changes effected should be briefly summarised, showing their financial effect and the advantages supposed to have been gained, and it should be stated whether the substitution of chaukidars for constables has been completed as far as is desirable or not.

6. *Street lighting.*—The exceptional difficulties under which the work of the town police is carried on has been alluded to more than once in former reports, and not the least of these is the want of light which is essential to the efficient guarding of houses and property. The proposal that municipalities in which there are no street lamps should contribute towards the cost of supplying oil for the lanterns of the watch and ward police has not been generally adopted, some municipalities refusing to contribute on the ground of want of funds, or because the expenditure is not legally chargeable to them. In 36 districts, 620 new lamps have been erected, but the Inspector-General believes that this represents but little real improvement It is not creditable to such municipalities as those of North and South Barrackpore that no street lamps are provided by them.

7. *Rural Police.*—Reports have been called for by Government from Commissioners of Divisions on the working of the Chaukidari Act, and the effect of the changes introduced by the new law of 1892, with special reference to the progress made in extending the provisions of the Act to villages in which it has not hitherto been in force, and to the steps taken for the improvement of the position and status of the chaukidars. These reports are now before Government, but the Inspector-General has briefly summarised in his report the results achieved during the year. From Statement E it appears that the total number of chaukidars in the province in 1892 and 1893 was as follows;—

Class of chaukidars.	1892.	1893.	Increase.	Decrease.
1	2	3	4	5
Under Act VI of 1870	96,787	101,517	4,730	.....
Under Regulation XX of 1817 ...	53,665	48,696	.....	4,969
Number of chakran chaukidars ...	18,629	17,911	... .	718
Other chaukidars	2,991	3,428	437	... ..
Total ...	174,072	171,552	5,167	5,687

It will be seen that some progress was made during the year in extending the provisions of Act VI of 1870. In the Burdwan Division 1,251 Act VI men were substituted for Regulation chaukidars, of whom 987 belong to the Bankura district. There are still more than 21,000 Regulation chaukidars in this division—an excessive number—which should be rapidly reduced. The number of chakran chaukidars is 11,383, and the important question of the resumption of chakran lands in this division has lately been under consideration. A procedure for the resumption and assessment of such lands is contained in Part II of Act VI of 1870, and some progress in this direction has already been made. It has now been decided to steadily apply the principles of the existing law and to gradually extend the provisions of the Act to all places to which it is applicable. The Commissioner of the Division has been directed to recommend an officer in each district for appointment as Commissioner under section 58 of the Act, and to take steps for undertaking systematic operations in all districts of the Division without delay. In the Dacca, Presidency, and Chittagong Divisions, and in all the districts of Rajshahi, Act VI of 1870 is in force, and, with few exceptions, all the chaukidars are under the Act. In the Patna Division, 2,426 chaukidars were appointed under Act VI of 1870, and the number of Regulation chaukidars was reduced by 3,322. This action, however, appears to have been confined to Shahabad and Saran, and His Honour hopes that greater attention will now be given to this matter in other districts. In Orissa Act VI of 1870 is not in force, and the state of the village watch is said to be as unsatisfactory as ever. The question of the reorganization of the whole chaukidari system in this Division is now under the consideration of Government.

8. The efforts made to induce men of better position to enlist as chaukidars have met with varying success in different portions of the Province. In the Dacca Division the majority of the population being Muhammadans, the question of caste is of less importance than in other places; but a marked improvement has been effected in the class of men recruited. In Bhagalpur a few Rajputs and Chattris were induced to accept employment, and in the Burdwan Division about 1 in 12 of the men newly appointed are said to be of better caste. In other districts but little improvement seems to have been made. There can be no doubt that in Eastern Bengal generally the improvement in the status of the chaukidar is principally due to the punctuality with which his salary is now paid, and to the fact that there has been a general tendency to raise the rate of salary. The Lieutenant-Governor enquired into this matter during his recent tour in the eastern districts, and was gratified to find that wherever he went the chaukidars appeared to be a fine, smart, well set up body of men, in receipt of regular salaries, and in many cases certainly constituting most respectable representatives of the Musalmans of the delta. This improvement was most marked in the Backergunge, Noakhali and Khulna districts.

9. The habit of treating chaukidars as menial servants has frequently been referred to as one of the causes of the unpopularity of the post, and the Lieutenant-Governor notices with satisfaction that very few instances of such treatment have been reported during the past year. In Birbhum a head-constable and a constable, and in Midnapore a Sub-Inspector and a constable, were punished for requiring chaukidars to do menial work, but no cases are reported from the Dacca and Presidency Divisions, and only one from each of the Orissa, Chota Nagpur, and Chittagong Divisions. In Patna three

instances are reported, and in all the police in fault were suitably dealt with. In regard to the payment of rewards, the Lieutenant-Governor has constantly impressed upon district officers the importance of adequately rewarding good work done by the village police, and of being less indiscriminate in the matter of punishments; but he regrets to observe that in some districts his remarks have not borne fruit. In the Presidency Division a sum of Rs 758 only was distributed as rewards amongst over 16,000 chaukidars, and in the Burdwan Division only about one chaukidar in every 200 received a reward. In the Rajshahi district the insignificant sum of Rs. 39 was distributed as rewards amongst 3,136 chaukidars, and in Mymensingh 20 per cent. of the force were punished, but only ·05 per cent. were rewarded. In Patna also there was but little improvement in this respect as compared with last year There has, however, been some improvement in the totals for the whole province, the number of chaukidars rewarded by judicial officers having risen from 585 to 593, and the number rewarded departmentally from 859 to 1,273, while the total amount disbursed in rewards has risen from Rs. 7,644 to Rs. 10,367. The percentage of chaukidars rewarded to the total number in the province has risen from ·8 to 1·13, but the Lieutenant-Governor considers that there is still much room for improvement, and he hopes that in future greater attention will be paid to this important question by all district officers.

10. *Additional Police.*—In consequence of the disturbances arising out of the anti-kine-killing agitation in the Patna Division, additional police were quartered in various villages in the Gaya, Shahabad, and Patna districts, the cost being realized from the villagers. The additional force entertained at Krokir-char in the Dacca district in 1892, and at Lahiri in Darbhanga, were retained throughout the year.

11. *Military Police.*—By the reorganization of the force which was sanctioned at the commencement of the year, three companies of 100 men each, including officers, have been formed with their head-quarters at Dumka, Bhagalpur, and Dacca respectively. Detachments from all three companies were sent to Keonjhar in consequence of the disturbances in that State, and detachments from the Dumka and Bhagalpur companies were also on duty in Bihar in connection with the anti-kine-killing agitation. Great attention was paid during the year to instructing the men in drill and musketry practice, and the Lieutenant-Governor is glad to be able to bear witness to the general smartness and efficiency of the force.

12. *Casualties.*—The following table shows the details of casualties during the past three years:—

		1891.		1892.		1893.	
1.	Retirement on pension or gratuity	452 or	1·9 per cent.	420 or	1·8 per cent.	412 or	1·74 per cent.
2.	Resignation	760 „	3·2 „	723 „	3·1 „	728 „	3·09 „
3.	Dismissal	588 „	2·5 „	586 „	2·5 „	624 „	2·66 „
4.	Discharge	225 „	9 „	125 „	·5 „	220 „	·93 „
5.	Desertion	40 „	·2 „	51 „	·2 „	42 „	·18 „
6.	Death	517 „	2·2 „	551 „	2·4 „	445 „	1·98 „
	Total ...	2,582 or	10·9 „	2,456 or	10·5 „	2,481 or	10·5 „

The average percentage of casualties for the three years previous to 1891 was 12·4. The variations in the figures under the different heads during the last two years are slight, and do not call for any special remark.

13. *Torture and extortion by the police.*—The record of offences of this class is fortunately not a serious one. The number of cases of torture reported fell from 32 to 17, and of these only five were finally returned as true. Two cases ended in conviction and 12 were reported to be false. In 5 of these the complainant was prosecuted under section 211, I. P. C., but only 4 were decided during the year, and in one only was a conviction obtained. None of the cases of torture were of special importance, the worst apparently being that of a head constable and a constable of Mymensingh and a constable of Dacca, who were charged with torturing a boy and causing his death. The last accused absconded, but the first two were convicted and sentenced by the Sessions Judge to five years' and one year's rigorous imprisonment respectively. The High Court, however, took a lenient view of the case, and on appeal acquitted the constable and convicted the head-constable of assault only, sentencing him to a short term of imprisonment.

The number of cases of extortion brought against the police fell from 92 to 70, of which only 14 ended in conviction. The number returned as false was 37, and in 14 of these the complainant was prosecuted, 8 of these cases ending in acquittal, and 4 in conviction, while 2 remained pending at the close of the year. The practical impunity with which false charges of extortion were brought against the police in the Dinajpur district was referred to in last year's Resolution. During the past year the number of cases reported has fallen from 42 to 19. Of these four only were true, and of the remainder prosecutions were instituted against the complainants under section 211 or section 182, I. P. C., in 8 cases, with the result that two ended in conviction and four in acquittal. while the remainder were pending trial at the close of the year. Great attention was paid by the Magistrate of the district, Mr. Tute, to this important question of Police administration, and to him is in a large measure due the credit of the improvement effected. Under Government order No. 5600J., dated 28th December 1893, District Superintendents at head-quarters and Inspectors at sub-divisions have been directed to enquire personally into all cases of torture brought against the police, and the attention of police officers has been drawn to the importance of making a sifting enquiry into all charges in which the police are concerned.

14. *Punishments.*—The following table shows the number of punishments inflicted on members of the police force during the past three years:—

Year.	Judicial convictions under Penal Code.			Under Act V of 1861.			Departmental punishment.		
	Number	Percentage of officers.	Percentage of men.	Number.	Percentage of officers.	Percentage of men.	Number.	Percentage of officers.	Percentage of men.
1	2	3	4	5	6	7	8	9	10
1891	260	·3	1·2	112	·3	·5	4,234	39·2	14·3
1892	245	·7	1·0	130	·1	·5	4,223	41·0	14·0
1893	237	·4	1·0	128	·3	·5	4,853	42·4	16·7

There has thus been a considerable increase in the number of men and officers departmentally punished as compared with last year, and the Inspector-General accepts this as an indication of closer supervision on the part of superior officers rather than of a falling off in the general good conduct of the force. The Lieutenant Governor is not altogether satisfied with this explanation, and is disposed to think that there is a tendency among District Superintendents to inflict too frequent punishments. He concurs with an observation which has been recorded by Mr. Nolan, the Commissioner of the Rajshahi Division, in his Annual Divisional Report, that in this respect there is often too much zeal and too little justice, and that probably much good would result by making the treatment of police officers in regard to punishments and promotions accord more nearly with that prevalent in other departments. The Inspector-General is requested to look into this matter and satisfy himself that punishments are inflicted with more discrimination than appears to be the case at present. It is observed that the number of men wearing good conduct stripes at the close of 1893 was 9,019, being an increase of 714 as compared with 1892. Good conduct allowances amounting to Rs. 17,656, or sufficient for 1,471 men at the rate of Re. 1 each per mensem, were disbursed during the year, and special money rewards were paid to 2,160 officers and men, while 76 received special promotion.

15. *Inspections.*—Mr. Henry was on inspection tour for 135 days, and Mr. Giles, when acting for him, for 19 days As Deputy Inspector of the Northern and Western Range, Mr. Giles and Mr. Pratt were out on tour for 197 days in all, and Mr. Daly and Mr. Wilcox for 196 days. The head-quarters of every district and 27 sub-divisions were inspected during the year either by the Inspector-General of Police or by one of the Deputy Inspectors-General. From the statement given in paragraph 39 of the Report, it appears that, generally speaking, there has been a change of Inspecting officers as compared with last year, and that only 12 out of the 45 districts in the province have been inspected twice running by the same officer. In future reports the districts shown in this statement should be arranged in their official geographical order, and not alphabetically, as has been done in the present report.

The Inspector-General has given a complete list showing the number of days spent on inspection duty in each district by the District Superintendent of Police, and the Lieutenant-Governor notices that insufficient inspections were made by Mr. Wilcox (24-Parganas), Colonel Ramsay (Muzaffarpur), Mr. Ryland (Rangpur), Mr. Goldsbury (Jalpaiguri), Mr. Boileau (Saran), Mr. Orr (Mymensingh), Mr. Livesay (Tippera), Mr. Biswas and Mr. Daly (Noakhali), and Mr. Patten (Palamau). On the other hand, in some districts the number of days spent on tour by District Superintendents of Police was far in excess of the prescribed standard. The Lieutenant-Governor agrees with the Inspector-General that no advantage is to be gained by this excessive touring where no improvement in work results, and he approves of the proposal to issue a circular impressing on all officers the necessity of making their inspections more thorough and more instructive to their subordinates.

16. *Crime.*—The incidence of crime in Bengal, division by division, for the two years 1892 and 1893, is shown in the following statement:—

The proportion of police to cognizable crime investigated in Bengal in 1893 was one policeman to 3·8 cases, which is lower than the proportion in any other province in 1892, except Madras, where it was 1 to 4·9. In the latter calculation, however, petty cases under special local laws are included, and if these be excluded, the proportion will be higher in Madras than in Bengal. In the North-Western Provinces the proportion of police to investigated crime was one policeman to 3·5 cases, and in Bombay it was 1 to 1·3.

17. *Police tests.*—The following table compares the working of the police during the past three years, according to the tests which have been prescribed for the purpose:—

		Percentage of cases investigated by police to cases reported, (*a*1).	Percentage of police cases ending in conviction to cases decided, (*a*4).	Percentage of persons convicted in police cases to persons sent up for trial. *b*(3).
1		2	3	4
Classes I to V taken together	1891	75	68	53
	1892	75	70	55
	1893	66	74	59
Classes I to VI taken together	1891	81	81	69
	1892	81	83	71
	1893	75	86	75

According to test (*a*1), the figures for the past year are lower than in the two preceding years, because the rules about investigating petty cases have been relaxed; but according to tests (*a*4) and (*b*3) they show a steady improvement, which has been attributed by the Inspector-General of Police mainly to the employment of Court Sub-Inspectors as prosecutors in Magistrates' courts. Mr. Henry points out that under the new system of recruitment officers with higher educational qualifications are being drafted into the police force, and that it will be possible to select from them an improved class of Court Sub-Inspectors better qualified by education and knowledge of law to conduct cases in the Courts. The most important test of police work is (*a*4), and though the percentage according to this test 74 per cent. for classes I to V) was lower than the percentage in 1892 in any other province, except Assam and Punjab, in each of which it was 70 only, the results as compared with those of previous years cannot be considered unsatisfactory.

18. *Reported crime of the province.*—The Inspector-General has shown in the table in paragraph 47 of his report the number of cognizable and non-cognizable offences reported in the province during the past two years; but here, as in other places where he deals with crime by classes, or remarks on the tendency of crime to increase or decrease, the corresponding figures for at least ten years should be given, and he should bring forward statistics to illustrate his remarks, similar to those given in Departmental Return No. I.

The number of cognizable and non-cognizable offences reported during the last four years is as follows :—

	1890.	1891.	1892.	1893.
1	2	3	4	5
Cognizable	117,443	128,472	146,185	137,898
Ditto excluding sanitary offences (serial 57).	89,041	95,553	106,106	101,803
Non-cognizable	116,554	119,072	121,624	121,490

The total decrease in cognizable offences was thus 8,287, but excluding sanitary offences, which fell off by 4,096, the net decrease in cognizable crime is 4,191. In the Inspector-General's opinion the decrease is smaller than might have been expected, considering the improvement in the prices of food-grains in 1893, and he attributes this to the sustained improvement in the reporting of crime in consequence of the discretion allowed to the police to abstain from enquiring into certain petty classes of theft, and to the increased attention paid to holding chaukidari parades, and in questioning chaukidars as to occurrences in their villages. Prices in 1893 were, however, higher at least in Eastern Bengal than in 1891.

19. *False cases.*—The total number of cases declared false was 6,103, or 150 less than in the preceding year, and the percentage of such cases to the number reported was 4·4 as compared with 4·2 in 1892, and an average of 5·4 in the three preceding years. The number of false cases in which prosecutions were instituted fell from 743 to 725, but there was a rise from 246 to 270 in the number in which convictions were obtained. The improvement was most marked in the Dinajpur district, where the number of successful prosecutions under section 211, I.P.C., in false cases rose from 9 to 21,—a result which is attributed to the personal attention paid to the subject by Mr. Tute, the District Magistrate. In marked contrast to this in Rangpur, with a larger number of false cases, only two were successfully prosecuted. Under Mr. Marindin in Bhagalpur, out of 40 prosecutions, 25 resulted in the conviction of the accused. The number of cases in which compensation was awarded under section 560, C.P.C., fell from 805 to 676. The falling off is to be regretted, as the power given to Magistrates under the section is one of the most useful means of checking the indiscriminate institution of false prosecutions.

20. *Abstention from enquiry by the police under section* 157, *C.P.C.*—The percentage of cases of house-breaking in which the police abstained from making enquiry, to the number reported, was 33·9, as compared with 10·5 in

1890, 13·4 in 1891, and 38·2 in 1892. In theft cases the percentage was 16·5, the corresponding figures for 1890, 1891 and 1892 being 8·7, 10·3, and 17·5 respectively. The variation in the figures of different divisions is remarkable and in some divisions the abstentions seem to have been unduly numerous. While the percentage of burglary cases not enquired into to the number reported was over 40 in the Chota Nagpur, Bhagalpur, and Patna Divisions, it fell below 30 in the Presidency, Rajshahi, and Dacca Divisions, and below 20 in Chittagong and Orissa. In the Patna Division, of the number of burglary cases investigated, only 1 in 12 was successfully prosecuted; and in Gaya, out of 2,247 cases reported and 924 investigated, only 69 ended in conviction. These figures indicate that the most careful supervision on the part of District Superintendents of Police is necessary to prevent the abuse by subordinate police officers of the powers given to them by section 157, C. P. C. General instructions as to the manner in which these powers should be exercised have been issued by Government and are embodied in the revised Police Code. The Inspector-General remarks that the Code was not published in time for these instructions to have any effect on the figures of the year under review: they were, however, issued and circulated before the Code was published, and the intention of Government in regard to them was fully explained in the Resolution on the Report on the administration of the Police for 1891. As was stated in that Resolution, the instructions are intended rather by way of general guidance than as laying down any rigid rule to be observed in all cases, and the Lieutenant-Governor hopes that district officers will see that they are intelligently acted up to by the subordinate police.

21. In paragraph 56 of his report the Inspector-General has given a general analysis of crime, but it would have been better if the information had been thrown into the form of a table showing the figures for former years, as follows:—

Year.	Number of cases—			Number not enquired into.	Number declared false.	True cases.	Enquired into—			Number of convictions.	Percentage of convictions to true cases.
	Reported true during the year.	Taken up from the preceding year.	Total.				By police Sub-Inspector.	By order of Magistrate.	Total		
1	2	3	4	5	6	7	8	9	10	11	12
1889	119,656	1,476	121,132	6,562	6,995	107,575	93,623	3 224	97,047	47,226	41·3
1890	117 443	1,787	119,230	4,010	6,417	107,003	94,116	3,016	97,1 12	49,050	43 4
1891 .. .	128,472	1,247	129,719	6,740	6,631	116,348	102,198	2,662	104,860	54,779	44·5
1892	146,185	1,239	147,424	17,977	6,253	123,194	107,516	3,542	110,058	64,328	45 5
1893	137,898	1,102	139,000	15,112	6,103	117,785	102,705	2,862	105,567	60,252	45 3

It will thus be seen that there has been a steady increase in the percentage of cases ending in conviction to the number of true cases reported. As regards persons, the Inspector-General has given a statement on page 43 of the report, showing the proportion of persons convicted and acquitted to the number arrested, as well as to the number brought to trial. These ratios appear progressively good, but they are calculated on an unsound basis, and the statement itself is faulty, inasmuch as the distinction between the percentage of convictions to total arrests, and between the percentage of convictions to persons brought to trial, rests solely on the accident of persons having been arrested, without taking into account those whose cases were still pending at the close of the year. The proportion should be calculated on the number of persons whose cases were actually disposed of during the year; and the percentage of persons convicted and of persons acquitted in such cases should aggregate 100. Calculated on this basis, the following table shows the number of persons convicted and acquitted during the year, and the percentage of such convictions to the total number of persons whose cases were disposed of:—

Year.	Convicted—		Total.	Acquitted—		Total.	Total disposed of.	Percentage of convictions.	Percentage of acquittals.
	By Magistrate.	By Sessions.		By Magistrate.	By Sessions.				
1	2	3	4	5	6	7	8	9	10
1889	66,997	1,318	68,315	33,634	1,165	34,990	103,314	66·1	33·9
1890	68,674	1,230	69,903	33,771	1,041	34,812	104,715	66·8	33·2
1891	73,559	1,463	75,022	34,552	1,223	35,774	110,796	67 7	32 3
1892 ...	84,008	1,668	85,676	34,144	1,348	35,792	121,468	70·5	29 5
1893	79,922	1,463	81,385	32,641	1,100	33,744	115,129	70 7	29·3

There has thus, with regard to persons as well as cases, been a steady improvement during the last five years in the results of trials and in the percentage of convictions.

22. *Results of Sessions cases.*—The total number of cases tried before the Court of Sessions was 1,123, of which 781 ended in conviction and 342 in acquittal. Out of 2,563 persons put on trial in these cases, 1,463 were convicted and 1,100 were acquitted. The percentage of convictions in cases rose from 67·8 to 69·5, and in persons from 55·3 to 57·0. These figures show that, as regards both persons and cases, there has been a decided improvement in the results of Sessions trials as compared with 1892. As regards persons committed for trial, out of the 46 districts, 32 (as against 29 last year) secured the conviction of 50 per cent. or more: as regards cases, Manbhum is the only district in which the number ending in acquittal was in excess of the number ending in conviction. The Commissioner attributes the failure at the Manbhum Sessions—and his remarks apply equally to the Hazaribagh and Lohardaga figures—to the long delay between commitment and trial, and to the want of careful supervision on the part of the police. The average detention of prisoners tried at the Sessions was 86 days in Hazaribagh, 70 at Ranchi, and 55 at Purulia. Such delays are excessive, especially at Ranchi, which is the head-quarters of the Judicial Commissioner, and the Lieutenant-Governor hopes that arrangements may be made for the more frequent holding of Sessions at these places. In the Patna Division the results of Sessions trials were unsatisfactory in all districts, except Shahabad, Champaran, and Saran. With the exception of Manbhum, Darbhanga shows the worst results of any district in the province, only 16 persons having been convicted against 35 acquitted. In Muzaffarpur only 33 persons, and in Gaya only 23 were convicted, against 53 and 28 respectively acquitted. As remarked by Mr. Caspersz, (who submitted the District Report from Chittagong as Magistrate, and had been Sessions Judge throughout the greater part of the year) one of the chief causes of the break-down of cases at the Sessions is the failure on the part of Magistrates to sufficiently realize that it is a duty they owe to the accused to thoroughly sift cases before commitment, carefully scrutinizing police diaries, and clearing up discrepancies in cases where the accused are ultimately committed for trial. With these remarks the Lieutenant-Governor entirely agrees, and he trusts that they will be borne in mind by all Magistrates when committing cases for trial to the Sessions.

23. The number of true cases reported during 1893 and previous years is shown in the following table:—

	1886.	1887	1888.	1889.	1890.	1891.	1892.	1893.
1	2	3	4	5	6	7	8	9

Total	99,941	95,992	103,686	112,660	111,026	121,841	139,934	131,792

The decrease of 8,140 in the total number of true cases reported occurred chiefly in classes III, V and VI.

24. From paragraph 61 to paragraph 150, the Inspector-General of Police, according to precedent, deals with the details of the year's crime, class by class and Division by Division. In future reports it will be convenient for him to commence his remarks on each class by a brief statement shewing the principal heads of crime included in that class. Such a statement is prefixed to his report on class III (paragraph 85).

25. *Class I.—Offences against the State and public tranquillity.*—There was an increase of 26 cases only under this class as compared with 1892. Cases of coining fell from 162 to 128, and of 173 persons tried in those cases, 87 were convicted and 86 acquitted. True cases of rioting show but little variation during the last five years, the number for 1893 being 2,218, against 2,192 in 1892 and an average of 2,204 in the three preceding years. That most of the cases tried were petty in their nature is indicated by the fact that only 229 out of the 10,510 persons actually tried came before the Sessions Court. In the

Burdwan, Presidency, Rajshahi, Chittagong, and Bhagalpur Divisions there was a falling off in the number of true cases of rioting reported, and in the Patna, Dacca, and Orissa Divisions there was an increase of 111, 34 and 13 cases respectively. The increase in the Patna Division is partly accounted for by the outbreak of lawlessness, due to the strained relations between Hindus and Muhammadans on the subject of the slaughter of cattle. In Gaya there were 17 occurrences from this cause, five cases, in which 30 persons were concerned, resulting in conviction, the remaining cases proving unsuccessful on trial. The quartering of additional police on the localities concerned in these riots has had an excellent effect, and there has now been a cessation of disturbance. Two riots in Shahabad and Saran were specially serious because of the evidence they bore of premeditation and conspiracy on the part of a large body of Hindus who collected secretly from considerable distances, and appeared unexpectedly on the scene, prepared to use violence in support of their determination to put down or to punish the slaughter of cattle. In the first case, which occurred at Koath, the riot arose out of a dispute in connection with the disappearance of a Brahmini bull, and five Muhammadans and seven Hindus were prosecuted and convicted, a force of punitive police being also quartered in the village. The other and still more important case occurred in the village of Basantpur in the Saran district. A mob of Hindus attempted to rescue a number of cattle that were being taken to Dinapore for commissariat purposes, and had been placed for safety inside the thana under the protection of the Police. Inspector Gyatri Prosonno Ghosal, with a small force of police, after giving the rioters ample warning, was compelled to fire on them, with the result that two of them were so severely wounded that they subsequently died. Although the accused were ultimately acquitted for want of sufficient identification, the action of the Inspector in ordering his men to fire on the rioters was held by the Judge who tried the case, and by the Government, to have been justified, and he has since been rewarded with promotion for the courage and due sense of responsibility shown by him on the occasion. In the Dacca Division there has been an increase of 34 in the number of true cases of riot, and this in spite of the extensive preventive measures taken under sections 106 and 107, C. P. C., in all districts of the division, with the exception of Mymensingh. No doubt, however, as Mr. Savage has stated, in a district like Backergunge, where rights and tenures are in a state of inextricable confusion, possession is considered more than nine points of the law, and it is generally accepted as cheaper and easier to fight and run the risk of punishment, than to seek redress in the Civil Courts. In the Rajshahi district an important case of riot occurred between two opposing members of the Nator family, known as the Bara and Chota Taraf, and occupied the time of the Courts for many days. In the course of the riot a man's head was cut off and carried away, and the body was claimed by both parties as that of one of their adherents. In the Chittagong Division, the only case of any importance was one in which Mr. King, of the Assam-Bengal Railway, was wounded by villagers armed with fishing spears and lathies. In this case eight of the accused were convicted and sentenced to long terms of imprisonment.

26. *Class II.—Serious offences against the person.*—Cases of this class fell from 4,666 to 4,568, the decrease occurring under all heads except "Hurt by dangerous weapons," "Attempts at and abetment of suicide," "Other murders," and "Attempts at murder." The percentage of convictions in cases and for persons tried shows improvement. In the former the percentage was 45·7, against 43·3 in 1892 and an average of 43·4 for the four preceding years, and in the latter it was 48·9, against 45·6 in 1892 and an average of 44·9 for the four years from 1889 to 1891. Of the 6,861 persons sent up for trial, 1,166 were tried by the Sessions Court. Here also there was an improvement as compared with former years, the percentage of convictions having risen from 47·9 in 1889 and 50·4 in 1892, to 52·3 in 1893. The number of true cases of murder reported increased from 351 to 356. The percentage of these cases ending in conviction was 25·5, or practically the same as last year; but the percentage of persons convicted to the number tried rose from 20·7 to 25·5. There were five cases of murder by dacoits, and 10 by robbers, against 8 and 15 respectively in 1891. The one case of murder by robbers in the Presidency Division occurred in the 24-Parganas, and in this a constable was beaten to death at night by some

robbers, whom he had surprised in the act of robbing a goldsmith's shop. The murderers succeeded in escaping detection; but, as the Inspector-General points out, the case illustrates the desirability of having the watch and ward police working in pairs—an arrangement that has already been carried out in most towns. "Murders by poison" have fallen from 21 to 16, but under "Other murders" there was an increase of 18 cases, from 307 to 325. In the Burdwan Division, the results of trials under the latter head were the worst of any division in the province, the number of persons convicted being only 7, to 44 acquitted. A remarkable case occurred in the Khulna district, in which the accused, being enraged with his wife, a girl of 11 or 12 years of age, for not supplying him with water, attacked her and gouged her eyes out, causing her death. The man was sentenced by the Sessions Judge to be hanged, but the sentence was commuted by the High Court to one of seven years' transportation. In the Patna district an unhappy case occurred in which a post-office employé, in a fit of insanity, shot his bearer dead. An extraordinary case is reported from the Cuttack district, in which some raiyats, who were resisting distraint of their crops, severely injured one of the servants of the zamindar, and in order to support a charge of murder against the latter's party killed an old man of their own side.

27. *Class III.—Serious offences against property.*—There has been a decrease of 1,872 cases in this class, the number having fallen from 33,325 to 31,453. The decrease occurred under all serials of crime, except in cases of house-trespass (serial 37), in which there was an increase of 23 only. There was a decrease of 91 in true cases of dacoity, the number having fallen from 317 in 1892 to 226. The remedial measures taken to check this serious form of crime were enumerated in last year's report, and the Lieutenant-Governor is pleased to think that they have already met with a fair measure of success. With the exception of the Chota Nagpur Division, where the increase was merely nominal, the only divisions which do not show a decrease in true cases of dacoity are Burdwan and Dacca, where the numbers rose from 42 and 18 to 62 and 26 respectively. Of the 62 cases in the Burdwan Division, no less than 27 occurred in the Midnapore district and 21 in Bankura. In these districts there has been in the past a noticeable suppression of crime, and the police either did not report cases, or reported them as minor offences. Instances of this suppression were brought to light during the year, and the officers to blame were punished. In Bankura a case which occurred as far back as 1890 was detected, two persons being sentenced to 10 years' imprisonment each—an excellent piece of work for which the credit is due to Sub-Inspector Ram Sadoy Mookherjee. A notorious bad character, Sarfaraz Khan, who is believed to have organized several dacoities in this district, was imprisoned during the year, and his organization has been broken up. In the Dacca Division the chief increase occurred in the Mymensingh district, where the number of cases rose from 6 to 17. In the opinion of the Inspector-General, the district is underpoliced, and this defect was noticed also by the Police Redistribution Committee who have recommended an increase to the district force of 9 officers and 80 men. In the Rajshahi Division the decrease in the number of cases is most marked in the Rangpur and Dinajpur districts, and is attributed by the Commissioner to the cessation of the agricultural distress which aggravated crime of this kind beyond the normal standard in 1892. At the same time he notices the improvement in the working of the police as a contributory cause. In Rangpur an important case was brought to a successful issue through the courage of the complainant who fired on the dacoits, and the promptness of a head constable who arrested some of the men as they were about to leave by train. Five men in this case were sentenced to ten years' imprisoment each, and the head-constable and complainant were rewarded. In the Patna Division the number of cases of dacoity fell from 76 to 42, the decrease being most conspicuous in the Gaya district, where occurrences under this serial fell from 42 to 11. Of these, however, not a single case was detected—a result which is discreditable to the district police. The decrease in the number of cases is attributed by the Magistrate to the preventive measures taken against bad characters living in the centre of the district, who had been neglected in former years, and who were responsible for the great outbreak of dacoity in

1891 and 1892. That this is probably the correct explanation of the decrease in the number of cases is borne out by the fact that there was no decrease in the Jahanabad subdivision, where least attention was paid to bad characters—a reproach which the Lieutenant-Governor hopes will be removed during the present year.

28. Cases of robbery fell from 197 to 184, but while the percentage of convictions in cases has fallen from 42·6 to 42·3, that of persons has risen from 52·4 to 59·9. The number of true cases of mischief by fire rose from 375 to 396. Only 23 persons were convicted in these cases against 113 acquitted. The worst Divisions in this respect are Rajshahi and Presidency, with 97 and 72 cases, respectively, and only one person convicted.

29. *Class IV.—Minor offences against the person.*—The number of cases under this class fell from 2,268 to 2,082. Judicial results show a slight falling off, the percentage of convictions in cases being 21·1 against 21·7, and that of persons 28·2 as compared with 30·1 in 1892. As the majority of these offences are compoundable, more favourable results can hardly be expected.

30. *Class V.—Minor offences against property.*—Cases of this class decreased from 44,870 to 43,098, and if burglaries be included, the figures for the two years become 76,219 true cases in 1892 and 72,715 in 1893. The number of true cases of burglary fell from 31,349 to 29,617, being a decrease of 1,732 cases, and of theft from 30,529 to 29,098, or a decrease of 1,431. That the decrease is not more marked, considering the favourable harvests of 1893, may be attributed to the improvement in reporting occurrences. About 66 per cent. of burglary and 72 per cent. of theft cases were investigated, and in the former only about 1 in 9, and in the latter less than 2 in 5, were successfully worked out. In the Patna Division there was a decrease of 859 cases of burglary as compared with last year, the decrease occurring chiefly in the Gaya and Champaran districts. The percentage of cases in which the police abstained from enquiry is still too high, though it has fallen from 53 to 40·7, the figures for the Darbhanga district for the two years being 70·7 and 51·8. In the Darbhanga district, moreover, the great disproportion between the number of burglaries and thefts, of which there were 1,461 and 441 cases respectively, leaves no room for doubt that crime under the latter serial is still largely concealed, and the attention of the District Officers should be specially directed to the matter. As an illustration of the successful working of the anthropometrical system may be instanced a case of theft which occurred in the 24-Parganas, in which the accused, who had taken service under an assumed name, was identified by anthropometric measurements, and three previous convictions having been proved against him by this means, was sentenced to four years' rigorous imprisonment.

31. *Class VI.—All other cases.*—There has been a net decrease of 4,238 cases under this class, which is accounted for chiefly by a decrease of 4,098 under "Public and local nuisances," and of 631 in prosecutions under the Salt Act. Prosecutions under the Excise laws fell from 2,732 to 2,509. The number of cases of bad livelihood instituted rose from 2,638 to 2,944, and of these, 151, as compared with 91 in 1892, were instituted by petition before the Magistrate. In Lohardaga, out of 19 cases prosecuted, only one proved successful, and this very unsatisfactory result is no doubt due to the inordinate delay in taking up cases, the average duration of which from the date of issue of process was 135 days. In Palamau there were only 4 prosecutions during the year, and not a single one proved successful. In Singhbhum and Burdwan, results were almost as bad, only one out of 16 prosecutions in the former and 7 out of 23 in the latter ending in conviction. The importance of trying a certain number of these cases in the villages of the accused has been referred to in previous years, and the Lieutenant-Governor notices with satisfaction that the number of cases so tried has risen from 843 to 1,168. Instances of delay, however, in disposing of cases are still very numerous. Thus in Jessore one case lasted 596 days from the date of issue of process, one in Bogra lasted 280 days, and one in Midnapore 244 days, while in seven other districts cases are shown as having lasted over 200 days. Judicial results for the whole province show a great improvement, and are the best on record for many years, 72 per cent. of the cases instituted, as compared with 71 per cent. last year, having proved successful.

The number of persons shown in the registers as under surveillance at the close of the year was 42,107, as compared with 45,151, and the decrease is attributed to the greater attention paid to the subject, which has led to the exclusion from the registers of some persons who had hitherto been needlessly included. A confidential register, containing the biographies of all persons registered for C. class surveillance, has been opened at the head-quarters of each district for the Magistrate's information, and he can thus satisfy himself whether the surveillance is really necessary or not, and whether it may safely be relaxed. The number of salt prosecutions fell from 2,006 to 1,099, the decrease occurring chiefly in Chittagong, Midnapore, and the Orissa Division, the latter being the tract where it has recently been asserted in the House of Commons and in the native newspapers that there had of late been unusual and excessive activity in prosecuting such cases. As an average, 15 seers of salt was attached for each person convicted.

32. *Non-cognizable crime.*—The following table shows the increase or decrease under each class of non-cognizable crime in 1892 and 1893:—

	Number of cases.		Increase.	Decrease.
	1892.	1893.		
1	2	3	4	5
Class I ...	8,994	9,278	284	.....
„ II ...	20	20	.....	.....
„ III ...	823	959	136	.....
„ IV ...	57,264	58,252	988	.....
„ V ...	10,015	10,958	943	.....
„ VI ...	13,585	13,576	.....	9
Special laws ...	30,923	28,447	.....	2,476
Total ...	121,624	121,490	2,351	2,485
Net decrease ...	.....	.....	.....	134

None of the cases call for special remark, but the Lieutenant-Governor notices that, as regards judicial results, there is, in many districts, a remarkable excess of acquittals over convictions. Thus in Midnapore the number of persons acquitted to persons convicted was 1,469 to 1,419, in Bogra it was 341 to 336, in Chittagong it was 1,306 to 1,032, in Champaran it was 1,165 to 797, and in Purnea it was 555 to 456. Again, in Palamau there were 199 persons acquitted to 156 convicted, whereas in the neighbouring district of Manbhum there were 516 convictions and only 43 acquittals. Such figures awaken the fear that sufficient care is frequently not taken by Magistrates to see that there is fairly strong *primâ facie* evidence against the accused before the prosecution is admitted.

33. *Remands.*—The following table shows the percentage of remands in police cases sent up for trial:—

	Percentage of A forms disposed of at first hearing.	Percentage of A forms remanded once.	Percentage of A forms remanded twice.	Percentage of A forms remanded thrice.	Percentage of A forms remanded four times.	Percentage of A forms remanded five times.	Percentage of A forms remanded six times.	Percentage of A forms remanded more than six times.	Pending.
1	2	3	4	5	6	7	8	9	10
1890 .	34·9	19·8	11·8	9·7	6·9	4·3	2·7	5·5	2·4
1891 (a) ...	30·9	22·3	15·2	10·2	6·9	4·5	2·5	4·9	2·6
1892 (b) ...	37·8	24·5	15·2	9·0	5·1	2·7	1·5	1·7	2·1
1893 (b) .	36·8	24·5	15·8	9·1	5·2	2·6	1·3	1·8	2·4

(a) Including Chittagong Hill Tracts.
(b) Excluding ditto ditto.

The percentage of A forms disposed of at the first hearing and of those remanded more than six times is not quite so good as in 1892, but the variations are slight, and the figures are a great improvement on those of former years.

The Lieutenant-Governor is glad to observe that the improvement noticed last year has been generally maintained in all Divisions.

34. The number of cases of security for keeping the peace under section 107, C. P. C., has fallen from 4,020 to 3,938, being a decrease of 82 cases. In future reports it should be stated how many of the persons required to find security were able to do so, and how many had to go to jail in default.

35. *Anthropometry.*—A detailed report on the working of the anthropometric system for the identification of criminals was submitted to Government on the 1st May 1894, and the Inspector-General has not therefore thought it necessary to do more than make a few passing remarks on the subject. It would, however, have been well in this report to have briefly summarized the results attained and to have shown the number of criminals actually identified by means of the system during the year. The instruments used in measuring have been improved by mechanical additions which reduce the chances of inaccuracy in taking measurement to a minimum, the system of search has been made exhaustive, and the use of thumb impressions as the final test in the office of search has been adopted with the most successful results. From the separate report referred to above, it appears that the measurements of over 11,000 dangerous and habitual criminals have been permanently recorded. The system was put to the test of actual working for the first time towards the close of the year, and instructions were issued to all District Superintendents of Police requiring them to account separately for all unidentified persons in their districts, and to submit their nominal roll and measurement cards to the central office. The number of successful identifications thus secured in the eight months up to the 1st April 1894 was 48, and it is interesting to compare these figures with the corresponding figures in France, where in the second year of the working of the Bertillon system, the number of successes under similar conditions was only 49. These results justify the belief expressed by the Inspector-General that the system in Bengal has now been established on a firm and practical working basis, and that in a few years, especially if the system is introduced in the North-Western Provinces, the Central Office will be able to account for a large proportion of the persons who would otherwise have remained unknown to the police. The Lieutenant-Governor is glad to hear that cordial assistance was rendered to the police engaged in measuring habituals by the officers of the Jail Department.

36. Mr. Henry brings to the notice of Government the good work done by Messrs. Giles, Daly, Pratt and Wilcox as Deputy Inspectors-General, and acknowledges his special obligations to Mr. Showers, who acted as his Personal Assistant throughout the year. The names of the District Superintendents of Police, Assistant Superintendents, and Inspectors who are mentioned in paragraph 42 of the report will be noted in the Appointment Department.

37. To Mr. Henry himself the thanks of Government are due for the zeal with which he has devoted himself to police work. His management of the department has been sound and sensible, and in particular he has developed anthropometry with such assiduity and energy that he has placed it on a firm basis as a useful agency for the identification of criminals.

Chief Secretary to the Govt. of Bengal.

IRRIGATION OPERATIONS OF CANALS IN BENGAL DURING THE RABI SEASON, 1893-94.

No. 1029*I*.

GOVERNMENT OF BENGAL—IRRIGATION DEPARTMENT.

Dated Calcutta, the 14th August 1894.

RESOLUTION.

READ—

Statements Nos. I, II and III showing irrigation operations of canals in Bengal during the *rabi* season, 1893-94.

OBSERVATIONS.—The area irrigated during the *rabi* season of 1893-94 was 76,762 acres against 133,202 acres in 1892-93, showing a decrease of 57·62 per cent.

2. The rainfall during the year in each of the eight districts was less than that of the previous year, the average being 1·04 inches against 4·71 in 1892-93. The excess rainfall of the preceding year was, however, mainly in February, and there was a heavier fall in October 1893 than in October 1892, which materially affected the area leased.

3. From the Midnapore Canal, where there was no irrigation of rabi in 1892-93, 6,213 acres of boro rice were irrigated during the year, while from the Eden Canal 138 acres only of boro rice, sugar-cane and potatoes, were irrigated against 2,191 acres in 1892-93, showing a decrease of 2,053 acres. In the Sone Circle the area irrigated was 60,061 acres less than that irrigated in 1892-93, and in the Orissa Circle the decrease was 539 acres.

4. The details of the increase or decrease in the irrigation of the *rabi* crops from each canal during the year 1893-94, compared with those of the previous year, are given in the following statement:—

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JULY 1894.

THE meteorology of July has not only been highly important, but it has also been rather extraordinary from the number and importance of the barometric depressions and cyclonic storms which have been formed. All of these storms have moved in a westerly or north-westerly direction. Four of these storms, and indeed all the severe storms were formed over the sea, or partly over the sea and partly over the land, whilst two feeble depressions were formed over the land area.

In the first week two feeble storms occurred: one passing from the north-west angle of the Bay, and the other being formed in the centre and north of the province, but these were of little importance. After this came three severe storms, each more severe than the last, and the path of each of which was to the north of the former path. These were practically formed over the Bay, and moved in paths varying from north-west to west. The first of the three was decidedly severe, and the two last very severe, the third doing a good deal of damage to the shipping at the head of the Bay. The sixth was a feeble storm, as judged by the depression of the barometer, but it was highly important in the amount of rainfall it gave, and particularly because it gave heavy rain to areas which had hitherto received very little rain in July.

With this succession of storms large amounts of rain have been brought up to the province, but the distribution of the rain has been singular. The general rainfall of the province has been about 20 per cent. in excess of the normal, but nevertheless some districts have not received much more than half or one-third the usual amounts for July. Thus in Kuch Bihar a *defect* of no less than 68 per cent. and in Rangpur a *defect* of 62 per cent. of the normal fall in July has been recorded, while on the other hand, in the same division of North Bengal, the district of Pabna has received an *excess* fall of 74 per cent. Again in Bihar the district of Darbhanga has received a fall 48 per cent. *less* than usual, and Muzaffarpur and Purnea have shown *defects* of about 40 per cent., while also in Bihar the district of Bhagalpur has received a fall 51 per cent. in *excess*, and Gaya an *excess* of 46 per cent. of the normal fall. Hence, though the monsoon rainfall has been good on the whole, it has been remarkable for its irregular distribution, and in this respect the present monsoon appears to be almost unique.

At the close of June a very feeble barometric depression had formed in the north of the Bay, and on the 30th, or the last day of the month, it had advanced into the north-west angle, and its centre was close to Balasore and a little to the east of it. With the advance of the small depression, monsoon winds were again beginning to blow freely over the province, and hence general rain was being received. On the 1st of July the depression had to a great extent advanced inland, though it remained extremely feeble, and the lowest pressure was reported at Calcutta, while there was also a badly defined cyclonic circulation of winds over South-West Bengal. Practically, however, on this day, the depression had ceased to exist. On the 2nd the lowest pressure was reported from Rampur-Boalia, and round this as a centre winds were again circulating feebly in a cyclonic form, but there was scarcely sufficient evidence to say that any barometric depression existed over this area on this day. On the 3rd, again, pressure was relatively low over the east of Bihar and part of North Bengal, and a moderate fall of pressure had occurred, while winds showed a tendency to circulate round a centre probably near Malda, so that a very feeble, but not very definite, barometric depression appears to have existed over the east of Bihar on this day. On the 4th the lowest pressures were reported at Patna and Arrah, where pressure was nearly a tenth of an inch in defect, and the feeble depression had apparently moved in a west-north-westerly direction, and hence pressure was falling in the western districts, while it was rising moderately to rapidly at the central and eastern stations. The circulation of winds accompanying the feeble depression was, however, by no means definite. On the 5th the feeble low pressure area had apparently passed away from the province, and pressure was rising briskly at all stations, though it was still in slight defect in the west and centre of the province. No true circulation of winds, however, was recorded on this day. On the 6th a further slow increase of pressure occurred, and pressure became in slight excess in all districts, while on the 7th pressure had again generally increased, though a fall was commencing at the western stations, but still pressure was in excess in practically all districts.

The first two feeble depressions of the month having thus passed away, they were followed by a third and much more vigorous storm, which was of considerable strength over the sea. It formed immediately after conditions had ceased to be disturbed after the Bihar depression.

Small cyclonic storm of July 8th to July 14th.—On the 8th, pressure was rising at the northern stations and falling over the southern half of the province, the fall increasing in amount towards the south-eastern districts, and being largest over the Bay. At the same time wind directions at a few of the south-eastern stations began to show indraught towards the sea area. It was hence evident that a barometric depression was forming in the east of the Bay. Over Bengal rain had fallen rather abundantly from the 7th to the 8th, the rainfall being particularly heavy in the west of the province. On the 9th the depression over the Bay was developing slowly, and pressure had fallen in all districts, but owing to the indraught towards the depression, the monsoon winds were being drawn away from Bengal,

and on the 9th the rainfall reported was light and local. On the 10th a further slow development of the depression in the Bay took place, and the small storm was probably nearly in the centre of the Bay and to the south-west of Akyab. Winds showed a strong indraught towards the small storm, and therefore again little rain was reported in Bengal on this day. It is probable also that on the 10th the small storm was beginning to move in a westerly direction, for on the morning of the 11th the centre had become much nearer to the South Orissa Coast, and was probably to the south-east of False Point and to the east of Puri. Hence on the 11th pressure was falling slowly to moderately in Orissa and in the south-western districts of Bengal, while it had risen briskly over the remainder of the province. The centre of the small storm crossed the Orissa coast to the south of False Point, and the central line passed probably almost immediately over Puri at about 2 A.M. of the 12th.

The following is a short description of the weather experienced at Puri during the small storm as given by the Collector of that district :—

"*The 11th July* 1894.—Weather was stormy with a strong gale of wind and rain at small intervals. The total amount of rainfall registered was 0·70 inch, of which 0·49 inch preceded the storm. The highest wind velocity was 38·2 miles an hour. Wind direction, north-north-east at first, was calm a little before the storm, then south-west and south-south-west. The state of sea during the storm was boisterous, but it subsided soon after the wind had ceased.

"This weather first began with a light shower of rain amounting to 0·23 inch between forty minutes after 1 and 4 P.M. on the 11th instant, wind blowing in puffs from north-north-east at a velocity of 26·5 miles an hour. The sky was completely overcast. Between 6 and 8 P.M. there was another shower of rain amounting to 0·26 inch, wind direction continuing steady (north-north-east), but the velocity fell from 26·5 to 14·5 miles an hour. The sky was now clearing towards east and south, while over the horizon to west extending to south-west looked heavily clouded and threatening. At 2 A.M. (12th, following day) the wind was calm. This lasted till 3·45 A.M., when there was a sudden burst or strong gale of wind from south-west accompanied with rain. The rain ceased after 15 minutes, giving 0·21 inch, but the wind increased and continued to blow up to 10 A.M. at a velocity of 38·2 miles an hour. Here the wind slowly shifted to south-south-west and the velocity fell, blowing at 19·3 miles and lower and lower till 10 P.M., when the weather looked settled. The lowest barometer was 29·544 inches (corrected probably about 29·35 inches). It was taken at 2 A.M. on the 12th."

It is hence clear from this description that the storm centre, which was accompanied by a decided calm, such as is usually experienced only in the cyclones of the transition periods, passed over Puri between 2 A.M. and 3·45 A.M. of the 12th of July. The storm having crossed the coast near Puri on the early morning of the 12th, moving in a westerly direction at 8 A.M. of that day it was some little distance to the south of Sambalpur. The storm was therefore moving rapidly in a westerly or west-north-westerly direction. It was not, however, a storm of great intensity, nor was the pressure at its centre very low, but it was accompanied by a most perfect cyclonic circulation of winds, which, particularly to the south of the storm, were decidedly strong. The storm having thus passed inland, conditions became rather more favourable for rainfall in Bengal, and on the morning of the 12th the majority of stations reported rain. The storm, however, continued to advance in an almost westerly direction at an extremely rapid rate, the average speed being about 25 miles an hour for the 24 hours from 8 A.M. of the 12th to 8 A.M. of the 13th, and on the latter date it was in Central India. On the 14th the small storm was entering Lower Sind, and on the 15th it had quite disappeared. The rapidity with which this storm therefore advanced across India is remarkable, as it covered the space between Orissa and Lower Sind in a little more than two days, or in certainly less than two days and a half, that is at the rate roughly of six hundred miles a day. By the strong indraught towards the rapidly retreating storm, the monsoon current was to a great extent deflected from Bengal, and hence much less rain was received than is usually the case after the passage of a storm through Orissa. On the 13th, also, in the rear of the storm, pressure had risen very rapidly over the whole of the west of the province, the increase equalling nearly a quarter of an inch in Orissa. On the other hand pressure had begun to fall moderately to rapidly in Burma, and there was a slight tendency for winds to set up a circulation along the Burma coast, and conditions were therefore again favourable for the commencement of another barometric depression over the east of the Bay.

At this period the fourth depression and cyclonic storm of the month formed. The storms in July also gradually increased in intensity during the month, for the fourth storm was a decidedly severe one, and much more severe than the storm which crossed over Puri on the 12th. It is also noticeable that the path of the fourth storm was more to the north than the third, and crossed the coast over Balasore to the north of Orissa.

Severe cyclonic storm of July 14th to July 23rd.—On the 14th, pressure continued to fall rapidly at the eastern stations and in the east of the Bay, while a smaller fall was reported over the remainder of the province, though pressure was still in considerable excess generally. Winds at the eastern stations, however, showed very distinct indraught towards the Bay, indicating the continued existence and probable slight intensification of the depression over that area. With the formation of this second storm, and by the indraught towards it, again the monsoon current blowing over Bengal began to fall off in force, and hence conditions were not very favourable for rainfall. On the 15th, pressure had fallen over the

whole province, the fall being largest in the north of the Bay and at the eastern stations Winds also showed a very decided cyclonic circulation, which extended over the whole of the north of the Bay and the greater part of Bengal. The centre of this circulation was probably to the west of the centre of the Bay in the latitude of Puri. On the 16th pressure was falling rapidly in Orissa, particularly at False Point, which reported a fall exceeding a tenth of an inch, while it was falling slowly in the west of the province and rising at the eastern stations. The small storm had apparently advanced in a north-north-westerly direction, and was at 8 A.M. of the 16th some little distance to the south-east of False Point, while it was also probably intensifying to a considerable extent. On the 17th the storm had advanced again in a north-north-westerly direction, and was within the north-west angle of the Bay, the centre being a short distance only to the south-east of Balasore. The storm had increased rapidly in intensity, and there had been a fall of pressure at Balasore of more than a fifth of an inch, while a decidedly rapid fall had occurred over the whole of the south-western districts of Bengal. A very strong cyclonic circulation of winds accompanied the storm, and it extended over the whole of Bengal and the northern half of the Bay. The centre of the small cyclonic storm then crossed the coast to the south of Balasore soon after noon of the 17th, and the exceedingly low pressure of 29·169 inches was recorded at that station at 1 P.M. This pressure is about a third of an inch below the normal of the day. Probably, also, as the centre did not actually pass over Balasore, at the actual centre of the storm a pressure of only about 29 inches existed. The pressure recorded at Balasore even is an unusually low pressure for a cyclonic storm of the rains. The storm gave very strong winds and stormy and very squally weather over a large part of the Bay, and particularly in the north-west angle, and from Balasore it is reported that during the early part of the storm at about 2 A.M. of the 17th instant, that is about 12 hours before the storm centre reached the coast, the flag-staff with the storm signals hoisted on it was blown down, and hence the signals could no longer be hoisted there.

Either immediately before crossing the coast, or as the storm advanced inland, it began to change its line of advance, and instead of moving in a north-north-westerly direction it advanced almost due west. Hence at 8 A.M. on the 18th the centre of the storm was a little to the south-east of Sambalpur in the Central Provinces, having thus advanced about 200 miles since the previous day in almost a due westerly direction. On the 19th the centre of the storm was to the south-east of Seoni, or about 240 miles to the west of its position on the 18th, while on the 20th the centre was near Pachmarhi, and on this day it had advanced in a west-by-north direction through about 120 miles. On the 21st, the centre of the storm was a little to the north-west of Indore, and had thus advanced about 200 miles in a west-north-westerly direction. On the 22nd the storm had advanced in a north-westerly direction and its centre was near Mount Abu. On the 23rd it had advanced into Lower Sind, and on the 23rd, though a depression was still indicated over that area, it was very feeble, and on the 24th the depression had entirely disappeared. Thus the storm which first formed a little to the west of the centre of the Bay about the 14th instant continued to exist quite up to the 23rd or for ten days, during which period it also advanced in directions varying in different parts of its course from north-north-westerly to westerly over a path probably seventeen or eighteen hundred miles long, giving heavy weather and abundant rain practically throughout its existence. It was therefore a storm of exceptional nature.

As the storm approached the western side of the Peninsula it created a very strong indraught of monsoon winds from the Arabian Sea towards it. It hence caused very heavy weather in the western districts of India, and probably also in the Arabian Sea, while it gave exceptionally heavy rainfall over Western and North-Western India and caused most disastrous floods in several places.

The storm therefore was a very important one, as it gave heavy weather from about the 14th or 15th, up till certainly the 22nd, in the Bay of Bengal and Arabian Sea and over the head of the Peninsula as well. During the passage of the storm inland through the north of Orissa, in addition to the stormy weather with very strong winds and the very low pressures which were recorded, some very heavy falls of rain were reported. Thus from 8 A.M. of the 16th to the 18th Chanubali received 12·3 inches of rain, and Bhadrak also in the Balasore district 7·7 inches. A heavy wave of monsoon winds advanced in the rear of the storm, but owing to the westerly direction taken by it, the monsoon current was mainly deflected towards the Central Provinces, and therefore away from Bengal. Hence the monsoon current affecting Bengal during the passage of the storm across the Peninsula was again rather feeble, except in the south-western districts and Orissa, which were more or less affected by the storm. The rainfall for this period was therefore in very large defect in North and East Bengal and Bihar; the defect was much smaller in South-West Bengal and Chota Nagpur, while on the other hand the fall in Orissa was nearly twice as large as usual.

A fifth barometric depression and cyclonic storm was then formed, which gave very severe weather at the head of the Bay, and indeed caused a considerable amount of damage to the shipping at the Sandheads. The fifth storm passed further to the north than the fourth storm had done, in the same way that the fourth storm had passed further north than the third. It would also appear that the severity of the fifth storm was greater than that of the fourth, and hence the storms in question formed a kind of series of increasing intensity.

Severe cyclonic storm of July 23rd to July 28th.—While the fourth storm was still in existence conditions were again becoming disturbed in the Bay. On the 22nd pressure was falling

at all except a few of the south-western stations, the fall being largest in the north-east angle of the Bay. It is probable that even on this day a small storm was forming, as the weather at Akyab on the 22nd was extremely suspicious with a falling barometer during the day, while to the south very strong winds and very squally weather were reported from Diamond Island. On the 23rd the observations indicated that a feeble storm existed partly over the head of the Bay and partly over the Sunderbans with a centre to the south of Barisal, where pressure was 0·13 inch in defect. It is uncertain whether this storm was the continuation of the disturbance indicated in the north-east angle of the Bay on the 22nd, but if it was, the disturbance must have moved in a north-westerly direction during the 24 hours from the 22nd to the 23rd. During the 23rd the storm commenced to move in a westerly direction, and up to 4 P.M. of that date it had not intensified to any extent, but remained a feeble disturbance. From that time, however, it commenced to deepen and intensify rapidly, and at 8 A.M. of the 24th it was a deep and rather severe storm, the centre being about 30 to 40 miles to the south-east of Calcutta, where a pressure of only 29·203″ was recorded or 0·318″ below the normal. With the rapid deepening of the storm the cyclonic circulation of winds became much stronger and extended over the whole of Bengal. The main force of the winds was to the south and south-east of the storm, and a severe gale of wind blew at Saugor Island and the Sandheads, commencing from about midnight on the 23rd, and for several hours the wind velocity at Saugor Island averaged more than 60 miles an hour. At noon of the 24th the centre of the storm was about 25 or 30 miles to the south-south-west of Calcutta, the centre having passed apparently close to Diamond Harbour, and at this time the direction of its movement must have been a little to the north of west. Its rate of advance then became very slow for some hours, and up to 10 P.M. the storm had made little further advance, and its centre was still to the south-west of Calcutta and south-east of Midnapore. This retardation appears to have been due to an alteration in the direction of its movement which was taking place, for it is always the case that storms move very slowly while recurving. After 10 P.M. it moved almost in a north-westerly direction, and at 8 A.M. on the 25th the centre was to the south of Bankura and nearer to that station than to Midnapore. The pressure at Bankura on the 25th at 8 A.M. was 29·274″ or 0·211″ in defect, and it is probable the storm was already commencing to fill up slightly, though it was still accompanied by strong cyclonic winds. On the 26th at 8 A.M., the storm was entering Baghelkhand, and had hence moved across Chota Nagpur during the 24 hours at an average rate of about 12 miles an hour in a west-north-westerly direction. The depression at the centre of the storm was much smaller than on the previous day, and probably did not exceed a tenth of an inch, but it was still accompanied by a fairly strong cyclonic circulation of winds. On the 27th the storm had marched nearly westwards and the centre was close to Sutna, and the storm was a shallow depression only, while on the 28th it had almost completely filled up.

During the passage of the storm, in addition to the very low pressures recorded and the very strong cyclonic circulation of winds, which gave very stormy weather with very rough sea at the head of the Bay, and rather squally or somewhat stormy weather over a large part of Bengal, the storm also gave heavy rainfall over the south-western part of the province, the falls being exceedingly heavy near the path of the centre. Thus on the morning of the 24th Contai, in the Midnapore district, reported 15·29 inches of rain, Dantoon, also in the Midnapore district, 10·31 inches, Diamond Harbour 9·90 inches, and Tamluk, Ghatal and Saugor Island each more than 7 inches. On the 25th Mohanea, Shahabad district, reported 6·65 inches, and Aurangabad, Kendrapara, Jajpur, Akhyapada, Chandbali, Bhadrak and Balasore from four to six inches, and so on.

In the rear of the storm also a heavy wave of monsoon winds flowed over the province, but it was deflected mainly over the western and south-western districts, and the remainder of the province received comparatively little rain. On July 29th, however, a change again occurred, pressure fell moderately to briskly over the whole province and became in moderate defect, while at the same time westerly winds apparently forming part of the Bombay branch of the monsoon current began to set in over the west of the province, and to drive back the south-easterly and easterly monsoon winds coming from the Bay of Bengal. As is usually the case when such interaction occurs, very heavy rain began to fall in the western districts of Bengal and in Bihar, and on the 29th many of the stations in this district reported heavy rain, Bettiah receiving 8·50 inches, Buxar 6·14 inches, Siwan 5·17 inches, and many other stations rather heavy falls.

These conditions with winds being of more or less opposite direction, with the accompanying very heavy rainfall, again gave rise to a barometric depression, but which on this occasion was of a feeble nature.

Feeble barometric depression of July 30th to the 1st August.—On the 30th pressure had fallen over the eastern half of the province, the fall being largest at Dinajpur, while it had risen over the west and south-west of the province, and a distinct but feeble barometric depression had formed with a centre near Dinajpur, round which a very distinct circulation of winds appeared. Hence conditions had become particularly favourable for rainfall over practically the whole province, and falls exceeding five inches were reported at Atia, Feuny, Harishpur, Cox's Bazar, and Siwan, while very numerous stations reported amounts of more than three inches. On the 31st the feeble depression had moved in a westerly direction, and was lying along the foot of the hills from about Purnea westwards, and on the 1st of August it had almost disappeared, or had become merged into the monsoon trough of low pressure which at this time was lying almost along the foot of the hills.

This last depression, though meteorologically speaking a feeble one, was of great practical importance, as it gave the first general and heavy rainfall which had been received during the month in certain parts of Bihar and North Bengal, and which were very badly in want of rain, and particularly in such districts as Darbhanga, Muzaffarpur, Purnea, Jalpaiguri Rajshahi, Rangpur, Dinajpur, &c.

Pressure.—During the first week of the month pressure was usually below the normal, the defects ranging from 0·015″ to 0·035″, and being usually largest at the central and south-western stations. In the second week pressure was unusually high, and was in excess by a tenth of an inch, but owing to the passage of the small cyclonic storm through the south of Orissa, the excess over that area was comparatively small. In the third week the distribution of pressure was governed by the storm which passed near Balasore, and while the mean pressure in Orissa and at the neighbouring stations in Bengal showed a decided defect, over the remainder of the province, decided excess pressures were registered. In the fourth week the mean pressure varied from an excess of 0·01″ to 0·02″ at the extreme northern stations to a defect of 0·08″ at Calcutta and defects of 0·05″ and 0·06″ at Saugor Island, Jessore, Midnapore, Cuttack, &c., and hence again the pressure distribution was governed by the storm which had passed through South Bengal. The mean pressure for the whole month has therefore shown very slight defects at the extreme southern stations in South Bengal and also in Orissa, while slight excess pressures have been registered elsewhere, the excess equalling about 0 02″ to 0·03″ at the extreme northern stations.

Temperature.—The mean temperatures for the month have to a great extent followed the variations in the heaviness of the rainfall, and hence the whole of the north of the province has shown a mean temperature of about a degree in excess of the normal. The remainder of the province has registered slightly defective temperatures, the defects increasing towards the south-western districts, and being largest at Cuttack, where a defect of 1·6° is registered.

Rainfall.—The distribution of the rainfall throughout the month and its variation in different districts has already been described in detail in the general summary. The most noticeable feature has been the partial, and in some cases almost entire failure of the mosoon rain to reach certain districts in the north of the province in Bihar and North Bengal. This failure continued almost until the formation of the sixth depression in the last few days of the month, but fortunately this depression gave heavy and much needed rain to the districts which had been previously almost rainless.

The actual rainfall recorded in the different divisions has varied from about nineteen inches in East Bengal, Orissa and Chota Nagpur, and fourteen inches in South-West Bengal and Bihar, to only eleven inches in North Bengal. Slight to moderate excess general falls have been therefore recorded in all districts except North Bengal.

The following table gives a comparison of the falls in the various divisions during the month of July with the normal fall, the actual being given as a percentage of the normal fall. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total of the falls of the past seven months of the year in each division expressed as a percentage of the normal fall. It will be seen that the general fall in the province in July has been 20 per cent. in excess of the normal, while in North Bengal there has been a defect of 20 per cent. Also that for the year up to the end of July the general rainfall of the province has equalled 103 per cent. of the normal, though decided defects have been registered in North Bengal:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	Actual rainfall of first seven months of 1894 expressed as a percentage of the normal fall for the period.
South-West Bengal ...	0	55	42	97	58	104	121	96
North Bengal ...	0	64	16	177	83	77	80	82
East Bengal ...	0	87	164	79	70	95	118	98
Bihar ...	3	163	24	98	29	121	108	100
Orissa ...	30	19	27	128	20	137	154	119
Chota Nagpur ...	3	110	4	144	31	149	138	123

As indicated previously, the distribution of rainfall during July has been extremely irregular. The falls indeed have varied from 57·57 inches in parts of South-East Bengal as represented by the station Cox's Bazar and over 40 inches in parts of North Bengal as represented by a fall of 40·86 inches at Buxa in the Darjeeling district, to a fall of only 3·57 inches at Shiuhar in the Muzaffarpur district, and to falls of only two inches at Sunderganj in the Rangpur district and at Dinhatta in the Kuch Bihar district, and to falls of about four inches at Rangpur itself and Peerganj also in the Rangpur district. Thus at almost neighbouring stations the falls have varied to an enormous extent.

Compared with the normal amounts for July, the actual falls also exhibit most startling discrepancies. The whole of the north of the province, north of a line from about Netrakona

to the south of the Champaran district, has received a defective fall, the defect usually exceeding five inches, and at such stations as Siliguri, Kuch Bihar, and Mathabhanga exceeding fifteen inches, while the southern parts of the province have received excess falls exceeding 5 and 10 inches over a large area and ranging up to excess falls of more than fifteen inches at Cox's Bazar, Chandbali and Contai. As instances of the extraordinary irregularity of the rainfall in July at neighbouring stations, it may be mentioned that in the Saran district, while Siwan received an excess fall of more than nine inches, Gopalganj, only a few miles to the north of it, received a defective fall of three inches; in Champaran, Bettiah received an excess full of three inches and Motihari a defective fall of four inches; and in the Bhagalpur district Banka received an excess fall of thirteen inches and Bhagalpur itself an excess of seven inches, while Supaul received a defective fall of five inches. Hence it will be seen that the fall has been exceedingly irregular even at neighbouring stations, and it is therefore impossible to give any very general and correct review of the rainfall.

The following table gives full data for the comparison of the actual and normal rainfall of the month of July in all districts of the province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past fifteen years. The second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage; and the fourth column gives the same information in a slightly different form, expressing as a percentage how much the district rainfall varied in excess or in defect from the normal rainfall:—

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the 7th August* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 11TH OF AUGUST 1894.

At the close of the previous week the monsoon current blowing over the province was fairly strong, as a low pressure area, which had formed in Bengal, had advanced along the foot of the hills in the North-Western Provinces, and the monsoon winds were being drawn into the feeble depression which still remained. On the 5th of August, or the first day of the week under review, pressure had fallen briskly over the province, and had become in defect by amounts ranging up to a tenth of an inch at the western stations in Bihar. On the 6th instant pressure rose slowly except at the extreme southern stations, and became decidedly low over the centre and north of the Bay and over Orissa, while winds round the north-west angle of the Bay showed a very distinct indraught towards the sea area. It was thus clear a feeble depression had formed off the Orissa Coast on the 6th. On the 7th pressure had again fallen slowly in the south of Orissa, but had risen elsewhere, and the feeble depression which had formed in the Bay on the 6th had become more definite, and was lying off the South Orissa Coast with a centre to the south-east of Puri. It was still a feeble depression, and had not intensified since the 6th. It passed inland during the afternoon of the 7th, the centre crossing the coast near Puri, and at 8 A.M. of the 8th the centre was a little to the south of Sambalpur and had therefore moved in a west-north-westerly direction. It was still a very shallow depression, but it was of large extent and affected a large part of North-Eastern and Northern India and a fairly heavy wave of monsoon winds advanced over Bengal in connection with it. On the 9th the feeble depression had again advanced in a west-north-westerly direction in the Central Provinces, but it had become very feeble, and had practically ceased to exist. On the 9th and 10th, however, pressure fell rather briskly over the greater part of Bengal and Assam, and on the 10th it was in defect by from 0·06″ to 0·08″. This again caused an increase in the strength of the monsoon winds blowing from the Bay over Bengal, and at this time very strong monsoon winds were reported. On the 11th an inrush of westerly and north-westerly winds commenced in the west of the province, partially driving back the strong southerly and south-easterly winds which were flowing in over Bengal from the Bay. By the interaction thus produced, heavy rain was precipitated over the western districts. Pressure also began to fall briskly to rapidly, the fall equalling a tenth of an inch at some of the south-eastern stations, and by the opposing north-westerly and westerly winds with the south-easterly and easterly winds a distinct cyclonic circulation began to set up over the south and south-east of the province. Hence again a feeble whirl or barometric depression had formed over Bengal on this day, and conditions became very favourable for continued general and rather heavy rainfall.

Hence throughout the greater part of the week conditions have again been favourable for good general rain over the province, and falls decidedly in excess of the normal have been received in all districts except South-West Bengal and Orissa, where the falls have been rather smaller than usual.

Pressure.—The mean pressure for the week has been very considerably below the normal, the defect usually equalling from 0·04″ to 0·06″. These defects have been generally largest in Orissa owing to the passage of the depression, and at Cuttack and Balasore the defect equals 0·07″.

In Assam pressure has been in defect by an average amount of 0·05″.

Temperature.—The mean temperature has been generally very nearly normal, and for the whole province of Bengal the average mean temperature has been above the normal by about a tenth of a degree only. In Assam, on the other hand, a defect of 0·8° has been recorded.

Rainfall.—Average falls of between about four and four and a half inches have been received in North and East Bengal and in Chota Nagpur, and of nearly four inches in Bihar. Much smaller falls averaging about two inches only have been received in Orissa and South-West Bengal.

Expressed as percentages of the normal rainfall, the actual falls during the week have equalled the following amounts:—South-West Bengal 58 per cent., North Bengal 126 per cent., East Bengal 108 per cent., Bihar 127 per cent., Orissa 75 per cent., and Chota Nagpur 137 per cent. Taking each division to have an equal value in the calculation, the rainfall of Bengal for the week has equalled 105 per cent. of the normal fall.

In the case of the smaller districts the falls have been particularly heavy in Jalpaiguri, which has received 11·92 inches against the usual fall of 6 84 inches, in Rangpur with 4·84 inches against the normal 2·99 inches, in Bogra with 5·17 inches against the normal 2·69 inches, in Shahabad with 4 96 inches against the normal 2·69 inches, in Champaran with 6·37 inches against the normal 3·49 inches, in Darbhanga with 4·58 inches against the normal 2·63 inches, and in Bhagalpur with 6·33 inches against the normal 3·01 inches.

Very heavy falls have also occurred on various days at individual stations: thus on the 5th August Khurda (Puri district) received 10·87 inches, Debiganj 5 82 inches, Siliguri 6·47 inches, Thakurgaon (Dinajpur district) 9·99 inches. On the 6th Raniganj received 4 89 inches and Bogra 4·96 inches; on the 10th Arrah received 4·50 inches and Mirsarai (Chittagong district) 5 inches, and on the 11th Bhagatpur (Jalpaiguri district) 5·38 inches, Hazaribagh 3·82 inches, and Karagdeha 4 02 inches.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 11th of August 1894:—

Chittagong Collectorate, the 13th August 1894. C. G. H. ALLEN, Offg. Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned revenue-free property situated in the district of Puri, pargana Kotdes, mauza Pratapsasun, will be put up to sale at the Puri Collectorate on the 2nd October 1894, corresponding with 18th Asin 1302, Tuesday.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1*st*.—The property to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this property will be considered as the proprietor of the property, and the entire proprietary right of Government in such property will be transferred to him.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the property to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Pabna Collectorate, the 16th August 1894. H. E. RANSOM, Offg Collector.

Notice under Rule 19, Part I, Section II.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Prasanna Kumar Sircar, and will be sold at 12 o'clock noon on Thursday, the 22nd November 1894 (the 7th Aughran 1301 B.S.), at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated the 12th November 1879.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

ACT No. IV OF 1894.

An Act to amend the Bengal Municipal Act, 1884.

WHEREAS it is expedient to amend Bengal Act III of 1884; It is hereby enacted as follows:—

1. This Act shall be read with, and taken as part of, Bengal Act III of 1884; and it shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor General.

Construction and commencement.

2. (*1*) In section 2, after the words "commenced under this Act" the following shall be added, namely:—

Amendment of section 2.

"The expression 'notifications' as used in this section shall be deemed to include and to have always included all directions, declarations and orders given, or made, and published under any enactment referred to in this section:

"Notifications" defined.

Provided that nothing in this definition shall be deemed to affect any decision or order of a competent court made before the date on which this Act shall come into force."

(*2*) In the same section, for the fourth paragraph, the following shall be substituted:—

"In every enactment passed before this Act comes into force in which reference is made to Bengal Act III of 1864, the District Municipal Improvement Act, or to any enactment hereby repealed, such reference shall, so far as may be practicable, be taken to be made to this Act or to its corresponding part or section."

Saving clause.

3. In section 6, after the definition contained in clause (14), the following definition shall be inserted:—

New definition added to section 6.

"(14 A) 'Sanitary Board' means the persons for the time being appointed, either by name or by official designation, by the Local Government by notification in the *Calcutta Gazette* to constitute a Sanitary Board for Bengal."

"Sanitary Board."

4. For section 9, the following sections shall be substituted:—

New sections substituted for section 9.

"9. The Local Government may, on the recommendation of the Commissioners at a meeting, by notification published in the *Calcutta Gazette*, and in such other manner as it may determine, declare its intention—

Notification of intention to alter limits of municipality.

(*a*) to withdraw any municipality from the operation of this Act; or

(*b*) to exclude from a municipality any local area comprised therein and defined in the notification; or

(*c*) to include within a municipality any local area contiguous to the same and defined in the notification; or

(*d*) to subdivide any municipality into two or more municipalities; or

(*e*) to alter the number of the Commissioners of a municipality:

And the Local Government may, on the recommendation of the Commissioners at a meeting of both or all the municipalities concerned, by notification similarly published, declare its intention to unite two or more municipalities so as to form one municipality:

Provided that no local area shall be included within a municipality unless the Local Government shall have been satisfied that three-fourths of the adult male population of such local area are chiefly employed in pursuits other than agriculture:

Provided also that whenever it shall appear, either from a general census or from special enquiries undertaken in this behalf, that any municipality does not comply with the conditions laid down in section ten, the Local Government may, of its own motion, declare its intention to withdraw such municipality from the provisions of this Act or to deal with it in the manner stated in this section:

Provided also that where the local area to be excluded or included is a cantonment or part of a cantonment, no notification affecting it shall be published under this section without the previous consent of the Governor General in Council.

"9A. (*1*) Any rate-payer of a municipality, inhabitant of a local area or, when the union of two or more municipalities has been recommended, the Commissioners of any one or more of such municipalities in respect of which a notification has been published under the last preceding section may, should he or they object to the alteration proposed, submit his or their objection in writing, through the District Magistrate to the Local Government within six weeks from the publication of the notification in the *Calcutta Gazette*, and the Local Government shall take such objection into consideration.

Objection to proposed alteration may be submitted to Local Government.

(*2*) When six weeks from the publication of the notification have expired and the Local Government has considered the objections (if any) which have been submitted under sub-section (*1*) of this section, the Local Government may, by notification, give effect to the proposed alteration or not, as the case may be.

"9B. Whenever two or more municipalities are united or a municipality is sub-divided, under the two last preceding sections, the Municipal Funds or Fund, and all property vested in the Commissioners of the municipalities or municipality concerned, shall be consolidated, or apportioned in such manner as the Local Government may direct."

Local Government may apportion and dispose of municipal property upon a subdivision or union of municipalities.

5. Sections 11 and 12 are hereby repealed.

Repeal of sections 11 and 12

6. In section 14, in the second paragraph, after the word "appointed" the words "either by name or by official designation" shall be added.

Amendment of section 14.

7. (*1*) In section 15, after the word "election," at the end of the first sentence, the words "and the authority who shall decide disputes thereunder" shall be inserted, and after clause (*2*) of the proviso, the following shall be added:— "or

Addition to section 15.

(3) being a person holding any office or employment carrying a salary of not less than fifty rupees per mensem,

(*a*) under a company registered under the English or Indian Companies Acts which has, during the year immediately preceding such election, paid in respect of any of the rates imposed by this Act an aggregate amount of not less than one hundred rupees, or

(*b*) under a joint-undivided family one of the members of which has during the aforesaid period paid in respect of any of the aforesaid rates an aggregate amount of not less than three rupees, or

(*c*) occupies a holding in respect of which there has been paid during the aforesaid period in respect of any of the aforesaid rates an aggregate amount of not less than three rupees,"

(*2*) At the end of the same section, the following shall be added, namely:—

"Provided that nothing contained in this section nor in any rules made under the authority of this Act shall be deemed to affect the jurisdiction of the Civil Courts.

The term 'rates' in this section shall be deemed to include —

"Rates" defined.

(*a*) the tax upon persons and the rate upon the annual value of holdings levied under section eighty-five;

(*b*) the tax on carriages and horses levied under Part IV;

(*c*) the water-rate on the annual value of holdings levied under Part VII;

(*d*) the lighting-rate on the annual value of holdings levied under Part VIII;

(*e*) the fee for the cleansing of privies and cess-pools levied under Part IX."

8. In section 17, in the first paragraph, after the words "by the Local Government" the words "either by name or by official designation" shall be added.

Amendment of section 17.

9. Section 18 is hereby repealed.

Repeal of section 18.

10. For section 20, the following shall be substituted:—

New section substituted for section 20.

"20. (*1*) The Commissioner of the Division may remove any Commissioner—

Power to remove Commissioners.

(*a*) if he refuses to act or becomes incapable of acting, or is declared insolvent, or is convicted of any non-bailable offence; or

(*b*) if he has been declared by notification to be disqualified for employment in the public service; or

(*c*) if he absents himself from six consecutive meetings of the Commissioners without having obtained permission from the Commissioners at a meeting; or

(*d*) if, in the judgment of the Commissioner of the Division to be recorded in writing, he has become disqualified to continue in office under section fifty-seven: Provided that any Commissioner so removed may appeal to the Local Goverment.

(*2*) All acts and proceedings of any Commissioner so removed shall, if done previously to such removal, be valid and effectual to all intents and purposes."

11. For section 22, the following shall be substituted:—

New section substituted for section 22.

"22. No Commissioner who has been removed from his office by the Local Government under section nineteen, or by the Commissioner of the Division under clauses (*a*) and (*b*) of sub-section (*1*) of section twenty, may be elected or re-elected a Commissioner without the consent of the Local Government."

Commissioner not to be elected or re-elected without consent of Local Government.

12. For section 23, the following shall be substituted:—

New section substituted for section 23.

"23. (*1*) The Local Government shall appoint, either by name or by official designation, the Chairman of every municipality mentioned in the second schedule of this Act.

Appointment of Chairman.

(*2*) The Commissioners of every municipality, the name of which is not included in the said schedule, shall, at a meeting, elect one of their number to be Chairman, or may, whenever a vacancy occurs, at a meeting attended by not less than two-thirds of the Commissioners, request the Local Government to appoint a Chairman, and such Chairman shall be appointed by name.

(*3*) The Local Government may at any time remove a Chairman appointed by it.

(*4*) The Local Government may at any time remove the name of any municipality from the said schedule.

(*5*) Whenever the name of any municipality is removed from the said schedule, the office of Chairman shall thereupon become vacant."

13. In section 24, in the second paragraph, before the word "Every" the words "Except as is otherwise provided in this Act" shall be inserted.

Amendment of section 24.

14. After section 25, the following section shall be inserted:—

New section inserted after section 25

"25A. If a Chairman or a Commissioner is appointed by official designation, the person for the time being holding the office shall be a Chairman or a Commissioner, as the case may be."

Term of office of Commissioners.

15. In section 26, for the words "next subsequent appointment or election, not being an appointment or election under the next succeeding section," the words "first meeting of the body of Commissioners newly appointed and elected, at which a quorum shall be present, and any Chairman elected under sections twenty-three or twenty-seven shall be competent to discharge the duties of his office after his election and pending the orders of the Local Government approving of his election" shall be substituted.

Amendment of section 26.

16. After section 26 the following section shall be inserted:—

New section inserted after section 26.

"26A. Notwithstanding anything contained in sections twenty-four, twenty-five and twenty-seven A, the Chairman and Vice-Chairman of every Municipality shall resign office at the first meeting of the Commissioners newly appointed and elected at which a quorum shall be present. The meeting shall thereupon proceed—

Resignation of Chairman and Vice-Chairman.

(*a*) to elect, or to request the Local Government to appoint, a Chairman, and

(*b*) to elect a Vice-Chairman:

Provided that if the Municipality is in the second schedule of this Act, or if the meeting decides to request the Local Government to appoint a Chairman, the resignation of the Chairman shall not take effect until a new Chairman is appointed."

17. After section 26A, the following section shall be inserted:—

New section inserted after section 26A.

"26B. The Commissioners at a meeting may grant leave of absence to their Chairman or Vice-Chairman for any period not exceeding three months in any one year."

Leave may be granted to Chairman or Vice-Chairman.

18. In section 27, after the words "term of office" the words and letter "or shall avail himself of leave granted under section twenty-six B" shall be inserted, and after the word "death" the words "or absence on leave" shall be inserted; also at the end of the section the words "or during his absence on leave, as the case may be" shall be added.

Amendment of section 27.

19. After section 27, the following section shall be inserted:—

New section inserted after section 27.

"27A. (*1*) A Chairman of a municipality may resign by notifying in writing his intention to do so to the Local Government, and on such resignation being accepted, shall be deemed to have vacated his office.

Resignation of Chairman, Vice-Chairman or Commissioner.

(*2*) A Vice-Chairman or a Commissioner of a municipality may resign by notifying in writing his intention to do so to the Chairman, who shall forthwith lay such notice before the Commissioners at a meeting, and on such resignation being accepted by such Commissioners, shall be deemed to have vacated his office."

20. In section 28, at the end thereof, the following shall be added:—

Addition to section 28.

"And in the case of a salaried Chairman or Vice-Chairman, the Commissioners may grant such leave allowances as they may from time to time determine at a meeting:

Provided that the allowance so granted together with the acting allowance, if any, of the officiating incumbent shall not exceed the salary fixed for the office."

21. After section 29, the following section shall be inserted:—

New section inserted after section 29.

"29A. (*1*) The powers and functions of the Local Government under sections thirty, two hundred and fifty-five, two hundred and fifty-nine and three hundred and thirty-one, may be delegated by the Local Government to Commissioners of Divisions.

Delegation of certain powers and functions of Local Government.

(*2*) In regard to powers or functions delegated to them under this section, Commissioners of Divisions shall have the same authority as the Local Government, and the delegation shall continue until revoked by the Local Government.

(*3*) A delegation under this section may be of all or any of the powers and functions aforesaid, and may be made generally in regard to all the municipalities within the Division of the Commissioner, or it may be made particularly in regard to certain municipalities only.

(*4*) The delegation may be by name or by official designation, and shall in each case be notified in the *Calcutta Gazette*."

22. In section 30, in the first line after the word "roads" the words "including the soil and all" shall be inserted, and in the second and third paragraphs of the same section, after the words "from the operation of this Act" the words "or of any specified section of this Act" shall be inserted.

Amendment of section 30.

23. After section 37, the following sections shall be inserted:—

New sections inserted after section 37.

"37A. The Commissioners of any municipality may join with the Commissioners of any other one or more municipalities, or with any District Board or with any Cantonment authority, or with more than one such Board or Cantonment authority, in constituting out of their respective bodies a Joint-Committee consisting of not more than two members from each of such bodies for any purpose in which they are jointly interested, and in delegating to any such Joint-Committee any power which might be exercised by either or any of the municipal bodies, or District Boards, or Cantonment authorities concerned, and such Joint-Committee may from time to time frame rules

Formation of Joint-Committees.

as to the proceedings of any such Joint-Committee, and as to the conduct of correspondence relating to the purpose for which such Joint-Committee is constituted.

"37B. Whenever it appears expedient to the Commissioners of any municipality, or to the Commissioners of a municipality acting conjointly with the Commissioners of any other municipality or municipalities or with one or more of any of the local authorities specified in the last preceding section to provide a supply of water for domestic purposes, or to introduce a system of drainage, they may cause to be prepared a scheme and estimates of the cost of the works necessary for the purpose, together with such plans and specifications of the same as may be necessary, and may submit the same to the Local Government through the Commissioner of the Division within which the area, or the larger portion of the area, which it is proposed to supply with water or to drain is situated.

Voluntary introduction of a water-supply or system of drainage.

"37C. The Local Government may refer such scheme, plans, specifications and estimates to the Sanitary Board, who in consultation with a committee consisting of one member to be appointed by the municipality or by each of the municipalities or other local authorities concerned, and one member to be appointed by the Commissioner of the Division within which the area, or the larger portion of the area, which it is proposed to supply with water or to drain is situated, shall consider the same and report thereon to the Local Government.

Sanitary Board with a committee to consider and report on scheme.

"37D. The Local Government shall consider the report, together with the plans, specifications and estimates, and may thereupon:

Local Government to sanction, modify or refer scheme.

(*a*) sanction the scheme, or

(*b*) add to, alter or modify the scheme, and sanction the same so added to, altered or modified, or

(*c*) add to, alter or modify the scheme and refer the same so added to, altered or modified together with the plans, specifications and estimates, to the Sanitary Board, who, in consultation with the said Committee, shall further consider the scheme so added to, altered or modified, and report thereon to the Local Government.

"37E. (*1*) When the scheme recommended for sanction extends to two or more municipalities or other local areas, the Sanitary Board, acting in consultation with the committee, as constituted under section thirty-seven C, shall include in their report proposals for distributing the cost of the scheme, including its maintenance and working expenses, between or among the local authorities benefitted.

Distribution of costs of scheme.

(*2*) In the case of municipalities, such distribution shall be in proportion to the income derived by each from taxation, allowance being made for any difference in the degree of benefit conferred on each, such as, in the case of a water-supply scheme, the pressure at which the water is delivered, the facilities for procuring water, the distance from the head-works, and the like.

"37F. (*1*) When the scheme has been approved by the Local Government, there shall be published in the *Calcutta Gazette*, and locally in accordance with the provisions of section three hundred and fifty-four, the following particulars:—

Approved scheme to be published.

(*a*) a general description of the scheme;

(*b*) an estimate of the cost of carrying it out;

(*c*) an estimate of the cost of maintaining it;

(*d*) the source from which the cost will be met;

(*e*) the amount of the loan, if any, the annual instalments by which it will be repayable, and the number of years required to repay it;

and where several local authorities are concerned;

(*f*) the distribution of the loan;

and

(*2*) Where the scheme is for providing or improving the water-supply, the following additional particulars in respect of each municipality concerned:—

(*a*) the total annual charge to be incurred by reason of the water-supply and to be met by a water-rate;

(*b*) the percentage of such water-rate on the annual value of holdings;

(*c*) the average incidence of such water-rate per head of the population.

"37G. After the expiry of two months from the date of such publication, and after considering any objections or suggestions that may be submitted, the Local Government may sanction or reject the scheme as published, or may refer it, with such suggestions as it may think fit, to the Sanitary Board, who, in consultation with the same committee as aforesaid, shall consider the scheme with a view to its amendment, and when the scheme shall have been so considered, it shall be forwarded to the Local Government, and the provisions of this and the last preceding section shall be applied.

Sanction of scheme.

"37H. When a scheme has been sanctioned by the Local Government under the last preceding section, the Commissioners of the municipality or municipalities, or the local authorities concerned shall, if the rate and other monies to be collected, received or recovered for or in respect of the water-supply or drainage system be sufficient for the purpose, proceed to carry it out, and where two or more municipalities or local authorities are concerned, a joint-committee may be formed for that purpose according to rules to be framed in this behalf by the Local Government.

Scheme to be carried out by municipalities.

"37I. The Local Government may order the works specified in any scheme, plans, specifications and estimates, or any portion thereof, to be executed by an officer to be appointed by it, and shall fix the remuneration of such officer, (provided that the cost of the scheme as sanctioned be not exceeded): and may specify a period within which the work shall be completed, and may extend such period from time to time as may be necessary.

Local Government may appoint an officer to execute the works.

"37J. The cost of making plans, specifications and estimates, and the travelling expenses incurred by the members of the committee in attending the meetings of the Sanitary Board for the consideration of the scheme, and the cost of carrying out the scheme if the same be proceeded with, may be advanced from the public funds on the security of the fund or funds of the municipality or municipalities or other local authority or authorities concerned, and shall be recoverable under the Loans Act, 1879, and all the provisions of that Act and the rules made under it referring to the recovery of loans shall be applicable to such advances.

Cost of the scheme to be advanced from the public funds.

(*1*) Every person who intends to erect or re-erect any house, not being a hut, shall give notice in writing of his intention to the Commissioners, and shall accompany such notice with a general description of the building which he intends to erect, and of the provision he intends to make in respect of drainage and latrine accommodation, and the Commissioners may, within six weeks after the receipt of such notice, either refuse to sanction the said building or may sanction the said building either absolutely or subject to any written directions which the Commissioners may deem fit to issue in accordance with the rules, if any, made under section two hundred and forty-one:

Notice of erecting a house not being a hut.

Provided that the Commissioners shall make full compensation to the owner for any damage which he may sustain in consequence of the prohibition of the re-erection of any house, or of their requiring any land belonging to him to be added to the street.

(*2*) Any person giving notice to the Commissioners under this section shall, if required to do so by any rule, forward with his notice a plan and specification of the house, not being a hut, which he intends to erect or re-erect, together with a site plan of the land of such character, and with such details as the rule may require, and no notice under this section shall be valid until such plans and specification have been supplied.

"238. (*1*) Should any person commence to erect or re-erect such house, not being a hut, without giving notice, or without submitting such plans and specification as aforesaid, or in contravention of any legal order of the Commissioners issued within six weeks of receipt of a valid notice under the last preceding section, the Commissioners may, by notice, to be delivered within fifteen days, require the building to be altered or demolished, as they may deem necessary.

Commissioners may order a house not being a hut erected without notice, etc., to be altered or demolished.

(*2*) Should the Commissioners neglect or omit for six weeks after the receipt of a valid notice under the last preceding section to make and deliver to the person who has given such notice any order in respect thereof, they shall be deemed to have sanctioned the proposed house absolutely:

Provided that no rule under section two hundred and forty-one and no legal order shall be held to have been contravened by anything done in accordance with plans and specifications forwarded to the Commissioners under section two hundred and thirty-seven and not objected to by them.

"239. Every sanction for the erection or re-erection of any house, not being a hut, which shall be given or deemed to be given by the Commissioners, shall be available for one year from the date on which the notice shall have become valid and complete, and no longer; and should the house so sanctioned not have been begun by the person who has obtained such sanction, or some one lawfully claiming under him within such year, it shall not be begun without fresh sanction, but such person as aforesaid may at any subsequent time give fresh notice to the Commissioners in the manner hereinbefore prescribed, and thereupon the provisions hereinbefore contained shall apply to such notice.

Sanction available for one year only.

"240. The expression 'erect or re-erect any house, not being a hut' as used in the two last preceding sections includes:—

Definition of expression "erect or re-erect any house, not being a hut."

(*a*) any material alteration or enlargement of any building;

(*b*) such alterations of the internal arrangements of a house as effect an alteration of its drainage or sanitary arrangements, or affect its stability.

"241. (*1*) The Commissioners at a meeting may from time to time make, repeal or alter rules to regulate the erection or re-erection of houses, not being huts, within the municipality in respect of all or any of the following matters:—

Power of the Commissioners to make rules as to mode of construction of houses not being huts.

(*a*) the materials and method of construction to be used for external and party walls, roofs, floors, fire-places and chimneys;

(*b*) the provision, position and ventilation of drains, privies and cess-pools;

(*f*) the level and width of the foundation, the level of the lowest floor and the stability of the structure;

(*g*) the number and height of the storeys of which the house may consist;

(*h*) the means to be provided for egress from the house in case of fire.

(*i*) the line of frontage with neighbouring houses if the house abuts on a street.

(*2*) Rules under this section, not inconsistent with the Act, shall be subject to the sanction of the Local Government, and shall, if sanctioned, be published in such manner as the Local Government may direct, and shall have the force of law.

(*3*) If in and during the erection or re-erection of any house, any rule under this section is contravened, the Commissioners may by notice to be delivered within fifteen days require the building to be altered, or, if necessary, demolished within the space of thirty days, so as to secure conformity to such rule.

(*4*) This section shall not take effect in a municipality until it has been specially extended thereto by the Local Government at the request of the Commissioners at a meeting."

69. For section 242, the following section shall be substituted:— New section substituted for section 242.

"242. The Commissioners may prohibit the owner of any house, not being a hut, from letting it for occupation, if in their opinion it is unstable, or if the drainage or latrine accommodation of such house is in their opinion defective, until its stability shall have been secured or such defects in drainage or latrine accommodation shall have been made good to their satisfaction." Commissioners may prohibit letting of unstable or ill-drained house.

70. After section 242, the following section shall be inserted:— New section inserted after section 242.

"242 A. (*1*) Any person aggrieved— Appeals from orders of Commissioners.

(*a*) by the prohibition by the Commissioners under section two hundred and thirty-seven of the erection or re-erection of a house, not being a hut, or

(*b*) by a notice from the Commissioners under section two hundred and thirty-eight or sub-section (*3*) of section two hundred and forty-one requiring the alteration or demolition of a building, or

(*c*) by any order made by the Commissioners under the powers conferred upon them by section two hundred and forty-two,

may appeal within thirty days from the date of such prohibition, notice or order, to the Commissioners, and every such appeal shall be heard and determined by not less than three Commissioners, who shall be appointed in that behalf by the Commissioners at a meeting, and no such prohibition, notice or order shall be liable to be called in question otherwise than by such appeal.

(*2*) The appellate authority may, for sufficient cause, extend the period allowed by sub-section (*1*) of this section for appeal.

(*3*) The order of the appellate authority confirming, setting aside or modifying the prohibition, notice or order appealed from shall be final:

Provided that the prohibition, notice or order shall not be modified or set aside until the appellant and the Commissioners have had reasonable opportunity of being heard."

71. In section 243, after the word "without" the words "one month's" shall be inserted, after the words "front of" the words "each line" shall be inserted, and for the words "each line" the words "every two lines" shall be substituted. Amendment of section 243.

81. For section 279, the following shall be substituted :—

Imposition of water-rate.

"279. (1) In any municipality to which the provisions of this Part shall be extended in the manner prescribed by section two hundred and twenty-two, it shall be lawful for the Commissioners at a meeting to impose a water-rate not exceeding seven and-a-half per centum on the annual value of holdings when the houses and lands are situated in any road supplied with water, and not exceeding six per centum when the house and lands are situated in any road not so supplied.

(2) In fixing the amount of the rate, regard shall be had to the principle that the total net proceeds of the tax, together with the estimated income from payments for water supplied from the works under special contract or otherwise, shall not exceed the amount required for carrying out the purposes of this Part.

(3) The water-rate shall be paid by the occupiers of the holdings by quarterly instalments in advance:

Provided that such water-rate shall not be levied upon—

(a) any house or land, no part of which is within a radius to be fixed by the Local Government for each municipality from the nearest standpipe or other supply of water available to the public; or

(b) any land used exclusively for purposes of agriculture:

Provided also that nothing in this section shall prevent the Commissioners from making any special arrangement consistent with this Act with persons residing beyond the radius fixed by the Local Government."

New section substituted for section 290.

82. For section 290, the following shall be substituted:—

Communication-pipes.

"290. Whenever the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may at a meeting and subject to such rules and conditions as the Local Government may make and impose, allow the owners and occupiers paying the water-rate hereinbefore mentioned to lay down communication-pipes from the service-pipes of the Commissioners, for the purpose of leading water to their premises for domestic purposes."

Omission from section 294.

83. In section 294, the words "through meter" shall be omitted.

84. In section 307, after the words "maintaining the water-works" the words "in the payment of such a proportionate share of the cost of collection and of general supervison as the Commissioners in meeting may from time to time direct" shall be inserted.

Amendment of section 307.

85. After section 318, the following section shall be inserted :—

New section inserted after section 318.

"318A. The lighting rate and all the moneys collected, received or recovered for, or in respect of, lighting or the execution of works, and all fines connected therewith, or in any respect relating to lighting, shall be applied by the Commissioners in defraying the expenses of making, extending or maintaining the lighting system, in the payment of such a proportionate share of the cost of collection and of general supervision as the Commissioners in meeting may from time to time direct, in paying the interest of money borrowed for lighting and in the liquidation of debts incurred in connection therewith, or for some other purposes connected with lighting."

Application of rates and moneys received for lighting.

The Cleansing of Private Privies and Cess-pools.

86. In section 320, the words "public and" shall be omitted, and for the word "latrines" the words "privies and cess-pools" shall be substituted.

Amendment of section 320.

87. In section 321, in the first paragraph, after the word "holdings" the words "containing dwelling-houses" shall be inserted.

Amendment of section 321.

88. For section 322, the following section shall be substituted :—

New section substituted for section 322.

"322. (*1*) The said fee shall be payable in quarterly instalments by the occupier for the time being of the holding or by the owner thereof if there is no occupier, or under the provisions of the next succeeding section, and shall be recoverable in the manner prescribed for the recovery of the rate on the value of holdings in this Act, and the provisions of section one hundred and ten shall be applicable.

Recovery of fees.

(*2*) Every instalment of the said fee shall be deemed to be due on the first day of the quarter in respect of which such instalment is payable.

(*3*) The proceeds of the said fees shall be applied to the maintenance of the said establishment, and generally to carrying out the provisions of this Part.

(*4*) A list of the said fees, and of the persons liable to pay the same, shall be published once in every year as prescribed in section three hundred and fifty-four: Provided that no such fee shall be levied in respect of any shop or place of business which does not contain any privies or cess-pools, when a fee under this Part is levied from the occupier thereof in respect of his dwelling-house within the same municipality."

89. Sections 327 and 328 are hereby repealed.

Repeal of sections 327 and 328.

90. After section 334, the following section shall be inserted :—

New section inserted after section 334.

"334A. The provisions of this Part shall not apply to any jail, reformatory or lunatic asylum in which an establishment is maintained for the cleansing of privies and cess-pools therein."

For the prevention and extinction of fire, the Commissioners at a meeting may resolve to establish and maintain a fire-brigade and to provide any implements, machinery, or means of communicating intelligence which the Commissioners may think necessary for the efficient discharge of their duties by the brigade.

Establishment and maintenance of fire-brigade.

"349B. (*1*) On the occasion of a fire in a municipality, any Magistrate, any Municipal Commissioner, the Secretary to the Commissioners, any member of a fire-brigade maintained by the Commissioners, then and there directing the operations of men belonging to the brigade, and (if directed so to do by a Magistrate or by a Municipal Commissioner) any police officer above the rank of constable may—

Power of fire-brigade and other persons for suppression of fires.

(*a*) remove or order the removal of any person who by his presence interferes with or impedes the operations for extinguishing the fire, or for saving life or property;

(*b*) close any street or passage in or near which any fire is burning;

(*c*) for the purpose of extinguishing the fire, break into or through, or pull down, or use for the passage of any hose or other appliance, any premises;

(*d*) cause mains and pipes to be shut off so as to give greater pressure of water in the place where the fire has occurred;

(*e*) call on the persons in charge of any fire-engine to render such assistance as may be possible;

(*f*) generally take such measures as may appear necessary for the preservation of life or property.

(2) No person shall be liable to pay damages for any act done by him under sub-section (1) of this section in good faith."

Amendment of section 350.

93. In section 350, for the words "giving effect to the objects of this Act" the following shall be substituted:—

"(a) regulating traffic, and for the prevention of obstructions and encroachments, and of nuisances on or near roads;

(b) regulating the use of, and the prevention of nuisances in regard to, public water-supply, bathing and washing places, streams, channels, tanks and wells;

(c) regulating the disposal of sewage, offensive matter, carcasses of animals and rubbish, and the management of privies, drains, cess-pools and sewers;

(d) regulating cremations and burials and the disposal of corpses;

(e) preventing nuisances affecting the public health, safety or convenience; and

(f) giving effect to the objects of this Act."

New section inserted after section 350.

94. After section 350, the following section shall be inserted:—

Additional power to make bye-laws in hill-municipalities.

"350A. The Commissioners of a municipality, wholly or in part situated in a hilly tract, may at a meeting, in addition to such bye-laws as they may make under the last preceding section, make, repeal or alter bye-laws:—

For regulating or prohibiting the cutting or destroying of trees or shrubs, or the making of excavations or removal of soil or quarrying, where such regulation or prohibition appears to the Commissioners to be necessary for any or all of the following purposes:—

(a) the maintenance of a water-supply;
(b) the preservation of the soil;
(c) the prevention of landslips;
(d) the formation of ravines or torrents;
(e) the protection of land against erosion or the deposit thereon of sand, gravel or stones."

Amendment of section 351.

95. In section 351, the last paragraph shall be omitted, and at the end thereof the following paragraph shall be added:—

"The Local Government may cancel its confirmation of any such bye-law, and thereupon the bye-law shall cease to have effect."

Local Government may cancel its confirmation of any bye-law.

New section inserted after section 351.

96. After section 351, the following section shall be inserted:—

Power to make rules as to business and affairs.

"351 A. (1) The Commissioners at a meeting may from time to time make, repeal or alter rules as to—

(a) the time and place of their meetings, the business to be transacted at meetings, and the manner in which notice of meetings shall be given;

(b) the conduct of proceedings at meetings, the due record of all dissents and discussions, and the adjournment of meetings;

(c) the custody of the common seal;

(d) the division of duties among the Commissioners, and the powers to be exercised by sub-committees or members to whom particular duties are assigned;

(e) the persons by whom receipts shall be granted for money received under this Act;

(f) the duties, appointment, leave, suspension and removal of the officers and servants of the Board;

(g) and other similar matters.

(2) Rules made under this section, consistent with this Act, shall be subject to the sanction of the Local Government, and shall, if sanctioned, be published in such manner as the Local Government may direct, and shall have the force of law."

* Mean for 6 days.

Explanation.—Summary—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the stations for the period in question. The *humidity* of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisions. stations in the district sending in returns divided by the number of stations. A rainy day is one of which at least a tenth of an inch fell.

for the week ending Saturday, the 18th of August 1894.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the 21st August* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 18TH OF AUGUST 1894.

At the close of the previous week ordinary monsoon conditions prevailed in Bengal except that on the 11th, or the last day of the week, there was a slight tendency for a barometric depression to form over Bengal. On the 12th, or the first day of the week under review, pressure had fallen over the eastern half of the province and at some of the central and northern stations, while it was rising in the west of the province. Hence the barometric depression which had been forming on the previous day had become more prominent, and pressure was in defect by amounts ranging up to 0·17″ at Faridpur and 0·162″ at Barisal and Narayanganj. A distinct circulation of winds also set up round the low pressure area, and by the indraught towards the depression, winds became rather strong at the head of the Bay. General and rather heavy rain was also being received in connection with the depression. On the 13th the feeble depression had moved in a west-north-westerly direction into West Bengal, and the centre was a little to the north of Raniganj. It had not, however, intensified in any way and was still very feeble, though it was giving good general rain over the whole province. Hence on the 13th with the movement of the depression pressure had fallen at the western and south-western stations, while it was rising at the eastern, northern and central stations. It was also accompanied by an almost perfect cyclonic circulation of winds, though the wind force was light. On the 14th the depression had again moved away in a west-north-westerly direction, and the centre was probably near Hazaribagh, but it was a very extensive and shallow depression, and was giving moderate winds only with general and fairly heavy rain. On the 15th the barometric changes in Bengal were particularly small, and the very feeble depression had continued to drift very slowly westwards and covered Baghelkhand and part of Chota Nagpur, so that conditions in Bengal remained unchanged, and moderate general rain with a moderately strong monsoon prevailed. On the 16th pressure was rising slowly at all except a few of the eastern stations, and the feeble depression had moved slightly westwards, and was mainly over the North-Western Provinces with a centre, perhaps, to the south of Benares, so that it had practically little effect on the conditions in Bengal. A fairly strong monsoon, however, continued to blow over Bengal towards the depression, and rainfall continued general. On the 17th pressure continued to increase very slowly over the greater part of Bengal, and the feeble depression had again extended slightly in a westerly direction, but the general weather conditions in Bengal were quite unchanged. Finally, on the 18th, or the last day of the week, pressure had again risen moderately to rather briskly over Bengal, though it was falling in Assam, but notwithstanding the steadily increasing pressure, a defect usually ranging from 0·05″ to 0·08″ was still registered over the province. The feeble depression had again moved westwards, and the centre was near Nowgong, but it was unchanged in general character, and was a very shallow diffused depression extending over a large area accompanied by a distinct cyclonic circulation of winds. As before, moderate monsoon winds were blowing over Bengal into the depression, and hence fairly general rain continued to be received.

Hence it will be seen that throughout the whole week a barometric depression has existed, and has moved slowly from South-East Bengal in a west-north-westerly and westerly direction to near Nowgong. The depression, however, has at no time developed in intensity, and has remained throughout as a feeble, diffused low pressure area with a moderate cyclonic circulation of winds. On the other hand, throughout its existence it has given fairly general and rather heavy rain. It is very unusual for a depression to exist for so long a period without any practical change in intensity, and hence the history of the depression has been peculiar.

Pressure.—Owing to the passage of the depression through the province, pressure has been rather largely below the normal. The defect has been smallest at the extreme eastern stations, which have not been affected by the depression, and at Sibsagar the defect has only equalled 0·059″. On the other hand, in the west of the province, where the stations have been affected for the longest time by the depression, defects exceeding a tenth of an inch are common, and at Hazaribagh the defect has equalled 0·124″.

Temperature.—Owing to the good general rainfall which has been received, the mean temperature has been in defect in practically all districts. The defects have been largest in Chota Nagpur, Orissa, and South-West Bengal, where they have equalled nearly a degree and-a-half, and for the whole of Bengal the defect in the mean temperature has averaged one degree.

In Assam a defect of only 0·3° has been registered.

Rainfall.—The heavy average fall of more than five inches has been received in Chota Nagpur during the week, which is nearly twice the usual amount. In South-West Bengal, East Bengal and Bihar, the falls have averaged between three and three-and-a-half inches, while in North Bengal and Orissa they have averaged between two and two-and-a-half inches. The falls in Bihar and South-West Bengal have been in moderate excess, while they have been in defect elsewhere.

Expressed as percentages of the normal rainfall, the actual falls during the week have equalled the following amounts:—South-West Bengal 112 per cent., North Bengal 64 per cent.,

East Bengal 84 per cent., Bihar 130 per cent., Orissa 89 per cent., and Chota Nagpur 191 per cent. Taking each division to have an equal value in the calculation, the rainfall of Bengal for the week has equalled 112 per cent. of the normal fall.

In the case of the smaller districts the falls have been decidedly heavy in Birbhum, Bankura, Shahabad, Monghyr, Manbhum, and Singhbhum, and on the other hand decidedly light falls have been reported in Howrah, Calcutta district, Darjeeling, Kuch Bihar, South Lushai Hills, and Bhagalpur.

Heavy falls exceeding seven inches during the week have been received at the following stations:—Hitampur (Birbhum district), Khatra (Bankura district), Gangajhalghati and Raipur (both in Bankura district), Garhbeta (Midnapore district), Gnatong, Noakhali, Chittagong, Bhabua, Sasaram, Mohanea, Khiri and Bassawan in the Shahabad district, Gobindpur (Manbhum district), and Chaibassa and Kalikapur in the Chaibassa district.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 18th of August 1894:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers.

In the weekly report from 1st to 7th July 1894 *read* 1·29 inches *for* 0·29 inch as the rain of the 4th July 1894.

EDUCATION DEPARTMENT, BENGAL.

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following Rules for the Affiliation of Colleges have been sanctioned by the Senate and approved by His Excellency the Governor-General of India in Council:—

RULES FOR THE AFFILIATION OF COLLEGES.

1. Institutions or departments of Institutions may be affiliated in Arts or a department of Arts, Law, Medicine, and Engineering.

2. The power of affiliation rests, under the sanction of the Governor-General of India in Council, with the Syndicate, to whom all applications for affiliation must be addressed through the Registrar.

3. In the case of a Government Institution, application must be made by the Director of Public Instruction, or other chief educational officer of the province in which the Institution is situated.

In the case of any other Institution, application must be made by the chief controlling authority of such Institution.

4. Every application must be countersigned by two members of the Senate, and, if thought necessary, in the case of distant Institutions, by the Secretary to the Government of the province in which the Institution is situated.

5. The application must contain the following:—

(*a*) Information regarding the Constitution of the Managing body, and the names of its members.

(*b*) A statement regarding the standard up to which the Institution is to be affiliated.

(*c*) A statement showing the provision made for the instruction of the students up to the same standard.

(*d*) The scale of fees ordinarily to be charged.

(*e*) Satisfactory assurance that the Institution will be maintained on the proposed footing for five years at least.

6. Before recommending for affiliation an Institution in the neighbourhood of another Institution already affiliated, it shall be the duty of the Syndicate to enquire whether the establishment of the new Institution is likely to be detrimental to the interests of sound education and discipline.

7. In the month of July of each year, or in such other month as the Syndicate may from time to time determine, the Principal of every affiliated Institution shall submit a report to the Syndicate, showing the staff maintained throughout the preceding year, and giving the names of all members of the staff at the time of submitting the Report.

8. The Senate may, on the recommendation of the Syndicate, and with the sanction of the Governor-General of India in Council, at any time withdraw the privileges of affiliation from any Institution.

Pabna Collectorate, the 16th August 1894. H. E. RANSOM, Offg. Collector.

Notice under Rule 19, Part I, Section II.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Prasanna Kumar Sircar, and will be sold at 12 o'clock noon on Thursday, the 22nd November 1894 (the 7th Aughran 1301 B.S.), at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated the 12th November 1879.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

ACT No. IV OF 1894.

An Act to amend the Bengal Municipal Act, 1884.

WHEREAS it is expedient to amend Bengal Act III of 1884; It is hereby enacted as follows:—

Construction and commencement.

1. This Act shall be read with, and taken as part of, Bengal Act III of 1884; and it shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor General.

Amendment of section 2.

2. (*1*) In section 2, after the words "commenced under this Act" the following shall be added, namely:—

"The expression 'notifications' as used in this section shall be deemed to include and to have always included all directions, declarations and orders given, or made, and published under any enactment referred to in this section:

"Notifications" defined.

Provided that nothing in this definition shall be deemed to affect any decision or order of a competent court made before the date on which this Act shall come into force."

(*2*) In the same section, for the fourth paragraph, the following shall be substituted:—

"In every enactment passed before this Act comes into force in which reference is made to Bengal Act III of 1864, the District Municipal Improvement Act, or to any enactment hereby repealed, such reference shall, so far as may be practicable, be taken to be made to this Act or to its corresponding part or section."

Saving clause.

New definition added to section 6.

3. In section 6, after the definition contained in clause (14), the following definition shall be inserted:—

"(14 A) 'Sanitary Board' means the persons for the time being appointed, either by name or by official designation, by the Local Government by notification in the *Calcutta Gazette* to constitute a Sanitary Board for Bengal."

"Sanitary Board."

New sections substituted for section 9.

4. For section 9, the following sections shall be substituted:—

"9. The Local Government may, on the recommendation of the Commissioners at a meeting, by notification published in the *Calcutta Gazette*, and in such other manner as it may determine, declare its intention—

Notification of intention to alter limits of municipality.

(*a*) to withdraw any municipality from the operation of this Act; or

(*b*) to exclude from a municipality any local area comprised therein and defined in the notification; or

(*c*) to include within a municipality any local area contiguous to the same and defined in the notification; or

(*d*) to subdivide any municipality into two or more municipalities; or

(*e*) to alter the number of the Commissioners of a municipality:

And the Local Government may, on the recommendation of the Commissioners at a meeting of both or all the municipalities concerned, by notification similarly published, declare its intention to unite two or more municipalities so as to form one municipality:

Provided that no local area shall be included within a municipality unless the Local Government shall have been satisfied that three-fourths of the adult male population of such local area are chiefly employed in pursuits other than agriculture:

Provided also that whenever it shall appear, either from a general census or from special enquiries undertaken in this behalf, that any municipality does not comply with the conditions laid down in section ten, the Local Government may, of its own motion, declare its intention to withdraw such municipality from the provisions of this Act or to deal with it in the manner stated in this section:

Provided also that where the local area to be excluded or included is a cantonment or part of a cantonment, no notification affecting it shall be published under this section without the previous consent of the Governor General in Council.

"9A. (*1*) Any rate-payer of a municipality, inhabitant of a local area or, when the union of two or more municipalities has been recommended, the Commissioners of any one or more of such municipalities in respect of which a notification has been published under the last preceding section may, should he or they object to the alteration proposed, submit his or their objection in writing, through the District Magistrate to the Local Government within six weeks from the publication of the notification in the *Calcutta Gazette*, and the Local Government shall take such objection into consideration.

Objection to proposed alteration may be submitted to Local Government.

(*2*) When six weeks from the publication of the notification have expired and the Local Government has considered the objections (if any) which have been submitted under sub-section (*1*) of this section, the Local Government may, by notification, give effect to the proposed alteration or not, as the case may be.
